#### AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Nick Kimball, Finance Director

**Date:** July 18, 2016

**Subject:** Consideration to Adopt Resolution Approving Warrant Register

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Adopt Resolution No. 16-071 (Attachment "A") approving the Warrant Register dated July 5, 2016; and
- b. Adopt Resolution No. 16-072 (Attachment "B") approving the Warrant Register dated July 18, 2016.

#### **BACKGROUND:**

For each City Council meeting the Finance Department prepares a Warrant Register for City Council approval. The Register includes all recommended payments for the City. Checks, other than handwritten checks, generally are not released until after the City Council approves the Register. The exceptions are for early releases to avoid penalties and interest, excessive delays and in all other circumstances favorable to the City to do so. Handwritten checks are those payments required to be issued between City Council meetings such as insurance premiums and tax deposits. Staff reviews requests for expenditures for budgetary approval and then prepares a Warrant Register for Council approval and/or ratification. Items such as payroll withholding tax deposits do not require budget approval.

The Finance Director hereby certifies that all requests for expenditures have been signed by the department head, or designee, receiving the merchandise or services thereby stating that the items or services have been received and that the resulting expenditure is appropriate. The Finance Director hereby certifies that each Warrant Register has been reviewed for completeness and that sufficient funds are available for payment of the Warrant Register.

There are two Warrant Registers attached due to the lack of a formal City Council meeting on July 5, 2016. Resolution No. 6212 (adopted August 3, 1992) approves the issuing of Warrants

#### **Consideration to Adopt Resolution Approving the Warrant Register**

prior to City Council ratification due to cancellation of a regularly scheduled City Council meeting. A copy of the Resolution No. 6212 and the memorandum provided to the City Treasurer approving the release of the Warrants are attached to this report (Attachments "C" and "D").

#### **ATTACHMENTS:**

- A. Resolution No. 16-071
- B. Resolution No. 16-072
- C. Resolution No. 6212 (August 3, 1992)
- D. Memorandum Approving Release of Warrant Register (July 6, 2016)

By: Chris Marcarello, Deputy City Manager/Public Works Director

**Date:** July 18, 2016

**Subject:** Consideration to Award a Contract for Highway Safety Improvement Program,

Pedestrian Head Replacement Project HSIPL-5202(017), Job No. 7593

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Approve plans and specifications (Attachment "A") for the for Highway Safety Improvement Program (HSIP), Pedestrian Head Replacement Project HSIPL-5202(017), Job No. 7593;
- b. Accept the lowest responsive bid from Traffic Development Services, Inc. for construction of these improvements;
- c. Authorize the City Manager to execute a Construction Contract with Traffic Development Services, Inc., (Attachment "B" Contract No. 1833) for an amount not to exceed \$43,836;
- d. Establish an amount of approximately 15% of the contract amount (\$6,575), as a contingency, to cover the cost of unforeseen construction expenses; and
- e. Accept funds in the amount of \$60,000 awarded to the City by the State of California Department of Transportation (Caltrans) and authorize the City Manager or designee to execute the grant agreement with Caltrans.

#### BACKGROUND:

As part of the City's Fiscal Year 2015-2016 Budget, the City Council approved a project titled "Highway Safety Improvement Program, Replacement of Pedestrian Traffic Signals", which involves the installation of new pedestrian traffic signal heads at several signalized traffic intersections. The bulk of this project is funded through the State of California Highway Safety Improvement Program, with a total approved grant of \$60,000 and \$10,000 in additional funding from Gas Tax funds.

Page 2 of 3

#### **ANALYSIS:**

Based on a review of accessibility requirements included in the Americans with Disabilities Act ("ADA"), several signalized intersections in the City have been identified for improvements. Improvements in this grant-funded project will include the replacement of existing pedestrian traffic signals with new modules that utilize countdown timers to inform pedestrians the time remaining to cross at signalized intersections. These improvements will help to enhance pedestrian crossing areas and improve traffic and pedestrian safety.

### **Project Details**

The proposed project includes the retrofit of seventy-three existing pedestrian heads with new countdown modules and the installation of forty (40) new countdown modules and related electrical improvements.

On June 30 at 11:00 a.m., the City Clerk received and opened three (3) bids for construction of these improvements (Attachment "C"). Staff analyzed all bids and determined the bid from Traffic Development Services, Inc. to be the lowest responsive bid. The table below summarizes the bids received for project construction:

RANK	BIDDER	BID AMOUNT
1	Traffic Development Services, Inc.	\$43,836.00
2	Siemens	\$45,785.00
3	Taft Electrical	\$52,574.68

Traffic Development Services, Inc. has successfully completed similar projects for the cities of Fontana, Bakersfield, Long Beach, Lancaster, Torrance, and Santa Clarita.

### <u>Timeline</u>

If the construction contract is awarded by the City Council staff will work to complete this project according to the following schedule:

- July 18, 2016
   City Council Award of Contract
- Tentative Construction Schedule September 2016

As indicated in the project bid specifications, the contractor has ten (10) working days to complete the project.

Bond Forms required are included in these specifications. Copies will be furnished to prospective bidders upon request.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

- 1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:
- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following
- "It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."
- 2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so

SPC15-26 **C-4** 

- 3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:
- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.
- 4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.
- a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.
- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.
- 5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring,

- upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:
- a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.
- b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
- c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
- d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

#### 6. Training and Promotion:

- a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.
- b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).
- c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
- d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.
- 7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:
- a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of

minorities and women so that they may qualify for higher paying employment.

- b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.
- c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.
- d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.
- 8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.
- 9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.
- The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.
- b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

#### 10. Assurance Required by 49 CFR 26.13(b):

- a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency

deems appropriate.

- 11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.
- a. The records kept by the contractor shall document the following:
  - (1) The number and work hours of minority and nonminority group members and women employed in each work classification on the project;
  - (2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and
  - (3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;
- b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on <a href="Form FHWA-1391">Form FHWA-1391</a>. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

#### **III. NONSEGREGATED FACILITIES**

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or singleuser restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

#### IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified

as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

#### 1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided. That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
  - (i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
  - (ii) The classification is utilized in the area by the construction industry; and
  - (iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
  - (2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the

classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

- (3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
- (4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
- d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

#### 2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

#### 3. Payrolls and basic records

- a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.
- b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker. and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency...
- (2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
  - (i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

- (ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
- (iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.
- (3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.
- (4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.
- c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

#### 4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not

less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

- c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.
  - d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

- **5. Compliance with Copeland Act requirements.** The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.
- 6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.
- 7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
- 8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.
- 9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

#### 10. Certification of eligibility.

- a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

## V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

- 1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- 2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.
- 3. Withholding for unpaid wages and liquidated damages. The FHWA or the contacting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.
- 4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

#### VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of

the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

- a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:
- (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
- (2) the prime contractor remains responsible for the quality of the work of the leased employees;
- (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
- (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.
- b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.
- The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.
- 3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.
- 4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.
- 5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

#### **VII. SAFETY: ACCIDENT PREVENTION**

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

- 1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.
- 2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).
- 3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

## VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

#### 18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false

representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

## IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

- 1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.
- 2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

## X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost \$25,000 or more — as defined in 2 CFR Parts 180 and 1200.

#### 1. Instructions for Certification – First Tier Participants:

- a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.
- b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.
- c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this

SPC16-08

C-11

transaction for cause of default.

- d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).
- f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
- g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.
- h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (<a href="https://www.epls.gov/">https://www.epls.gov/</a>), which is compiled by the General Services Administration.
- i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

- 2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion First Tier Participants:
- a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:
- Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;
- (2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and
- (4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

## 2. Instructions for Certification - Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost \$25,000 or more - 2 CFR Parts 180 and 1200)

- a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.
- b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.
- d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First

Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

- e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.
- g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (<a href="https://www.epls.gov/">https://www.epls.gov/</a>), which is compiled by the General Services Administration.
- h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Participants:

- 1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.
- 2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such

prospective participant shall attach an explanation to this proposal.

#### 1. DISADVANTAGED BUSINESS ENTERPRISES (DBE)

Under 49 CFR 26.13(b):

The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate.

Take necessary and reasonable steps to ensure that DBEs have opportunity to participate in the contract (49 CFR 26).

To ensure equal participation of DBEs provided in 49 CFR 26.5, the Agency shows a goal for DBEs.

Make work available to DBEs and select work parts consistent with available DBE subcontractors and suppliers.

Meet the DBE goal shown elsewhere in these special provisions or demonstrate that you made adequate good faith efforts to meet this goal.

It is your responsibility to verify that the DBE firm is certified as DBE at date of bid opening. For a list of DBEs certified by the California Unified Certification Program, go to: <a href="http://www.dot.ca.gov/hq/bep/find\_certified.htm">http://www.dot.ca.gov/hq/bep/find\_certified.htm</a>.

All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal.

Credit for materials or supplies you purchase from DBEs counts towards the goal in the following manner:

- 100 percent counts if the materials or supplies are obtained from a DBE manufacturer.
- 60 percent counts if the materials or supplies are obtained from a DBE regular dealer.
- Only fees, commissions, and charges for assistance in the procurement and delivery of
  materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular
  dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."

You receive credit towards the goal if you employ a DBE trucking company that performs a commercially useful function as defined in 49 CFR 26.55(d)(1) through (4) and (6).

#### a. DBE Commitment Submittal

Submit the Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts) form, included in the Bid book. If the form is not submitted with the bid, remove the form from the Bid book before submitting your bid.

If the DBE Commitment form is not submitted with the bid, the apparent low bidder, the 2nd low bidder, and the 3rd low bidder must complete and submit the DBE Commitment form to the Agency. DBE Commitment form must be received by the Agency no later than 4:00 p.m. on the 4th business day after bid opening.

Other bidders do not need to submit the DBE Commitment form unless the Agency requests it. If the Agency requests you to submit a DBE Commitment form, submit the completed form within 4 business days of the request.

Submit written confirmation from each DBE stating that it is participating in the contract. Include confirmation with the DBE Commitment form. A copy of a DBE's quote will serve as written confirmation that the DBE is participating in the contract.

07/18/2016

If you do not submit the DBE Commitment form within the specified time, the Agency will find your bid nonresponsive.

#### b. Good Faith Efforts Submittal

If you have not met the DBE goal, complete and submit the DBE Information - Good Faith Efforts, Exhibit 15-H, form with the bid showing that you made adequate good faith efforts to meet the goal. Only good faith efforts directed towards obtaining participation by DBEs will be considered. If good faith efforts documentation is not submitted with the bid, it must be received by the Agency no later than 4:00 p.m. on the 4th business day after bid opening.

If your DBE Commitment form shows that you have met the DBE goal or if you are required to submit the DBE Commitment form, you must also submit good faith efforts documentation within the specified time to protect your eligibility for award of the contract in the event the Agency finds that the DBE goal has not been met.

Good faith efforts documentation must include the following information and supporting documents, as necessary:

- 1. Items of work you have made available to DBE firms. Identify those items of work you might otherwise perform with your own forces and those items that have been broken down into economically feasible units to facilitate DBE participation. For each item listed, show the dollar value and percentage of the total contract. It is your responsibility to demonstrate that sufficient work to meet the goal was made available to DBE firms.
- 2. Names of certified DBEs and dates on which they were solicited to bid on the project. Include the items of work offered. Describe the methods used for following up initial solicitations to determine with certainty if the DBEs were interested, and the dates of the follow-up. Attach supporting documents such as copies of letters, memos, facsimiles sent, telephone logs, telephone billing statements, and other evidence of solicitation. You are reminded to solicit certified DBEs through all reasonable and available means and provide sufficient time to allow DBEs to respond.
- 3. Name of selected firm and its status as a DBE for each item of work made available. Include name, address, and telephone number of each DBE that provided a quote and their price quote. If the firm selected for the item is not a DBE, provide the reasons for the selection.
- 4. Name and date of each publication in which you requested DBE participation for the project. Attach copies of the published advertisements.
- 5. Names of agencies and dates on which they were contacted to provide assistance in contacting, recruiting, and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.
- 6. List of efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. If you have provided information, identify the name of the DBE assisted, the nature of the information provided, and date of contact. Provide copies of supporting documents, as appropriate.
- 7. List of efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, and materials, excluding supplies and equipment that the DBE subcontractor purchases or leases from the prime contractor or its affiliate. If such assistance is provided by you, identify the name of the DBE assisted, nature of the assistance offered, and date assistance was provided. Provide copies of supporting documents, as appropriate.
- 8. Any additional data to support demonstration of good faith efforts.

The Agency may consider DBE commitments of the 2nd and 3rd bidders when determining whether the low bidder made good faith efforts to meet the DBE goal.

#### c. Exhibit 15-G - Local Agency Bidder DBE Information (Construction Contracts)

Complete and sign Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts) included in the contract documents regardless of whether DBE participation is reported.

Provide written confirmation from each DBE that the DBE is participating in the Contract. A copy of a DBE's quote serves as written confirmation. If a DBE is participating as a joint venture partner, the Agency encourages you to submit a copy of the joint venture agreement.)

#### d. Subcontractor and Disadvantaged Business Enterprise Records

Use each DBE subcontractor as listed on Exhibit 12-B Bidder's List of Subcontractors (DBE and Non-DBE) and Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts) form unless you receive authorization for a substitution.

