Republic Services offers on-site workshops and employee training. Call customer service for more information.

Recycling Workshops

Republic Services will personally visit all Multi-Family Dwellings and commercial businesses to perform a free recycling opportunity assessment to get a thorough understanding of your needs. Once complete we will create a customized plan for your company, including both our solid waste service and our All-In-One recycling service, which may reduce your overall costs.

Recycling Opportunity Assessments

The State of California passed Assembly Bill 341 requiring mandatory recycling, our All-In-One recycling approach can help your business stay compliant with this mandate.