The Agency requests the Contractor to:

- 1. Notify the Engineer of any changes to its anticipated DBE participation
- 2. Provide this notification before starting the affected work
- 3. Maintain records including:
  - Name and business address of each 1st-tier subcontractor
  - Name and business address of each DBE subcontractor, DBE vendor, and DBE trucking company, regardless of tier
  - Date of payment and total amount paid to each business

If you are a DBE contractor, include the date of work performed by your own forces and the corresponding value of the work.

Before the 15th of each month, submit a Monthly DBE Trucking Verification form.

If a DBE is decertified before completing its work, the DBE must notify you in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify you in writing of the certification date. Submit the notifications. On work completion, complete a Disadvantaged Business Enterprises (DBE) Certification Status Change, Exhibit 17-O, form. Submit the form within 30 days of contract acceptance.

Upon work completion, complete Exhibit 17-F Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors. Submit it within 90 days of contract acceptance. The Agency will withhold \$10,000 until the form is submitted. The Agency releases the withhold upon submission of the completed form.

#### e. Performance of Disadvantaged Business Enterprises

DBEs must perform work or supply materials as listed in the Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts) form, included in the Bid.

Do not terminate or substitute a listed DBE for convenience and perform the work with your own forces or obtain materials from other sources without authorization from the Agency.

The Agency authorizes a request to use other forces or sources of materials if it shows any of the following justifications:

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.

- 2. You stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet your bond requirements.
- 3. Work requires a contractor's license and listed DBE does not have a valid license under Contractors License Law.
- 4. Listed DBE fails or refuses to perform the work or furnish the listed materials.
- 5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
- 6. Listed DBE is ineligible to work on the project because of suspension or debarment.
- 7. Listed DBE becomes bankrupt or insolvent.
- 8. Listed DBE voluntarily withdraws with written notice from the Contract
- 9. Listed DBE is ineligible to receive credit for the type of work required.
- 10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
- 11. Agency determines other documented good cause.

Notify the original DBE of your intent to use other forces or material sources and provide the reasons. Provide the DBE with 5 days to respond to your notice and advise you and the Agency of the reasons why the use of other forces or sources of materials should not occur. Your request to use other forces or material sources must include:

- 1. One or more of the reasons listed in the preceding paragraph
- 2. Notices from you to the DBE regarding the request
- 3. Notices from the DBEs to you regarding the request

If a listed DBE is terminated or substituted, you must make good faith efforts to find another DBE to substitute for the original DBE. The substitute DBE must perform at least the same amount of work as the original DBE under the contract to the extent needed to meet the DBE goal.

The substitute DBE must be certified as a DBE at the time of request for substitution.

Unless the Agency authorizes (1) a request to use other forces or sources of materials or (2) a good faith effort for a substitution of a terminated DBE, the Agency does not pay for work listed on the Exhibit 15-G Local Agency Bidder DBE Commitment (Construction Contracts) form unless it is performed or supplied by the listed DBE or an authorized substitute.

- 2. **BID OPENING** The Agency publicly opens and reads bids at the time and place shown on the *Notice to Bidders*.
- 3. **BID RIGGING** The U.S. Department of Transportation (DOT) provides a toll-free hotline to report bid rigging activities. Use the hotline to report bid rigging, bidder collusion, and other fraudulent activities. The hotline number is
  - (800) 424-9071. The service is available 24 hours 7 days a week and is confidential and anonymous.. The hotline is part of the DOT's effort to identify and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General.

4. **CONTRACT AWARD** If the Agency awards the contract, the award is made to the lowest responsible bidder.

#### 5. CONTRACTOR LICENSE

The Contractor must be properly licensed as a contractor from contract award through Contract acceptance (Public Contract Code § 10164).

#### 6. CHANGED CONDITIONS

#### a. Differing Site Conditions

- 1. During the progress of the work, if subsurface or latent physical conditions are encountered at the site differing materially from those indicated in the contract or if unknown physical conditions of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the contract, are encountered at the site, the party discovering such conditions shall promptly notify the other party in writing of the specific differing conditions before the site is disturbed and before the affected work is performed.
- 2. Upon written notification, the engineer will investigate the conditions, and if it is determined that the conditions materially differ and cause an increase or decrease in the cost or time required for the performance of any work under the contract, an adjustment, excluding anticipated profits, will be made and the contract modified in writing accordingly. The engineer will notify the contractor of the determination whether or not an adjustment of the contract is warranted.
- 3. No contract adjustment which results in a benefit to the contractor will be allowed unless the contractor has provided the required written notice.
- 4. No contract adjustment will be allowed under this clause for any effects caused on unchanged work. (This provision may be omitted by the Local Agency, at their option.)

#### b. Suspensions of Work Ordered by the Engineer

- If the performance of all or any portion of the work is suspended or delayed by the engineer in writing for an unreasonable period of time (not originally anticipated, customary, or inherent to the construction industry) and the contractor believes that additional compensation and/or contract time is due as a result of such suspension or delay, the contractor shall submit to the engineer in writing a request for adjustment within 7 calendar days of receipt of the notice to resume work. The request shall set forth the reasons and support for such adjustment.
- 2. Upon receipt, the engineer will evaluate the contractor's request. If the engineer agrees that the cost and/or time required for the performance of the contract has increased as a result of such suspension and the suspension was caused by conditions beyond the control of and not the fault of the contractor, its suppliers, or subcontractors at any approved tier, and not caused by weather, the engineer will make an adjustment (excluding profit) and modify the contract in writing accordingly. The contractor will be notified of the engineer's determination whether or not an adjustment of the contract is warranted.
- 3. No contract adjustment will be allowed unless the contractor has submitted the request for adjustment within the time prescribed.
- 4. No contract adjustment will be allowed under this clause to the extent that performance would have been suspended or delayed by any other cause, or for which an adjustment is provided or excluded under any other term or condition of this contract.

#### c. Significant Changes in the Character of Work

- 1. The engineer reserves the right to make, in writing, at any time during the work, such changes in quantities and such alterations in the work as are necessary to satisfactorily complete the project. Such changes in quantities and alterations shall not invalidate the contract nor release the surety, and the contractor agrees to perform the work as altered.
- 2. If the alterations or changes in quantities significantly change the character of the work under the contract, whether such alterations or changes are in themselves significant changes to the character of the work or by affecting other work cause such other work to become significantly different in character, an adjustment, excluding anticipated profit, will be made to the contract. The basis for the adjustment shall be agreed upon prior to the performance of the work. If a basis cannot be agreed upon, then an adjustment will be made either for or against the contractor in such amount as the engineer may determine to be fair and equitable.
- 3. If the alterations or changes in quantities do not significantly change the character of the work to be performed under the contract, the altered work will be paid for as provided elsewhere in the contract.
- 4. The term "significant change" shall be construed to apply only to the following circumstances:
  - When the character of the work as altered differs materially in kind or nature from that involved or included in the original proposed construction; or
  - When a major item of work, as defined elsewhere in the contract, is increased in excess of 125 percent or decreased below 75 percent of the original contract quantity. #### II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625 1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

- 1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of
- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following statement:
- "It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or onthe-job training.'
- 2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so

- 3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:
- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.
- 4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived
- a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.
- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.
- 5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:
- a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

- b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
- c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
- d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

#### 6. Training and Promotion:

- a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.
- b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and onthe-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).
- c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
- d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.
- 7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:
- a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.
- b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.
- c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency

and shall set forth what efforts have been made to obtain such information.

- d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.
- 8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.
- 9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.
- a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.
- b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

#### 10. Assurance Required by 49 CFR 26.13(b):

- a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.
- 11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.
- a. The records kept by the contractor shall document the following:
  - (1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;
- (2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

- (3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;
- b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

#### III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

#### IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

#### 1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
  - (i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
  - (ii) The classification is utilized in the area by the construction industry; and
  - (iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
  - (2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
  - (3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

- (4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
- d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

#### 2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic. including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract. the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

#### 3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at

- (2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
  - (i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;
  - (ii) That each laborer or mechanic (including each helper. apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

- (3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.
- (4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.
- c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the

contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

#### 4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate. who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

- c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.
  - d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

- 8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

- 4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.
- 5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

### VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

### 13. FEDERAL TRAINEE PROGRAM

For the Federal training program, the number of trainees or apprentices is  $\underline{0}$ .

This section applies if a number of trainees or apprentices is specified in the special provisions.

As part of your equal opportunity affirmative action program, provide on-the-job training to develop full journeymen in the types of trades or job classifications involved.

You have primary responsibility for meeting this training requirement.

If you subcontract a contract part, determine how many trainees or apprentices are to be trained by the subcontractor.

Include these training requirements in your subcontract.

Where feasible, 25 percent of apprentices or trainees in each occupation must be in their 1st year of apprenticeship or training.

Distribute the number of apprentices or trainees among the work classifications on the basis of your needs and the availability of journeymen in the various classifications within a reasonable recruitment area.

Before starting work, submit notification of:

- 1. Number of apprentices or trainees to be trained for each classification
- 2. Training program to be used
- 3. Training starting date for each classification

Obtain the Agency's approval for this submitted information before you start work. The Agency credits you for each apprentice or trainee you employ on the work who is currently enrolled or becomes enrolled in an approved program.

The primary objective of this section is to train and upgrade minorities and women toward journeymen status. Make every effort to enroll minority and women apprentices or trainees, such as conducting systematic and direct recruitment through public and private sources likely to yield minority and women apprentices or trainees, to the extent they are available within a reasonable recruitment area. Show that you have made the efforts. In making these efforts, do not discriminate against any applicant for training.

Do not employ as an apprentice or trainee an employee:

- 1. In any classification in which the employee has successfully completed a training course leading to journeyman status or in which the employee has been employed as a journeyman
- Who is not registered in a program approved by the US Department of Labor, Bureau of Apprenticeship and Training

Ask the employee if the employee has successfully completed a training course leading to journeyman status or has been employed as a journeyman. Your records must show the employee's answers to the questions.

In your training program, establish the minimum length and training type for each classification. The Agency and FHWA approve a program if one of the following is met:

- 1. It is calculated to:
  - Meet the your equal employment opportunity responsibilities
  - Qualify the average apprentice or trainee for journeyman status in the classification involved by the end of the training period
- 2. It is registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, and it is administered in a way consistent with the equal employment responsibilities of Federal-aid highway construction contracts

Obtain the State's approval for your training program before you start work involving the classification covered by the program.

Provide training in the construction crafts, not in clerk-typist or secretarial-type positions. Training is allowed in lower level management positions such as office engineers, estimators, and timekeepers if the training is oriented toward construction applications. Training is allowed in the laborer classification if significant and meaningful training is provided and approved by the division office. Off-site training is allowed if the training is an integral part of an approved training program and does not make up a significant part of the overall training.

The Agency reimburses you 80 cents per hour of training given an employee on this contract under an approved training program:

- 1. For on-site training
- 2. For off-site training if the apprentice or trainee is currently employed on a Federal-aid project and you do at least one of the following:
  - Contribute to the cost of the training
  - Provide the instruction to the apprentice or trainee
  - Pay the apprentice's or trainee's wages during the off-site training period

3. If you comply with this section.

Each apprentice or trainee must:

- 1. Begin training on the project as soon as feasible after the start of work involving the apprentice's or trainee's skill
- 2. Remain on the project as long as training opportunities exist in the apprentice's or trainee's work classification or until the apprentice or trainee has completed the training program

Furnish the apprentice or trainee:

- 1. Copy of the program you will comply with in providing the training
- 2. Certification showing the type and length of training satisfactorily completed

- (4) <u>Information and Reports</u>: CONTRACTOR shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the California Department of Transportation or FHWA to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of CONTRACTOR is in the exclusive possession of another who fails or refuses to furnish this information, CONTRACTOR shall so certify to the California Department of Transportation or the FHWA as appropriate, and shall set forth what efforts CONTRACTOR has made to obtain the information.
- (5) <u>Sanctions for Noncompliance</u>: In the event of CONTRACTOR's noncompliance with the nondiscrimination provisions of this agreement, the California Department of Transportation shall impose such agreement sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:
  - (a) withholding of payments to CONTRACTOR under the Agreement within a reasonable period of time, not to exceed 90 days; and/or
  - (b) cancellation, termination or suspension of the Agreement, in whole or in part.
- (6) <u>Incorporation of Provisions</u>: CONTRACTOR shall include the provisions of paragraphs (1) through (6) in every sub-agreement, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto.

CONTRACTOR shall take such action with respect to any sub-agreement or procurement as the California Department of Transportation or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a sub-applicant or supplier as a result of such direction, CONTRACTOR may request the California Department of Transportation enter into such litigation to protect the interests of the State, and, in addition, CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

### 15. USE OF UNITED STATES-FLAG VESSELS

### The CONTRACTOR agrees-

- 1. ### **DBE Information - Good Faith Efforts**

Federal-aid Project No. HSIP-5202(017)

Bid Opening Date

The City of <u>San Fernando</u> established a Disadvantaged Business Enterprise (DBE) goal of <u>7%</u> for this project. The information provided herein shows that a good faith effort was made.

Lowest, second lowest and third lowest bidders shall submit the following information to document adequate good faith efforts. Bidders should submit the following information even if the "Local Agency Bidder DBE Commitment" form indicates that the bidder has met the DBE goal. This will protect the bidder's eligibility for award of the contract if the administering agency determines that the bidder failed to meet the goal for various reasons, e.g., a DBE firm was not certified at bid opening, or the bidder made a mathematical error.

Submittal of only the "Local Agency Bidder DBE Commitment" form may not provide sufficient documentation to demonstrate that adequate good faith efforts were made.

The following items are listed in the Section entitled "Submission of DBE Commitment" of the Special Provisions:

All equipment, materials, and components for traffic signal equipment shall conform to the 2010 Caltrans <u>Standard Plans</u> and <u>Standard Specifications</u>, Section 86, "Signals, Lighting, and Electrical Systems," except as noted in the Special Provisions and on the Plans. These Plans and Specifications are hereinafter referred to as State Standard Plans and State Standard Specifications. ### 86-4 TRAFFIC SIGNAL FACES AND FITTINGS

86-4.03I Light Emitting Diode Pedestrian Signal Modules. Pedestrian signal face type shall be Dialight LED countdown pedestrian heads or approved equal. Mountings and housings (McCain product or approved equal) shall be per Caltrans plans and specifications. LED pedestrian signal modules shall be in accordance with the following City specification:

### 1. Description.

This policy describes the City of San Fernando's specifications for light emitting diode (LED) countdown pedestrian signal modules. For areas not covered in this specification, sound practice of current industry standards shall apply.

Countdown pedestrian signals are a special type of pedestrian signal that provide a visual countdown in addition to the commonly seen "UPRAISED HAND" and "WALKING PERSON" indications. The signals provide a numeric display, in seconds, of the remaining time pedestrians have to finish crossing the street during the pedestrian change interval. The pedestrian change interval is the interval during which the flashing UPRAISED HAND signal indication is displayed.

Contractor shall be responsible to verify all locations where new mountings are to be installed. Prior to material submittal and purchase, Contractor shall field verify the orientation of the existing mounting to be replaced. New mounting shall match existing mounting.

### 2. Product Design and Operation Requirements.

### 2.1 Design and Operation.

2.1.1 In addition to the following provisions, the design and operation of LED countdown pedestrian signals shall meet the requirements set forth in the March 19, 2004 Institute of Transportation Engineers (ITE) Standard for "Pedestrian Traffic Control Signal Indications - Part 2: Light Emitting

SPC16-08 TS-1

Diode (LED) Pedestrian Traffic Signal Modules," and all applicable portions of Chapter 4E ("Pedestrian Control Features") of the 2003 Manual on Uniform Traffic Control Devices (MUTCD). Independent laboratory test results as required for verification.

- The LED countdown pedestrian signal module shall consist of a double overlay or side-by-side message capable of displaying the symbols of a filled UPRAISED HAND (symbolizing DON'T WALK) and a filled WALKING PERSON (symbolizing WALK), and a countdown timer consisting of two (2), 7-segment digits constructed of LEOs.
- 2.1.3 The LED countdown pedestrian signal module's numeric display can be either integral to, or separate from, the LED countdown pedestrian signal. If the LED countdown pedestrian signal's numeric display is a separate component, the message display unit and the LED countdown numeric display unit must be approved as one system.
- **2.1.4** The UPRAISED HAND and WALKING PERSON symbols shall be solid figures.

### 2.2 Countdown Timer Module.

- **2.2.1** The LED countdown pedestrian signal display shall be discontinued and go dark immediately if the pedestrian change interval is interrupted or shortened as part of a transition into a preemption sequence.
- **2.2.2** The LED countdown pedestrian signal shall be equipped with a screen, visor, or other device to eliminate all phantom conditions.
- **2.2.3** Visors shall be furnished if the LED countdown pedestrian signal display will be visible to motorists stopped at a red traffic signal indication facing perpendicular to the display of the LED countdown pedestrian signal.
- 2.2.4 The LED countdown pedestrian signal timer shall monitor the pedestrian change intervals and automatically adjust for any changes made at the controller.
- The LED countdown timer module shall have an internal conflict monitor to prevent any possible conflicts between the UPRAISED HAND / WALKING PERSON signal indications and the time display. When the steady UPRAISED HAND is illuminated, it shall be impossible to display any number other than zero (0).

### 3. Minimal Useful Life.

Manufacturers shall warrant the equipment in accordance with the following provisions:

- **3.1** An LED countdown pedestrian signal module shall be replaced or repaired by the manufacturer at no additional expense to the City if the module fails to perform to the requirements of this specification, or fails to function as intended due to workmanship or material defects, within the first 60 months from the date of installation and activation.
- 3.2 The maintained minimum luminous intensity for the UPRAISED HAND and WALKING PERSON signal indications shall meet or exceed the illumination values listed in the March 19, 2004 ITE Standard for "Pedestrian Traffic Control Signal Indications- Part 2: Light Emitting Diode (LED) Pedestrian Traffic Signal Modules", Section 4 "Photometric Requirements", Subsection 4.1.1. LED countdown pedestrian signal modules that exhibit luminous intensities less than the minimums within the first 60 months from the date of installation and activation, shall be replaced or repaired by the manufacturer at no additional expense to the City of San Fernando.

### 4. Product Approval.

Manufacturers that wish to have their product reviewed for possible approval should request an application from the City of San Fernando.

Manufacturers of LED countdown pedestrian signal modules shall have an "Acknowledgement of Conditions" form signed by a responsible company official, notarized, and returned prior to the issuance of a "Certificate of Approval." A "Provisional or Sale Certificate of Approval" may then be issued by the City allowing the sale or use of the LED countdown pedestrian signal modules within the City. In addition, the equipment must perform acceptably under actual field conditions. If, at any time during its minimum useful life, the product does not perform to the satisfaction of the City while under actual field conditions, or does not conform to the requirements of this specification, the "Certificate of Approval" may be cancelled and the product will no longer be approved for sale to the City.

This policy regarding the City's specifications for LED countdown pedestrian signal modules does not displace sound engineering judgment during the review process.

The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:
- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following
- "It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training.'

To ensure that the above agreement will be met, the following actions will be taken as a minimum:
- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.
- 4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.
- a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.
- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.
- **5. Personnel Actions:** Wages, working conditions, and employee benefits shall be established and administered,

- and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:
- a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.
- b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
- c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
- d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

### 6. Training and Promotion:

- a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.
- b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).
- The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
- d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.
- 7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:
- a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed

toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

- b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.
- c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.
- d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.
- 8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.
- 9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.
- a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.
- b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

### 10. Assurance Required by 49 CFR 26.13(b):

- a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the

contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

- 11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.
- a. The records kept by the contractor shall document the following:
- (1) The number and work hours of minority and nonminority group members and women employed in each work classification on the project;
- (2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and
- (3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;
- b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

### **III. NONSEGREGATED FACILITIES**

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10.000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

### IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size).

The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

### 1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
  - (i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
  - (ii) The classification is utilized in the area by the construction industry; and
  - (iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

- (2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
- (3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
- (4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
- d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

### 2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to

the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

### 3. Payrolls and basic records

- a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.
- b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at http://www.dol.gov/esa/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency..
- (2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
  - (i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate

- information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;
- (ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3:
- (iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.
- (3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.
- (4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.
- c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

### 4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less

than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress. expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will

no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

- c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.
  - d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

- **5. Compliance with Copeland Act requirements.** The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.
- **6. Subcontracts.** The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.
- **7. Contract termination: debarment.** A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
- **8. Compliance with Davis-Bacon and Related Act requirements.** All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.
- 9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

### 10. Certification of eligibility.

- a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

## V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

- 1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- 2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.
- 3. Withholding for unpaid wages and liquidated damages. The FHWA or the contacting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.
- **4. Subcontracts.** The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

### VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of

the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

- a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:
- (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
  - (2) the prime contractor remains responsible for the quality of the work of the leased employees;
- (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
- (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.
- b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.
- 2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.
- 3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.
- 4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.
- 5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

### **VII. SAFETY: ACCIDENT PREVENTION**

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

- 1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.
- 2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).
- 3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

# VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

### 18 U.S.C. 1020 reads as follows:

### 1. Instructions for Certification - First Tier Participants:

- a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.
- b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.
  - c. The certification in this clause is a material

representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.

- d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- e. The terms "covered transaction," "debarred,"
  "suspended," "ineligible," "participant," "person," "principal,"
  and "voluntarily excluded," as used in this clause, are
  defined in 2 CFR Parts 180 and 1200. "First Tier Covered
  Transactions" refers to any covered transaction between a
  grantee or subgrantee of Federal funds and a participant
  (such as the prime or general contract). "Lower Tier
  Covered Transactions" refers to any covered transaction
  under a First Tier Covered Transaction (such as
  subcontracts). "First Tier Participant" refers to the participant
  who has entered into a covered transaction with a grantee or
  subgrantee of Federal funds (such as the prime or general
  contractor). "Lower Tier Participant" refers any participant
  who has entered into a covered transaction with a First Tier
  Participant or other Lower Tier Participants (such as
  subcontractors and suppliers).
- f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
- g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.
- h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.
- i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
  - j. Except for transactions authorized under paragraph (f) of

these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

- e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Chris Marcarello, Deputy City Manager/Public Works Director

**Date:** July 18, 2016

**Subject:** Consideration to Award a Contract for 2016 Citywide Catch Basin Connector Pipe

Screen Installation, Job No. 7594, Plan No. P-721

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Approve plans and specifications (Attachment "A") for the 2016 Citywide Catch Basin Connector Pipe Screen Installation, Job No. 7594, Plan No. P-721;
- b. Accept the lowest responsive bid from United Storm Water, Inc. for construction of these improvements;
- c. Authorize the City Manager to execute a Construction Contract with United Storm Water, Inc., (Attachment "B" Contract No. 1831) for an amount not to exceed \$51,620; and
- d. Establish an amount of 20% of the contract amount (\$10,324), as a contingency, to cover the cost of unforeseen construction expenses.

#### **BACKGROUND:**

As part of the City's Fiscal Year (FY) 2016-2017 Budget, the City Council approved a project titled "Stormwater/NPDES – Catch Basin Inserts", which involves the installation of catch basin pipe screen connector screens throughout the City. This includes 67 Los Angeles County Flood Control District (LACFCD)-owned catch basins and 52 City of San Fernando (City)-owned catch basins. Once installed, the City will be required to conduct ongoing maintenance and cleaning of the pipe connector screens and catch basins to ensure proper water flow into the storm drain system.

Page 2 of 3

#### **ANALYSIS:**

# **Project Details**

The project consists of retrofitting all existing City and Los Angeles County Flood Control District (LACFCD) catch basins within the city limits in order to comply with the Trash Total Maximum Daily Load (Trash TMDL) requirements established by the Los Angeles Regional Water Quality Control Board (Regional Board). On July 7, 2009 the Regional Board established a Trash TMDL requiring installation of full capture devices to achieve 100% reduction by October 31, 2016. This TMDL is aimed at reducing the amount of trash discharged into the LA River and its tributaries. In order to be compliant with the TMDL, all cities within the Los Angeles River Watershed must install full capture devices in their catch basins. A full capture device is one that collects all trash larger than 5mm and prevents its discharge into the waterways.

The proposed project includes the following improvements:

- Cleaning of 102 Catch Basins;
- Los Angeles County Permit compliance and Coordination for Connector Pipe Screens;
- Installation of 102 Connector Pipe Screens (67 LAC-owned and 52 City-owned).

On July 7, 2016 at 11:00 a.m., the City Clerk received and opened two (2) bids for construction of these improvements (Attachment "C"). Staff analyzed all bids and determined the bid from United Storm Water, Inc., to be the lowest responsive bid. The table below summarizes the bids received for project construction:

RANK	BIDDER	BID AMOUNT
1	United Storm Water, Inc.	\$51,620.00
2	California Building Evaluation & Construction, Inc.	\$82,279.00

United Storm Water, Inc., has successfully completed similar projects for the cities of Agoura Hills, Beverly Hills, Inglewood and the County of Los Angeles.

# Timeline

If the construction contract is awarded by the City Council, staff will work to complete this project according to the following schedule:

- July 18, 2016
   City Council Award of Contract
- August September 2016
   Tentative Construction Schedule

# Consideration to Award a Contract for 2016 Citywide Catch Basin Connector Pipe Screen Installation, Job No. 7594, Plan No. P-721

Page 3 of 3

The general scope of work consists of furnishing and installation of Connector Pipe Screens for the pipe outlet, as described herein, into existing storm drain catch basins throughout the City. These devices are intended to reduce the amount of trash entering the storm drain system through curb opening catch basins or a curb opening catch basin with gratings. The bid items, corresponding estimated quantities, and time allowed to complete the work are listed in the Contractor's Proposal. The definitions of bid items are described in the Technical Provisions.

There is no pre-bid meeting for the project.

The contract time for the project is twenty-five (25) working days.

It is the policy of the City, as directed by City Council, to encourage the use of local area businesses in construction contracts including vendors, suppliers, labor, etc.

The Contractor must follow the procedures as set forth in the Instructions to Bidders for acceptance of bids. Bids will be accepted only if submitted on a proposal form furnished by the City. Each bid must be accompanied by cash, certified check, cashier's check, or bidder's bond made payable to the City of San Fernando or issued by a surety admitted to do business in California, for an amount equal to at least ten percent (10%) of the amount bid. Such guaranty to be forfeited to the City should the bidder to whom the contract is awarded fail to enter into the contract.

Prior to contract execution, the contractor and his/her subcontractors shall obtain a City business license. Prior to beginning work, the contractor must possess a valid California Class A Contractor's License.

If a bidder submits a bid that includes a subcontractor who would be performing work in amount in excess of  $\frac{1}{2}$  of 1% of the bidder's total bid or in the case of bids for the construction of streets or highways, including bridges, in excess of  $\frac{1}{2}$  of 1% of the bidder's total bid or \$10,000, whichever is greater, then in addition to the subcontractor's name and business address, the subcontractor's State contractor's license number must be included as part of the information submitted for that proposed subcontractor. Failure to provide the subcontractor's license number shall render the bid non-responsive.

All public works projects with bids submitted after March 1, 2015, or awarded on or after April 1, 2015, shall use only registered contractors and subcontractors. No bid will be accepted nor any contract entered into without proof of the Bidder's and its subcontractors' current registration with the Department of Industrial Relations. If awarded a contract, the Bidder and its subcontractors of every tier shall maintain active registration with the Department of Industrial Relations for the duration of the Project.

Securities eligible for investment shall include those listed in Section 16430 of the Government Code or bank or savings and loan certificates of deposit. The contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereof.

#### **INSTRUCTIONS TO BIDDERS**

1. <u>GENERAL</u> Proposals under these Contract Documents shall be submitted on the blank forms furnished herewith. When presented, the proposal forms must be completely made out in the manner and form indicated therein, and must be properly signed by the bidder. The bidder's address, telephone number, and California State Contractor's License number must be included. To be eligible to perform work, the bidder must be a state licensed contractor in good standing prior to beginning work. The City Council reserves the right to reject any bid if all the above information is not furnished.

Each proposal submitted must be presented in a sealed cover, and must be filed prior to the time and at the place designated in the Notice Inviting Bids. All proposals submitted as prescribed will be publicly opened and read at the time and place designated in the Notice Inviting Bids.

<u>Bid Quotes and Unit Price Extensions</u> – The unit prices and the lump sum prices quoted by the bidder must be entered in the spaces provided on the Contractor's Proposal form. In case there is a discrepancy between the unit price and the item total, the unit price shall govern and will be considered as representing the Bidder's intention. The bid total will be corrected to conform to the specified unit price.

Bid Retention and Award – The City reserves the right to retain all bids for a period of sixty (60) days for examination and comparison. The City also reserves the right to waive non-substantial irregularities in any bid, to reject any and all proposals, to reject or delete one part of a proposal and accept the other, except to the extent that the bids are qualified by specific limitations, and to make award to the lowest responsible bidder as the interest of the City may require.

<u>Communications Regarding Bid</u> – All timely requests for information submitted in writing will receive a written response from the City. Telephone communications with City staff are not encouraged, but will be permitted. However, any such oral communication shall not be binding on the City.

2. <u>EXAMINATION OF PLANS, CONTRACT DOCUMENTS, AND WORK SITE</u> The Contract Documents and plans, if any, are on file and available for inspection in City Hall.

The Bidders are required to carefully examine the site and the proposal, plans, Contract Documents, and contract forms. The Bidders must satisfy themselves as to the requirements of the Contract Documents and the contract; as to the location of the proposed work and by such other means as they may prefer; and as to the actual conditions and requirements of the work, and shall not, at any time after submission of the bid, dispute, complain, or assert that there was any misunderstanding in regard to the nature or amount of work to be done. It is mutually agreed that submission of a proposal shall be considered prima facie evidence that the bidder has made such examinations.

3. <u>DISQUALIFICATION OF BIDDERS AND PROPOSALS</u> More than one proposal for the same work from any individual, firm, partnership, corporation or association under the same or different names will not be accepted and reasonable grounds for believing that any bidder is interested in more than one proposal for the work will be cause for rejecting all proposals in which such bidders are interested.

Proposals which show obviously unbalanced prices, and those which are incomplete or show any alteration of form, or contain any additions or conditional or alternate bids that are not called for or otherwise permitted, may be rejected. Proposals that do not bear the Bidder's signature will be rejected.

4. <u>AWARD AND EXECUTION OF CONTRACT</u> The award of the contract, if awarded, will be made to the lowest responsive bidder whose proposal complies with all the prescribed requirements. The right is reserved, however, to reject any or all bids and to waive technical errors or discrepancies if it is deemed to best serve the interests of the City. An award will be made only until all necessary investigations are made as to the responsiveness of the low bidder.

Failure to execute a contract and file acceptable bonds as provided herein within the above timeline, not including Sundays, shall be just cause for the annulment of the award and the forfeiture of the proposal guaranty.

The Contractor will be required to obtain a City Business License prior to award of the contract.

# 5. SIGNATURE OF CONTRACTOR

- a. <u>Corporation</u> Any bids submitted by a corporation must include the name of the corporation, and must be signed by the President and Secretary or Assistant Secretary, and the corporate seal must be affixed. Other persons may sign for the corporation in lieu of the above if a certified copy of a resolution of the corporate board of directors so authorizing them to do so is on file in the City Clerk's Office.
- b. <u>Partnerships</u> Any bids submitted by a partnership must contain the names of all persons comprising the partnership or co-partnership. The bid must be signed by all partners comprising the partnership unless proof in the form of a certified copy of a certificate of partnership acknowledging the signer to be a general partner is presented to the City Clerk.
- c. <u>Joint Ventures</u> Any bids submitted by a joint venture must so state that and must be signed by each joint venturer.
- d. <u>Individuals</u> Any bids submitted by an individual must be signed by that individual unless an up-to-date power of attorney is on file in the City Clerk's Office, in which case the person indicated in the power of attorney may sign for the individual.

The above rules also apply in the case of a fictitious firm name. In addition, however, where the fictitious name is used, it must be so indicated where the signature appears.

# 6. BONDS

- a. <u>Bid Bonds</u> Bid must be accompanied by cash, cashier's check, certified check, or surety bond in an amount equal to ten percent (10%) of the total amount in the Contractor's Proposal. Checks and bonds shall be made payable to the City of San Fernando.
- b. <u>Contract Bonds</u> The Contractor simultaneously with execution of the Agreement shall furnish a surety bond in an amount equal to one hundred percent (100%) of the contract price as security for the faithful performance of this contract and a separate surety bond in an equal to one hundred percent (100%) of the contract

price as security for the payment of all persons performing labor and furnishing materials in connection with this contract, as required by the terms of an Act entitled:

"An Act to secure the payment of the claim of persons employed by Contractors upon Public Works, and the claims of persons who furnish materials, supplies, teams, implements; or machinery used or consumed by such Contractors in the performance of such works, and prescribing the duties of certain public officers with respect thereto," approved May 10, 1919, as amended.

Bond Forms required are included in these specifications. Copies will be furnished to prospective bidders upon request.

Whenever any Surety or Sureties on any such bonds, or any bonds required by Law for the protection of the claims of laborers and material men become insufficient or the City Engineer has cause to believe that such Surety or Sureties have become insufficient, a demand in writing may be made of the Contractor for each further bond or bonds or additional surety, not exceeding that originally required, as is considered necessary, considering the extent of the work remaining to be done. Thereafter, no payment shall be made upon such contract to the Contractor or any assignee of the Contractor until such further bond or bonds or additional surety has been furnished.

- 7. <u>RETURN OF BIDDER'S GUARANTIES</u> Within ten (10) days after the award of the contract, the City will return the proposal guaranties accompanying those proposals which are not to be considered in making award. All other proposals which are to be held until the contract has been finally executed, will be returned to the respective bidders after award of contract.
- 8. <u>CONFLICT OF INTEREST</u> In the procurement of supplies, equipment, construction, and services by sub-recipients, the conflict of interest provisions in 24 CFR 85.36, OMB Circular A-110, and 24 CFR 570.611, respectively, shall apply. No employee, officer or agent of the sub-recipient shall participate in selection, or award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved.

## APPENDIX C LA COUNTY PERMIT REQUIREMENTS

## Attachment A (cont.) Connector Pipe Screen (CPS) Requirements

CPS units prevent trash and debris from entering the storm drain system during dry weather and moderate storm flows by keeping the trash and debris inside the CB.

CPS units shall be designed to retain all trash larger than 5 mm (0.197 inch) in the CB, and shall comply with the following items:

- **1.** CPS units shall be sized, fabricated, and installed conforming to the configurations shown in Appendices: A-1, A-2, A-3, A-4, B-1, and B-2.
- 2. CPS units shall not interfere with the operation of an existing or proposed ARS.
- **3.** CPS units shall have a sufficient structural integrity to withstand a lateral force of standing water (62.4 lb/ft<sup>3</sup>) within the CB area when the screen becomes 100% clogged. CPS units shall be bolted to the CB walls.
- **4.** CPS units shall be configured with deflector plates or screens preventing trash from falling between the screen and connector pipe. The deflector plate shall be designed to withstand a vertical load of 10 lbs per square foot.
- **5.** The gap at the bottom, sides, and joints of CPS units shall not exceed 5 mm (0.197 inch).
- **6.** The perimeter of CPS units shall include a structural frame for stiffness, a bolting surface for fastening to the CB wall, and support for the opening referred to as the "bypass ( $H_b$ )" (see Appendix A-1).
- **7.** All CPS parts/components must be sized to fit through the catch basin's (CB's) manhole opening and/or CB curb opening.
- 8. When CPS units encroach more than 4 inches into the manhole opening, the Contractor shall install a Removable CPS. The Removable CPS shall be designed and installed with a removable panel allowing access into the CB. The removable panel shall be easily disengaged from the rest of CPS assembly upon entry or from the outside of the CB. The Contractor shall submit shop drawings for review and approval of the Agency. It is the responsibility of the Contractor to field verify all submitted CB locations, dimensions, configurations, and operational conditions.
- **9.** The CPS frame shall be fabricated from S-304 stainless steel, or an Agency approved equal stainless steel alloy. The Structural members shall have a minimum thickness of 3/16 inches.
- **10.** The CPS screen shall be fabricated from perforated metal of Type S-304 stainless steel, or an Agency approved equal stainless steel alloy. The screen shall have a minimum thickness of fourteen (14) gauge (0.0781 inch) The geometrical opening shape shall have a diameter of 5 mm (0.197 inch).

#### Attachment A (cont.)

- **11.** The screen material used shall have at least 45% open area.
- **12.** Any edge of the CPS that is not flush with the wall or floor of the CB shall be smooth with no prongs or jagged edges.
- **13.** The assembly bolts, screws, nuts, and washers shall be fabricated entirely from S-316 stainless steel. The concrete anchor bolts shall use a Red Head Multi-Set II drop-in anchor, SSRM-38, with Type S-316 stainless steel threaded rods, nuts and washers, or Agency approved equal.

**Preliminary Measurements.** The Contractor shall make detailed measurements of each CB's location, dimension, configuration, and operational condition, including the size and location of the connector pipe, for the proper fabrication of the devices. The Contractor shall submit written records of this information to the District for review and approval prior to fabrication of the CPS units. Improper fabrication of devices due to errors in the measurements shall be corrected at the Contractor's expense.

Cleaning of Existing Catch Basins. The Contractor shall furnish all materials, equipment, tools and labor to cleanout (i.e. remove and dispose of all debris from within and around) all CBs in which CPS units will be installed under this Contract to the maintenance standards specified. Cleanout shall also include the CB connector pipe openings and the first 6 feet thereof. The CB shall be clean at the time of the CPS installation. Any trash and debris that accumulates between the dates the CB is cleaned and the date the device is installed shall be removed prior to installation of the device at the Contractor's expense.

**Maintenance Conditions and Maintenance Standards.** Following are deficiencies in maintenance conditions and their corresponding maintenance standards which shall apply to this Contract. The cleanout of each CB shall meet the maintenance standards listed as follows:

	Description of Maintenance Condition Deficiency	Description of Maintenance Standard
1.	Trash and debris located immediately in front of curb opening or side opening of CB, and on top or between metal grates of grated CB.	No trash and debris located immediately in front of CB opening, and on top or between metal grates.
2.	Vegetation growing across and/or blocking the basin opening.	No vegetation blocking CB opening.
3.	Trash and debris in the CB.	No trash and debris within the CB.
4.	Trash and debris in the connector pipe opening, upstream or downstream.	No trash and debris in connector pipe opening and/or in the connector pipe for a distance of 6 feet from the opening.

#### Attachment A (cont.)

Trash and debris shall include, but is not limited to, mud, vegetation, and garbage. Upon completion of a cleanout operation at a CB and before leaving it, the Contractor shall sweep the top surface of the CB and the area 2 feet around the CB, and shall remove any trash and debris resulting from the cleanout operations. No debris is to be left at a CB for future pick-up.

**Method of Removal.** All trash and debris required to be removed from the CBs shall be removed in a manner to be determined by the Contractor. The Contractor shall not allow any trash or debris to enter the connector pipe or main line as a result of the cleanout operations.

**Debris Disposal.** All trash and debris removed under this Contract shall become the property of the Contractor and shall be legally disposed of away from the CB sites. The Contractor is responsible for proper disposal of the trash and debris, including obtaining approvals from all jurisdictional agencies, as applicable. The contractor shall be responsible for contacting and coordinating with LA County Animal Care and Control for pickup and disposal of dead animals. However, the Contractor shall be responsible for removing any dead animal from inside a CB. A list of local Animal Care and Control offices may be obtained at:

http://animalcare.lacounty.gov/wps/portal/acc/aboutus/care centers.

**Staff Gauge.** The contractor shall paint a staff gauge per Appendix A-2. The staff gauge shall be located such that it is visible through the CB curb opening or grating.

## Attachment B Field Testing of ARS Units

**Onsite Test.** Each unit shall be manually operated upon completion of the installation to ensure that the screen and all moving parts move freely and the screen locks securely in the closed position. Units that are determined by Public Works to be malfunctioning shall be repaired or replaced at the sole expense of the Contractor.

All of the catch basins (CBs) in which ARS units were installed will be tested using water supplied from a fire hydrant or water truck. The Contractor shall be responsible for providing the source of water, including written approval from the water agency if a hydrant is used. Sufficient water shall be provided to cause the ARS units to open with no other assistance as follows:

#### Flowing Water Test

- 1. Sandbags shall be placed around the catch basin's (CB's) curb opening to allow the water to pond in front of the catch basin (CB) to a depth of 3 inches, measured from the flow line of the CB curb opening local depression. The sandbags shall be located 5 feet upstream and downstream of the end of the local depression. Sandbags shall also be placed 7 feet from and parallel to the CB curb face.
- 2. An impermeable rigid membrane/barrier shall be placed covering the CB curb opening to allow the water to pond in front of the CB. The membrane/barrier shall be capable of sealing the CB curb opening without leakage so that the water ponds to the depth required.
- 3. Once the water reaches the depth described herein, the impermeable membrane shall be removed in one quick and continuous motion to allow the ponded water to instantaneously enter the CB and cause the ARS unit to open. A continuous flow of water shall be provided for at least two minutes after the initial opening of the ARS unit in sufficient quantity to maintain the device open. At the end of the two minutes, the flow of the water shall be stopped and the device shall fully close automatically prior to or immediately after the flow into the CB stops.
- **4.** This process shall be successfully completed at least two consecutive times without adjustments and/or calibration between trials.
- **5.** Any ARS unit that do not open, close, and lock closed automatically under the test conditions, described herein, shall be repaired or replaced at the sole expense of the Contractor and retested. This process shall be repeated until the failed device passes the test at the sole expense of the Contractor.

#### **ATTACHMENT C**

#### **UNITED STORM WATER, INC.**

2016 Citywide Catch Basin Connector Pipe Screen Installation, Job No. 7594, Plan No. P-721

THIS AGREEMENT, made and entered into this <u>18<sup>th</sup></u> day of <u>July</u>, 2016, by and between CITY OF SAN FERNANDO, a municipal corporation of the State of California, hereinafter referred to as "CITY" and <u>United Storm Water, Inc.</u> "CONTRACTOR."

#### WITNESSETH:

That the CITY and the CONTRACTOR, for the consideration hereinafter named, mutually agree as follows:

- 1. The complete contract consists of the Contract Documents which includes all of the following documents incorporated herein by this reference: Approved <u>2016 Citywide Catch Basin Connector Pipe Screen Installation</u>, <u>Job No. 7594</u>, <u>Plan No. P-721</u>, Notice Inviting Bids, Instructions to Bidders, Contractor's Proposal, Contract/Agreement, Special Provisions, Technical Provisions, and all modifications and amendments thereto.
- 2. CONTRACTOR shall perform everything required to be performed, shall provide and furnish all the labor, materials, necessary tools, expendable equipment, and all utility and transportation services required for the following work of improvement: **2016 Citywide Catch Basin Connector Pipe Screen Installation**, **Job No. 7594**, **Plan No. P-721** (the "Work of Improvement") all in accordance with the Contract Documents and Contractor's Proposal dated <u>July 7, 2016</u>.

CONTRACTOR agrees to perform all the work and furnish all the materials at his own cost and expense necessary to construct and complete in a good and workman-like manner and to the satisfaction of the City Engineer of the CITY, the Work of Improvement in accordance with the plans, specifications, and Contract Documents (the "Specifications") therefore prepared by City's Engineering Department and adopted by the City Council.

3. CITY agrees to pay and CONTRACTOR agrees to accept in full payment for this Work of Improvement the stipulated sum of <u>Fifty-One Thousand Six Hundred Twenty Dollars and No Cents</u> (\$ 51,620.00 ).

CITY agrees to make monthly payments and final payment in accordance with the method set forth in the Specifications.

4. CONTRACTOR agrees to commence construction of the Work of Improvement within ten (10) days after issuance of a Notice To Proceed, and to continue in a diligent and workman-like manner without interruption, and to complete the construction thereof within **twenty-five** (25) working days from the date the Notice to Proceed is issued.

- 5. Time is of essence of this Contract, and it is agreed that it would be impracticable or extremely difficult to ascertain the extent of actual loss or damage which the CITY will sustain by reason of any delay in the performance of this Agreement. It is, therefore, agreed that CONTRACTOR will pay as liquidated damages to the CITY the following sum: Five Hundred Dollars (\$500.00) for each day's delay beyond the time herein prescribed for finishing work. If liquidated damages are not paid, as designated by the CITY, the CITY may deduct the amount thereof from any money due or that may become due the CONTRACTOR under this Agreement in addition to any other remedy available to CITY. The CONTRACTOR shall not be assessed liquidated damages for any delay caused by the failure of a public utility to relocate or remove an existing utility required for the performance of this Contract.
- 6. The CONTRACTOR will pay, and will require all subcontractors to pay, all employees on the work of improvement a salary or wage at least equal to the prevailing salary or wage established for such work as set forth in the wage determinations for this work. Travel and subsistence pay shall be paid in accordance with Labor Code Section 1773.8. The CONTRACTOR shall forfeit to the CITY, as penalty, Fifty Dollars (\$50.00) for each calendar day or portion thereof for each worker paid (either by him or any subcontractors under him) less than the prevailing rate described above on the work provided for in this Agreement, all in accordance with Section 1775 of the Labor Code of the State of California. CONTRACTOR, by executing this Agreement, hereby certifies that it shall adopt the current general prevailing Federal and/or State rates of wages applicable to the Work of Improvement.
- 7. The CONTRACTOR or SUBCONTRACTOR shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR, Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract, or such other remedy as City deems appropriate.
- 8. Attention is directed to Section 7108.5 of the California Business and Professions Code, which requires a prime CONTRACTOR or SUBCONTRACTOR to pay any SUBCONTRACTOR not later than 10 days of receipt of each progress payment, unless otherwise agreed to in writing. In addition, Federal Regulation (49 CFR 26.29) requires a prime CONTRACTOR or SUBCONTRACTOR to pay a SUBCONTRACTOR no later than 30 days of receipt of each payment, unless any delay or postponement of payment among the parties takes place only for a good cause and with the prior written approval of the CITY. Section 7108.5 of the California Business and Professions Code also contains enforcement actions and penalties. These requirements apply to both DBE and non-DBE subcontractors.
- 9. Federal Regulation (49 CFR 26.29) requires the following method be used in federal-aid contracts to ensure prompt and full payment of any retainage kept by the prime CONTRACTOR or SUBCONTRACTOR to a SUBCONTRACTOR:

The CITY may hold retainage from the prime CONTRACTOR and provide for prompt and regular incremental acceptances of portions of the contract, pay retainage to

Page 3 of 11

prime CONTRACTORS based on the acceptances, and include a contract clause obligating the prime contract and subcontractors to pay all retainage owed to all SUBCONTRACTORS for satisfactory completion of the accepted work within 30 days after receipt of the retainage. This clause must require the prompt release of retainage payments from the prime CONTRACTOR to the SUBCONTRACTOR within a specified number of days after the SUBCONTRACTOR'S work is satisfactorily completed.

In the above method, a SUBCONTRACTOR'S work is satisfactorily completed when all tasks called for in the contract have been accomplished and documented as required by the CITY. The work of a SUBCONTRACTOR covered by that acceptance is deemed to be satisfactorily completed, when the CITY has made an incremental acceptance of a portion of the contract work. Federal Regulation (49 CFR 26.29) also requires that any delay or postponement of payment among the parties may take place only for good cause, must have the prior written approval of the agency, and that appropriate means of enforcement such as those contained in Section 7108.5 of the California Business and Professions Code must be included in the contract.

10. In the performance of this Contract, not more than eight (8) hours shall constitute a day's work, and the CONTRACTOR shall not require more than eight (8) hours in a day from any person employed by him hereunder, except as provided in the Labor Code of the State of California. The CONTRACTOR shall adhere to Article 3, Chapter 1, Part 7 (Sections 1810, et seq.) of the Labor Code of the State of California, and it is agreed that the CONTRACTOR shall forfeit to the CITY as a penalty the sum of Fifty Dollars (\$50.00) for each worker employed in the execution of this Contract by the CONTRACTOR or any subcontractor for each calendar day during which any worker is required or permitted to labor more than eight (8) hours in violation of that article.

#### 11. CONTRACTOR, by executing this Agreement hereby certifies:

"I am aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the work of this Contract."

12. CONTRACTOR shall, prior to the execution of this Contract, furnish two bonds approved by the CITY, one in the amount of One Hundred Percent (100%) of the Contract price, to guarantee the faithful performance of the work, and one in the amount of One Hundred Percent (100%) of the Contract price to guarantee payment of all claims for labor and materials furnished. This Contract shall not become effective until such bonds are supplied to and approved by the CITY. CONTRACTOR shall, prior to the release of the performance and payment bonds or the retention payment, furnish a warranty performance and payment bond equal to at least ten percent of the final contract price or \$1,000, whichever is greater.

IN WITNESS WHEREOF, the said CONTRACTOR and the CITY ADMINISTRATOR and CITY CLERK of the CITY have caused the names of said parties to be affixed hereto, each in triplicate, the day and year first above written.

## AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Michael E. Okafor, Personnel Manager

**Date:** July 18, 2016

**Subject:** Consideration to Approve an Agreement for Special Services with Liebert Cassidy

Whitmore

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Approve an Agreement for Special Services (Attachment "A" Contract No. 1829) with the law firm of Liebert Cassidy Whitmore (LCW);
- b. Authorize the City Manager to execute the Agreement; and
- c. Authorize staff to utilize the services of Olivarez Madruga, P.C. for additional representational, litigation, and other employment relations services.

#### **BACKGROUND:**

- 1. On November 7, 2011, the City Council authorized the City Administrator to proceed with an RFP for Labor and Employment Legal Services for the City.
- 2. On January 9, 2012, staff conducted the bid opening, and received a total of 12 responses to the RFP for Labor and Employment Legal Services.
- 3. In March 2012, all proposals were reviewed by an in-house committee (comprised of the City Administrator, City Planner, and the Personnel Manager) to ensure that the information requested in the RFP was complete, and that the respondents satisfied the minimum qualifications. During this review, six firms were selected for further consideration.
- 4. On May 8, 2012, the remaining six proposals were reviewed by the City Council Screening Committee, and four firms were selected for further consideration.

## **Consideration to Approve an Agreement for Special Services with Liebert Cassidy Whitmore**Page 2 of 4

- 5. On May 31, 2012 and June 7, 2012, the City Council interviewed representatives from each of the four law firms, including representatives from LCW.
- 6. On June 7, 2012, the City Council approved Meyers Nave as the City's Labor and Employment Attorney, and directed the City Administrator to negotiate a contract for City Council consideration.
- 7. On July 2, 2012, the City Council voted not to approve a contract with Meyers Nave and to reconsider other firms.
- 8. On July 18, 2012, the City Council voted to renew a one-year Special Services Agreement with LCW, thus making the City a member of the San Gabriel Valley Employment Relations Consortium, which consists of over 27 cities that consult with LCW.
- 9. On February 19, 2013, the City Council approved an agreement for City Attorney services with the law firm of Olivarez Madruga, P.C.
- 10. On November 18, 2013, a City Council Sub-Committee, then Interim City Manager, and the Personnel Manager met with representatives from LCW to address certain City concerns, and determined that it is in the City's best interest to continue with LCW for special labor and employment law services.
- 11. On December 2, 2013, the City Council approved an Agreement for Special Services with LCW retroactively from July 1, 2013 through June 30, 2014.
- 12. On June 16, 2014, the City Council approved the renewal of the Agreement for Special Services with LCW from July 1, 2014 through June 30, 2015.
- 13. On July 20, 2016, the City Council approved the renewal of the Agreement for Special Services with LCW from July 1, 2015 through June 30, 2016, and also authorized staff to utilize the services of Olivarez Madruga, P.C. for additional representational, litigation, and other employment relations services.

#### **ANALYSIS:**

LCW has over 30 years of extensive experience representing public agencies in California strictly in the area of employment law and labor relations. With over 70 attorneys, the firm has a very good reputation and tremendous resources, and is currently serving about 74% of California cities, 90% of California counties, 90% of California's community college districts, as well as numerous special districts and schools. Over the years, through its San Gabriel Valley Employment Relations Consortium, the firm has provided relevant training on a wide variety of topics to unlimited number of City employees at a reasonable flat fee.

## **Consideration to Approve an Agreement for Special Services with Liebert Cassidy Whitmore**Page 3 of 4

If approved, the proposed Special Services Agreement will be for one-year, from July 1, 2016 through June 30, 2017, and will include the provision of the following services:

- Five full days of group training workshops for unlimited number of City designated attendees covering the following relevant employment relations subjects: "A Guide to Public Employee Discipline," "File that! Best Practices for Document and Record Management," "Maximizing Supervisory Skills for the First Line Supervisor," "Public Sector Employment Law Update," "12 Steps to Avoiding Liability," "Preventing Workplace Harassment, Discrimination and Retaliation," "Public Service: Understanding the Roles and Responsibilities of Public Employees," "Performance Management: Evaluation, Documentation and Discipline," and "Leaves, Leaves and More Leaves." (See Attachment "B" for the LCW 2016-2017 Workshop Schedule).
- Availability of Attorneys for City to consult by telephone. Questions that the attorneys can answer with limited research or review of documents are covered by this service.
- Monthly newsletter and training materials covering employment relations developments.

LCW will provide the above services to the City for a flat fee of \$2,790 if paid prior to August 1, 2016. If paid after August 1, 2016, a late fee of \$100 will be added. The flat fee is the same as last fiscal year, and covers the provision of the aforementioned group training workshops to unlimited number of employees, as well as yearlong telephonic consultations with attorneys.

Provision of the nine workshops listed in Attachment "B" at this flat rate amounts to major savings for the City. Typically, a three-hour, half day group workshop session for one training topic such as the State-mandated (AB 1825) training on "Preventing Workplace Harassment, Discrimination and Retaliation" ranges from \$3,500 to \$4,500.

This agreement does not include additional services such as representation, litigation, and other employment relations services that may require in-depth research, for which the City will be billed based on the hourly rates for attorney time. For these services, the City will utilize labor attorneys with the law firm of Olivarez Madruga, P.C. Their hourly rates are \$190 and \$275 for Associates and Partners, respectively. These rates are more competitive when compared to that of LCW, which range from \$200 to \$350, depending on the specific attorney used.

#### **BUDGET IMPACT:**

Funding is included in the Fiscal Year 2016-2017 Budget.

## Consideration to Approve an Agreement for Special Services with Liebert Cassidy Whitmore Page $4\ \mathrm{of}\ 4$

#### **CONCLUSION:**

Approval of the Agreement for Special Services with LCW is necessary to enable the City take advantage of the special benefits available to all participating member cities of the San Gabriel Valley Employment Relations Consortium, including the nine scheduled workshops, training materials and resources.

## AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Anthony Vairo, Police Chief

**Date:** July 18, 2016

**Subject:** Consideration to Adopt a Resolution for the Purchase of Four Catalyst 3850-48T-

L Ethernet Switches

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Adopt Resolution No. 7756 (Attachment "A") amending the budget for Fiscal Year 2016-17, commencing July 1, 2016 and ending June 30, 2017; and
- b. Approve the Purchase of four (4) Catalyst 3850-48T-L Ethernet Switches in the amount of \$14,066.00, not to exceed in the amount of \$15,000.00; and
- c. Authorize the City Manager and the Chief of Police to execute the Purchase Order.

#### **BACKGROUND:**

- 1. In 2008, the Police Department received a Federal Grant in the amount of \$1,050,000 for the purchase, installation and implementation of a new Motorola Mesh System for the departments Virtual Patrol System.
- 2. In 2010, the Virtual Patrol System was installed and implemented with state-of-the-art equipment of that time, which included integrating the City of San Fernando's network system.
- 3. In 2016, the Police Department's network switches became out dated and are no longer able to handle the amount of data and video through the current system.

**Consideration to Adopt a Resolution for the Purchase of Four Catalyst 3850-48T-L Ethernet Switches**Page 2 of 2

#### **ANALYSIS:**

The Police Department has been progressive with utilizing technology to combat crime. In the last 20 years, the Police Department has purchased and installed desktop computers throughout the Department, Mobile Data Computers (MDC) for the Patrol/Detective/Community Service Officer units, RMS/CAD software, which all of these items have stream lined police resources.

Of course over the years of use, the current four Ethernet Switches are outdated and are in great need to be replaced. Unfortunately, this was not discovered until after the budget process was completed. Those Ethernet Switches control the flow of data and video from the Police Departments connection from and to the Citywide network system, DMV, FBI, JDIC and other critical systems. Currently, the system is extremely slow because of the data and video flow is being choked due to the age and lack of compatibility of the current Ethernet switches.

The Police Department received three bids (Attachment "B") for the four Catalyst 3850-48T-L Ethernet Switches and Advanced Electronics Inc. is the lowest bid (\$14,066.00).

#### **BUDGET IMPACT:**

Funds are available in Fund 20 – State Asset Forfeiture Fund, but were not allocated for the purchase of four Catalyst 3850-48T-L Ethernet Switches during Fiscal Year 2016-2017. Staff is recommending that the City Council approve the purchase of the switches in the amount of \$14,066, not to exceed \$15,000, by utilizing the State Asset Forfeiture Fund (20-3875-0000).

#### **CONCLUSION:**

The Police Department has established the need to purchase four Catalyst 3850-48T-L Ethernet Switches. For this purchase, the Police Department will utilize funds from the State Asset Forfeiture Fund.

By signing this document, you have agreed to the above and the terms and conditions attached.

#### Terms and Conditions

ORDERS AND FIRM ORDERS: By placing its order and executing the sales order form (referred to herein as "Agreement" or "Form"), Customer acknowledges its agreement to purchase equipment and services described on the sales order form and any attachments referenced thereon subject to the terms and conditions which follow. Each sales order form must: (1) be signed by an authorized representative of Customer; (2) accompanied by a written purchase order (where Customer procedures require the same for such purchases); and (3) be accompanied by the payment or deposit required as set forth on the sales order form. To be binding, each sales order form must comply with all requirements set forth herein and be accepted in writing by an authorized representative of Advanced Electronics, Inc. ("Advanced"). Upon written acceptance by Advanced, each sales order becomes a "FIRM ORDER."

EQUIPMENT, LABOR AND AVAILABILITY: Advanced will hold equipment and labor pricing for 30 days from the date of the sales order, after which pricing and availability may change without notice. Equipment availability, installation scheduling and service scheduling is always subject to the manufacturer's ability to deliver equipment and parts.

FREQUENCIES, LICENSES AND SERVICE PROVIDERS: All frequencies and squelch codes are to be supplied by Customer upon execution of this Agreement unless Advanced has specifically accepted responsibility to provide the same in writing on the sales order. Customer accepts full responsibility for the accuracy of such information and will be responsible for any restocking fee, additional parts, and/or labor required due to incomplete, incorrect and/or invalid information provided by Customer. Customer is solely responsible for obtaining any licenses or other authorizations required by the Federal Communications Commission ("FCC") and for complying with FCC rules, and with the rules and regulations of any other federal, state or local regulatory agency. Neither Advanced nor any of its employees are agents or representatives of the Customer on FCC matters or otherwise. If applicable, Customer acknowledges that it has selected a radio common carrier to provide service which utilizes radio frequencies authorized and controlled by the FCC. Advanced has no control over quality, coverage or reliability of service provided by other parties. Customer acknowledges that RF signals are subject to dead spots, power outages, atmospheric conditions and other problems which may at times interfere with normal communications. Please note that RFI (radio frequency interference) issues which consist of, but not limited to: co-channel activity, alternator whine, engine noise or other internal/external interference issues, are not covered by the equipment manufacturer or Advanced Electronics. Any remediation costs related to locating or eliminating this type of interference will be charged to the customer at Advanced Electronics' standard time and material rates.

PAYMENT TERMS AND LATE PAYMENT CHARGES: Full payment is required with each order unless other arrangements are made and set forth on the sales order form. In the event that the full purchase price of equipment and services called for in this Agreement is not paid at the time of Customer's order, the unpaid balance is due upon delivery of the equipment to Advanced from the manufacturer. All payments will be by company check, cashier's check, money order or credit card (Visa, MasterCard, American Express or Discover). Arrangements can be made in advance of the order to pay by Customer company check or charged to an open Customer account. All customers paying by company check or charging to an open account must have received prior authorization by having met Advanced's credit qualifications prior to the placement of any order. No employee of Advanced is permitted to accept cash in the payment of any obligations due to Advanced. If any payment of any sum due from Customer is not received by Advanced within five (5) days after such payment is due, then such overdue amounts shall be subject to a delinquency charge (liquidated damages under California Civil Code Section 1671) at a rate of interest equal to 18% per annum from the date such overdue amounts were actually due until the date actually received by Advanced. Customer acknowledges that such delinquency charge is reasonable under all the circumstances existing at the time this Agreement was made. Customer agrees that acceptance of all or any portion of such delinquency charge by Advanced will not constitute a waiver by Advanced of Customer's default with respect to such overdue amounts, nor will it prevent Advanced from exercising any or all other rights or remedies which Advanced may have. Any delinquency charge, discount rate and/or interest rate set forth herein shall be charged or applied at the rate set forth herein or the maximum rate allowed by law, whichever is lower.

RETURN POLICY: All returns to Advanced, for any reason, must show a clearly legible and valid Return Merchandise Authorization (RMA) number on the outside of the shipping box. No returns will be accepted without a valid RMA number. All RMA returns should be sent freight prepaid. Repair or replacement will be solely at Advanced's option. To obtain an RMA number, it is necessary to call Advanced's service center with the following information: (1) the invoice number and date of purchase; (2) the purchase order number; (3) the make, model number and serial number of the equipment to be returned; and (4) customer identification. No equipment returned for exchange or credit will be accepted without all manuals, cables, parts and original factory packing.

CANCELLATION CHARGES: If this Agreement is cancelled by Customer prior to delivery for other than the default of Advanced, Customer shall pay Advanced thirty percent (30%) of the total price for all product, accessories, installation and services listed on the sales order to defray restocking and administrative costs involved in the sale as liquidated damages and not as a penalty.

EQUIPMENT NOT FOR RESALE: Customer acknowledges that said equipment on the sales order is NOT for resale and that the customer is the sole "end user" of the equipment described herein, unless stated differently on the sales order and agreed to in writing by an authorized Advanced officer. Customer agrees and warrants that it will NOT offer this equipment for resale or for export out of the United States.

LIMITED WARRANTY: All equipment warranties and specifications are provided by the manufacturer of the equipment. Advanced warrants its services to be properly performed and to be free of defects in workmanship for 30 days, unless stated otherwise on the sales order. Damage from accident, abuse, misuse, negligence, extreme conditions, humidity, service from another service provider, use of unapproved, incorrect or faulty service parts and/or accessories will void all warranties. Opening or otherwise tampering with the equipment, including upgrading or repairing by unauthorized personnel, will also void all warranties. This limited warranty is void if Customer relocates the equipment, has the installation or equipment worked on by anyone other than Advanced or attaches equipment or accessories not provided by Advanced. Advanced's warranty shall not be enlarged and no obligations or liability shall arise out of Advanced's rendering of technical advice, facilities or service in connection with Customer's purchase of the product and/or services furnished.

LIMITATION OF LIABILITY: ANY AND ALL EXPRESS AND IMPLIED WARRANTIES NOT SPECIFICALLY SET FORTH HEREIN, INCLUDING BUT NOT LIMITED TO WARRANTIES OR MERCHANTABILITY OR FITNESS FOR ANY PURPOSE OR USE, ARE EXPRESSLY EXCLUDED AND DISCLAIMED. THE MANUFACTURER OF THE EQUIPMENT IS SOLELY RESPONSIBLE FOR THE WARRANTY OF THE EQUIPMENT PROVIDED. CUSTOMER IS SOLELY RESPONSIBLE TO DETERMINE WHETHER THE EQUIPMENT ORDERED WILL MEET

ITS' NEEDS AND REQUIREMENTS. IT IS EXPRESSLY AGREED THAT ADVANCED'S SOLE OBLIGATIONS AND CUSTOMER'S EXCLUSIVE REMEDIES FOR ANY CAUSE WHATSOEVER ARISING OUT OF OR RELATED TO THIS AGREEMENT OR TRANSACTIONS CONTEMPLATED HEREBY IS LIMITED TO TERMINATION AND A REFUND OF CUSTOMER'S PURCHASE PRICE, OR BY CUSTOMER REQUEST, ADVANCED, AT ADVANCED'S OPTION, TO REPAIR OR REPLACE PRODUCTS THAT ARE NOT AS WARRANTED. ALL OTHER REMEDIES OF ANY KIND ARE EXPRESSLY EXCLUDED. IN NO EVENT SHALL ADVANCED BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO LOST PROFITS, RELAY SYSTEM FAILURES AND/OR NETWORK FAILURES) CAUSED BY THE INABILITY OF CUSTOMER TO USE THE EQUIPMENT, THE FAILURE OF THE EQUIPMENT, ANY DELAY IN COMMENCEMENT OF THE SERVICES CONTEMPLATED HEREIN, OR ANY OTHER CAUSE OR MATTER WHATSOEVER.

Page 297 of 705

INDEMNIFICATION AND HOLD HARMLESS: Customer agrees to indemnify and hold harmless Advanced, its directors, officers, employees and its affiliates (collectively the "Indemnified Parties") from any liability or expense arising out of any act or omission by Customer, including without limitation, the misuse and non-operation of the equipment and services set forth herein. Customer shall pay all expenses (including attorneys fees) incurred by the Indemnified Parties in connection with all legal or other formal or informal proceedings concerning claims of third parties or criminal proceedings, and Customer shall satisfy all judgments, costs or other awards which may be incurred by or rendered against the Indemnified Parties including, to the extent permitted by law, any fines or penalties resulting from or arising out of such criminal proceedings.

APPLICABLE LAW, LEGAL ACTIONS AND ATTORNEY'S FEES: The existence, validity, construction, operation and effect of this Agreement shall be determined in accordance with and be governed by the laws of the State of California. All legal actions must be brought in the Federal Courts of the Central District of California or in the Superior Courts of the State of California, county of Los Angeles. By executing this Agreement, Customer is submitting to the jurisdiction of the State of California with respect to any dispute which may arise out of this Agreement. No action shall be brought on any breach of this Agreement more than one (1) year after the accrual of such cause of action except for money due upon an open account. In the event of a lawsuit arising out of this Agreement, the Parties agree that the prevailing party shall be awarded its cost of suit, including reasonable attorney's fees. ### AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Anthony Vairo, Police Chief

**Date:** July 18, 2016

**Subject:** Consideration to Adopt a Resolution for the Purchase, Installation and Training

of TriTech Inform Records Management System (RMS) and Field Base Reporting

(FBR)

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Adopt Resolution No. 7753 (Attachment "A") amending the budget for Fiscal Year 2016-17, commencing July 1, 2016 and ending June 30, 2017; and
- b. Approve the Purchase, Installation and Training of TriTech Inform RMS and FBR software in the amount of \$29,925.00 (Attachment "B"), not to exceed in the amount of \$30,000.00; and
- c. Authorize the City Manager and the Police Chief to execute the Purchase Order.

#### **BACKGROUND:**

- 1. In 1997, the Police Department purchased, installed, and implemented a new Records Management System (RMS), Computer Aided Dispatch (CAD), and Mobile systems from Vision, Inc. (based in North Carolina).
- In 2012, TriTech Software Systems (based in San Diego, California) purchased Vision, Inc. and assumed responsibility for current and future products for current Vision, Inc. customers.
- 3. Since 2012, TriTech Software Systems developed and made available the new Inform RMS and FBR, which after a few years of deployment to various police agencies, most all issues have been resolved.

Consideration to Adopt a Resolution for the Purchase, Installation and Training of TriTech Inform Records Management System (RMS) and Field Base Reporting (FBR)
Page 2 of 2

#### **ANALYSIS:**

The Inform Solution developed by TriTech Software System is developed around an automated workflow to ensure the most effective emergency reporting, response, disposition, and analysis across the entire department.

An integral part of the Inform RMS solution is to provide immediate access to information regardless of who entered or where it was entered within the Inform software. As information flows throughout the software, the four cross-jurisdictional master indices (e.g., address, name, property, and vehicle) are central to the power of RMS to easily and effectively manage vital records.

Inform FBR is a flexible web-enabled field reporting solution that gives officers the ability to create, update, and submit reports easily and efficiently from the field or in the Police Station. With an intuitive user interface and extensive workflow configuration options, Inform FBR streamlines the entire reporting process from writing through approval. As a key part of the FBR enterprise-wide solution, Inform FBR provides ready access to call service, subject, and vehicle information from CAD and Mobile to expedite report completion. The increased mobility and fast data entry available with Inform FBR enables officers to spend less time entering reports and spend more time in the field keeping our communities safer.

#### **BUDGET IMPACT:**

Funds are available in Fund 20 – State Asset Forfeiture Fund, but were not allocated for the purchase, installation and training of TriTech Inform Records Management System (RMS) and Field Base Reporting (FBR) during Fiscal Year 2016-2017. Staff is recommending the City Council approve the purchase, installation and training of TriTech Inform RMS and FBR software in the amount of \$29,925.00, not exceeding \$30,000.00 by utilizing the State Asset Forfeiture Fund (20-3875-0000).

#### **CONCLUSION:**

The Police Department has established the need to purchase the TriTech Inform RMS and FBR software. For this purchase, the Police Department will utilize funds from the State Asset Forfeiture Fund.

## AGENDA REPORT

To: Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Ismael Aguila, Recreation and Community Services Director

July 18, 2016 Date:

Subject: Consideration to Approve Subaward Agreement with County of Los Angeles

Community and Senior Services for Elderly Nutrition Program Services

#### RECOMMENDATION:

It is recommended that the City Council consider the following:

- a. Authorize the City Manager to execute a Subaward Agreement (Attachment "A" Contract No. 1830) with the County of Los Angeles Community and Senior Services (County) to grant access for the Elderly Nutrition Program (ENP) Services at Las Palmas Park; and
- b. Adopt a Resolution (Attachment "B" Resolution No. 7752) to increase the expenditures of the FY 2016-2017 budget for Funds 001-422-3750 and 001-422-3752 by \$5,000 to balance any deficit to the ENP accounts.

#### **BACKGROUND:**

- 1. In February of 2008, the County of Los Angeles distributed a Request for Proposals (RFP) soliciting for providers to serve the City. No proposals were received that included services to the City.
- 2. On September 2, 2008, the County of Los Angeles notified City staff that they were not able to find a provider to continue the program. During a complex series of negotiations with the County of Los Angeles, staff confirmed that no provider was available and the City would be required to take over the program and contract directly with the County of Los Angeles.
- 3. In October of 2008, the City commenced the administration of the ENP at Las Palmas Park.
- 4. On December 15, 2008, the County of Los Angeles requested a board resolution from the City to authorize the execution of a contract to release funds for the ENP in San Fernando.

Page 2 of 4

- 5. On February 17, 2009, the City Council adopted a Resolution authorizing the City Administrator to execute a contract, and all related documents necessary for said contract, with the County of Los Angeles to provide services for the ENP in the City.
- 6. In November of 2011, the County of Los Angeles released an RFP to solicit service providers for the ENP. Every four years the County of Los Angeles conducts an open competitive bid process for program services with renewal application documents to be submitted.
- 7. On March 29, 2012 the County of Los Angeles Community and Senior Services recommended a maximum annual allocation of \$84,877 for the ENP operated from Las Palmas Park, with the contract term to be from July 1, 2012 through June 30, 2016.
- 8. On May 22, 2012, the County of Los Angeles Board of Supervisors approved the execution of the contract for the provision of ENP services for a four-year term.
- 9. Since January of 2016, City staff has been in discussions with staff from County of Los Angeles Community and Senior Services in regards to seeking additional partners to assist the City with implementation of the ENP at Las Palmas Park.
- 10. On February 11, 2016, the City Manager submitted a letter of intent with the County of Los Angeles for a one-year agreement for ENP services at Las Palmas Park (Attachment "C").

#### **ANALYSIS:**

#### Federally-Funded Elderly Nutrition Programs

The ENP is administered under the guidelines of the Federal Older Americans Act (OAA) which funds two nutrition programs designed to provide meals for older persons; a congregate meal program and a home-delivered meal program. There is no income restriction for recipients, but service providers must target persons most in need. Funding limitations restrict the number of persons who can receive meals.

#### **ENP Services in San Fernando**

For over 23 years, the ENP in San Fernando has been operated by a non-profit agency contracted by the County of Los Angeles Senior Services as part of the Older American's Act. In 2008, the contractor awarded with the grant to provide ENP services at Las Palmas Park since Santa Clarita Valley Committee on Aging opted out of the awarded contract to pursue other business ventures. In order to avoid disruption of the ENP, the City of San Fernando agreed to the County of Los Angeles's request to temporarily takeover operations until a permanent replacement could be identified. Since 2008, the Recreation and Community Services Division has been overseeing the operations of ENP services. Assuming operations of the ENP has required significant City staff time to provide a safe and effective program for approximately 70 seniors each day.

# Consideration to Approve Subaward Agreement with County of Los Angeles Community and Senior Services for Elderly Nutrition Program Services

Page 3 of 4

City staff has continued to work with the County to identify a potential contractor to resume ENP services. To date, those efforts have been unsuccessful. In January of 2016, City staff again met with County regarding the upcoming RFP for ENP services as the current grant cycle was set to expire on June 30, 2016. As part of those conversations, City staff was informed that we would be given the ENP grant starting July 1, 2016. However, City staff once again requested that the County increase efforts to help identify a new contractor to assume services in San Fernando. The County then informed City staff that they would release a RFP for ENP services in San Fernando and as part of that process, they requested that the City submit a letter of intent supporting a one year agreement to continue to provide ENP services until June 30, 2017 (Attachment "C"). At that time, the new awardee contractor would assume operations of ENP services.

#### **Proposed Agreement**

On July 1, 2016, City staff received an award letter and contract for the ENP services for the period of July 1, 2016 to June 30, 2017. The proposed one-year agreement requires the City of San Fernando to continue to deliver same level of services provided during Fiscal Year 2015-2016. Below is the allocation amounts to provide approximately 42 congregate meals and 30 homedelivered meals.

Summary of Funding Allocation for ENP Services (July 1, 2016 to June 30, 2017)

Program Delivered	Unit Rate	Funding Amounts
Title III C-1 Program Services	\$4.75	\$51,944
(Congregate Meal Services)		
Title III C-2 Program Services	\$4.75	\$37,874
(Home-Delivered Meal Service)		
Title III B Program Services	\$0.60	\$1,000
(Telephone Reassurance Services)		
TOTAL		\$90,818

#### **BUDGET IMPACT:**

Since the agreement was received approximately one week before it was set to expire and that the July 5<sup>th</sup> City Council meeting was cancelled, City staff was not able agendize this report and agreement until the July 18<sup>th</sup> City Council meeting thus the City will not be able to be reimbursed for any meals prior to signature of agreement. City staff will try to utilize donation funds to offset costs. However, it is still recommend that the City adopt a Resolution amending the FY 2016-2017 budget for an additional \$5,000 to balance any deficit to the ENP account.

#### **CONCLUSION:**

It is recommended that the City Council consider the following:

- a. Authorize the City Manager to execute a Subaward Agreement (Attachment "A" Contract No. 1830) with County of Los Angeles Community and Senior Services (County) to grant access for Elderly Nutrition Program (ENP) Services at Las Palmas Park; and
- b. Adopt a Resolution (Attachment "B" Resolution No. 7752) to increase the expenditures of Funds 001-422-3750 and 001-422-3752 by \$5,000 for the FY 2016-2017 Budget.

County of Los Angeles VICE MAYOR

Community and Senior Services

COUNCILMEMBER ANTONIO LOPEZ

COUNCILMEMBER

SUBJECT: Letter of Intent for ENP at Las Palmas Park

ROBERT C. GONZALES

Dear Mr. Goldman:

COUNCILMEMBER JAIME SOTO

The purpose of this letter is to set forth certain non-binding commitments between the City of San Fernando and the County of Los Angeles Community and Senior Services relating to the intent to continue to contract services for the Elderly Nutrition Program in the City of San Fernando.

During our meeting on January 28, 2016, you informed the City of San Fernando of new requirements (Attachment "A") to the ENP Contract cycle starting on July 1, 2016 and requested for us to provide you with some type of commitment going forward. Per our conversation, we reminded you that in 2008 the County requested the City of San Fernando to tentatively operate the ENP at Las Palmas Park while a replacement operator was identified. However six years later, City Staff are continuing to operate the program. This responsibility creates a huge burden on staffing. Since 2008, the Community Services Division has committed 50% of all full-time staff to manage the ENP.

As the City Manager of the City of San Fernando, I wish to request that the County offer the City of San Fernando a 6-month agreement, starting July 1, 2016, with the understanding that the County will submit an RFP for the City of San Fernand ENP to secure a contractor to resume services in January 2017. This is one of the options you provided in our meeting (refer to Attachment "A").

When fully executed, this Letter of Intent, together with attachment "A", shall reflect the Intent of the City of San Fernando and the County of Los angles to attempt to negotiate a definitive Agreement for the provision of the Elderly Nutrition Program within the City of San Fernando going forward.

#### **New Requirements**

- County would create Regions to provide services for ENP. However, cities would not need to respond to the upcoming RFP as they would be automatically awarded a contract if they are to commit.
- Contractor would be required to provide emergency meals to all home-based clients with no additional funding.
- Contractor would be required to meet all minimum wage requirements.

#### **City Options**

- 1. Accept or decline the new ENP Contractor Grant Cycle with new requirements.
- 2. Accept the new ENP Contractor Grant Cycle and request for more funds to accommodate the new changes.
- 3. Accept the new ENP Contractor Grant Cycle and serve less meals with same funding monies.
- 4. Agree to a 6-month agreement while the County identifies a contractor to resume services

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Elena G. Chávez, City Clerk

**Date:** July 18, 2016

Subject: Consideration to Approve a Resolution Adopting a Plan to Consolidate Future

Elections with a Statewide Election No Later Than the November 8, 2022

Statewide General Election

## **RECOMMENDATION:**

It is recommended that the City Council approve Resolution No. 7754 (Attachment "A") adopting a plan to consolidate future elections with a statewide election no later than the November 8, 2022 Statewide General Election.

# **BACKGROUND:**

- 1. On September 1, 2015, Governor Jerry Brown signed Senate Bill 415 (SB 415) into law which prohibits a local government (such as the City of San Fernando) from holding an election on any date other than a statewide election date, if doing so in the past has resulted in turnout that is at least 25% below the average turnout in that jurisdiction in the last four statewide general elections. Section 14052(b) of the Elections Code allows the City to hold elections on dates other than statewide election dates, after January 1, 2018, if it adopts a plan to consolidate a future election with a statewide election not later than the November 8, 2022 statewide general election.
- 2. On June 6, 2016, the City Council directed staff to report back with a resolution for a plan to consolidate with the statewide general election cycle no later than the November 8, 2022 statewide election (with a reserved option to consolidate with the 2020 statewide election).

# **ANALYSIS/CONCLUSION:**

In California, general law cities, such as the City of San Fernando, are obligated to conduct general and special municipal elections in accordance with the California Elections Code. (Elec. Code, §§ 10101-10312.) The City currently conducts its elections on the first Tuesday after the first Monday in March in each odd-numbered year, pursuant to City Council Ordinance No. 1452 and Elections Code Section 1301.

Consideration to Approve a Resolution Adopting a Plan to Consolidate Future Elections with a Statewide Election No Later Than the November 8, 2022 Statewide General Election Page 2 of 2

SB 415 prohibits the City from holding an election on other than a statewide election date if holding an election on a "nonconcurrent date" (i.e. election date other than November of even-numbered years) has previously resulted in turnout that is at least 25% less than the average voter turnout within that political subdivision for the previous four statewide general elections (i.e., 42.83% threshold for San Fernando). The City's last General Municipal Election on March 3, 2015, resulted in a 12.7% turnout which is below the minimum City turnout threshold.

At their meeting on June 6, 2016, the City Council directed staff to report back with a resolution for a plan to consolidate with the statewide general election cycle no later than the November 8, 2022 statewide election (with a reserved option to consolidate with the 2020 statewide election).

A certified copy of Resolution No. 7754 will be forwarded to the County of Los Angeles Board of Supervisors and to the Los Angeles County Registrar-Recorder/County Clerk. Before the end of this year, staff will present to the City Council an ordinance for consideration that will indicate future election dates (i.e., when the new election cycle will take effect and when the last election, under the current cycle, will take effect).

WHEREAS, general law cities, such as the City of San Fernando (the "City"), are obligated to conduct general and special municipal elections in accordance with the California Elections Code (the "Elections Code"), per Elections Code Section 10101, et seq.; and

**WHEREAS**, as of the date of this Resolution, Section 10402.5 of the Elections Code allows the County of Los Angeles Board of Supervisors to deny consolidation based on incompatible ballot style, voting equipment, or computer capacity.

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Chris Marcarello, Deputy City Manager/Public Works Director

**Date:** July 18, 2016

**Subject:** Consideration to Adopt a Resolution for the Placement of Liens on Real Property

for Non-Payment of Residential Solid Waste Collection Services Billings

# **RECOMMENDATION:**

It is recommended that the City Council:

a. Conduct a Public Hearing; and

b. Pending public testimony, adopt Resolution No. 7748 (Attachment "A") authorizing the placement of a lien against real property as a special assessment on property tax bills for the collection of delinquent solid waste billings.

# **BACKGROUND:**

On May 16, 2016, the City Council adopted Ordinance No. 1655, authorizing the placement of liens on real property for non-payment of residential solid waste collection billings. The City's ability to place delinquent sums on the tax roll is conditioned upon the local solid waste hauler having made multiple attempts to collect the invoice on their own by sending notice to the customer and later to both the customer and the owner of the property served by the solid waste account (in those instances where the customer and the property owner are different). After complying with the process prescribed by California Health & Safety Code Sections 5473, 5473a and related statutes, the City Council, by resolution, may approve the placement of certain delinquent sums on the tax roll by 2/3 vote. The requirements of California Health & Safety Code Sections 5473 and 5473a are as follows:

(i) Prepare and file a report with the City Clerk describing each delinquent account and the real property parcel to which the account corresponds so that the delinquent sums may be placed on the annual tax roll.

Consideration to Adopt a Resolution for the Placement of Liens on Real Property for Non-Payment of Residential Solid Waste Collection Services Billings

Page 2 of 4

(ii) Give notice of and hold a public hearing before approving a final list of real property parcels with corresponding delinquent sums for submission to the Los Angeles County Auditor-Controller.

On June 6, 2016, the City Council approved Resolution No. 7738, setting a public hearing date of July 18, 2016 to consider the placement of liens for non-payment of residential solid waste collection billings.

# **ANALYSIS:**

Residents that receive solid waste collection services are billed for such services by the City's franchised solid waste contractor. Through Ordinance No. 1655, the City established procedures for the collection of such delinquent fees. Ordinance No. 1655 requires a series of notices to be sent before a solid waste collection services bill can be considered eligible for placement on the tax roll. First, if a bill is not paid within thirty (30) days, a reminder notice is sent to the customer. Second, if payment is not received within thirty (30) days following the first reminder notice, a second notice of delinquency is sent. In those instances where the customer and the property owner are different, the second notice is sent to both the customer and the property owner. If an account remains unpaid thirty (30) days following the second delinquency notice, the delinquent sums owed are then eligible for placement on the tax roll.

Following the issuance of required reminder notices, the City's franchised solid waste contractor, Consolidated Disposal Service, provided the City with a list of 647 residential accounts that remained delinquent as of May 1, 2016. Pursuant to Ordinance 1655, before submitting delinquent fees and charges to the Los Angeles County Assessor's Office, the City must conduct a noticed public hearing on the matter. On June 6, 2016, the City Council approved Resolution No. 7738, setting a public hearing date for July 18, 2016 to consider the placement of the delinquent trash fees on the tax roll for those residential solid waste collection billings that have not been made current before the close of the public hearing.

# Placement of Liens

Authority to collect delinquent solid waste fees on the tax roll is found under Health & Safety Code Section 5473 and 5473a. The City Council adopted Ordinance No. 1655, establishing procedures in accordance with these statutes that allow for the tax roll collection process to occur. In accordance with State and local guidelines, the following actions have been completed to satisfy noticing requirements:

# Mail Notice

Notice was sent to both account holders and property owners during the week of June 6, 2016. Upon request, account information has been provided to either account holders or property owners relative to delinquent billing amounts. Notices indicate a

final payment due date for account holders to bring accounts current and notice of a scheduled public hearing date on July 18, 2016 at 6 p.m. Attachment "B" includes notice samples provided to account holders and/or property owners.

After sending notices to account holders and property owners, 362 accounts (56% of initial delinquent account list) have either brought their account current or entered into a payment plan for such services. As of July 11, 2016, 285 accounts remain in a delinquent status.

# • Public Notice and Annual Report

Notice was published in The San Fernando Sun on June 23, 2016 and June 30, 2016, causing notice of the time and place of a public hearing where the City Council will consider the placement of liens for non-payment of residential solid waste collection billings. The notice also includes an annual report of each delinquent account and corresponding real property parcel so that delinquent sums ay be placed on the annual tax roll, if necessary. Attachment "C" includes a copy of the published public hearing notice and annual report.

# **Public Hearing**

The City Council can make modifications to the annual report of delinquent accounts prior to placement on the tax roll. This may occur if a customer/property owner are able to prove to the reasonable satisfaction of the City that the account was never delinquent or that there is an error in the report for which a correction is justified. Any modifications will need to be processed by August 5, 2016. On August 10, 2016, the final delinquent annual report list will be forwarded to LA County for inclusion on the tax roll.

## **BUDGET IMPACT:**

The City will incur administrative costs associated with the preparation of the annual report, complying with noticing requirements and payment of sums to the County of Los Angeles for their role in collecting delinquent sums on the tax roll. To offset these costs, the City's ordinance authorizes the City Council to recover such costs (approximately 5%) which will be deducted from sums actually collected on the tax roll before sums owed to the solid waste hauler are remitted to the hauler by the City.

# **CONCLUSION:**

It is recommended that the City Council approve the attached resolution authorizing the placement of liens on real property for non-payment of solid waste collection services billings.

ATTACHMENT "C"

# PLACEMENT OF LIENS ON REAL PROPERTY FOR NON-PAYMENT OF RESIDENTIAL SOLID WASTE COLLECTION SERVICES BILLINGS AS OF JULY 18, 2016 ON THE COUNTY TAX ROLLS

NOTICE IS HEREBY GIVEN that the City Council of the City of San Fernando, California, will hold a public hearing in the Council Chambers at City Hall, 117 Macneil Street, San Fernando, beginning at 6:00 p.m., on July 18, 2016 to consider the following:

Pursuant to Health and Safety Code Section 5473(a), a written report has been filed with the City Clerk of the City of San Fernando, containing a description of each parcel of real property receiving solid waste collection service for which payment is delinquent and containing the amount of delinquent solid waste collection service charges for each such parcel for the period ending May 1, 2016, computed in conformity with the charges prescribed in Chapter 70 of the San Fernando Municipal Code.

The purpose of the hearing is to determine whether the delinquent solid waste collection charges described in said report shall be collected on the tax roll in the same manner, by the same person and at the same time as, together with and not separately from, the general taxes of the City of San Fernando. This means that, if the delinquent charges are not paid in a timely manner, they may be assessed against the property and collected as a tax lien.

The written report describing each parcel of real property receiving solid waste collection service for which payment is delinquent is available for review at the Department of Public Works between the hours of 7:30 a.m. and 5:30 p.m., Monday through Thursday, and alternate Fridays between the hours of 8:00 a.m. and 5 p.m. Please contact the Department of Public Works at (818) 898-1222 if you would like to schedule an appointment to review the report of parcels that are currently delinquent in their payment of solid waste collection service fees.

If you wish to protest the charges you may respond to this notice verbally at the public hearing and/or in writing before the public hearing. Written comments can be made to the City Council by letter (for mail or hand delivery) to:

Elena G. Chávez, City Clerk 117 Macneil Street San Fernando, CA 91340

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding this matter may be directed to Maria Padilla, Department of Public Works, (818) 898-1222.

Las personas interesadas tendrán la oportunidad de ser escuchadas durante la audiencia pública. Si tiene preguntas concernientes a este asunto, por favor llame al Departamento de Obras Públicas y comuníquese con Maria Padilla al (818) 898-1222.

To avoid having a lien placed against your property you must make payment directly to the City's contractor, Consolidated Collection Service by July 7. When making payment please write LIEN on your payment envelope as well as your check. The contractor's address is:

Consolidated Collection Service 12949 Telegraph Road Santa Fe Springs, CA 90670 (800) 299-4898

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Chris Marcarello, Deputy City Manager/Public Works Director

**Date:** July 18, 2016

Subject: Consideration of the Fiscal Year (FY) 2016-2017 Landscaping & Lighting

Assessment District Public Hearing and Confirmation of Assessment

## **RECOMMENDATION:**

It is recommended that the City Council:

- a. Conduct a Public Hearing by following the attached Order of Procedure (Attachment "A");
- b. Adopt Resolution No. 7750 (Attachment "B") ordering the continued maintenance of the City's streetlights and confirming the annual assessment; and
- c. Adopt Resolution No. 7751 (Attachment "C") approving the Final Engineer's Report for the FY 2016-2017 Landscaping and Lighting Assessment District (LLAD).

# **BACKGROUND:**

- 1. On March 7, 2016, the City Council adopted Resolution No. 7728 to initiate the annual District levy proceedings and order the preparation of the Engineer's Report for the FY 2016-2017. Assessments under the LLAD are to be used for street lighting purposes only.
- 2. On June 6, 2016, the City Council adopted Resolution No. 7736 approving the Engineer's Report for the FY 2016-2017 LLAD.
- 3. On June 6, 2016, the City Council adopted Resolution No. 7737 declaring the City Council's intention to order the annual assessments for FY 2016-2017 LLAD and setting a Public Hearing date for July 18, 2016.

Consideration of Fiscal Year (FY) 2016-2017 Landscaping & Lighting Assessment District Public Hearing and Confirmation of Assessment

Page 2 of 3

# **ANALYSIS:**

Staff has prepared the formal "Order of Procedure" for the Public Hearing. At the conclusion of the Public Hearing, the City Council may adopt the attached Resolutions ordering the continued maintenance of certain streetlights and confirming the annual assessments.

If adopted, Resolution No. 7750 (confirming the assessments) authorizes staff to proceed with further review for accuracy including a final review of the parcel exception list, which is a compilation of all the parcel numbering and name changes occurring between last year and this year. Resolution No. 7750 also authorizes staff to instruct the engineering consultant to send the final electronic file and hardcopy database with all the appropriate information to the County Assessor's Office. This must be done by August 31, 2016, so that the assessment can be included in the upcoming property tax bills.

The legally required 10-day notification for the Public Hearing has been published in <u>The San Fernando Valley Sun</u> and proof of publication is on file in the office of the City Engineer. Once the City Council adopts Resolution No. 7750 confirming the assessments, staff may proceed with finalizing the FY 2016-2017 LLAD.

# **BUDGET IMPACT:**

Per the Engineer's Report, the total LLAD operations and maintenance costs for FY 2016-2017 are estimated at \$400,756. The proposed LLAD levy is estimated to be \$331,378 and represents the maximum assessment rates as approved by property owners in 2003.

The \$69,378 balance of the costs represents the City's share of benefits received from the lighting system. Staff has included this cost in the FY 2016-2017 proposed budget and said cost will be funded by the General Fund.

# **CONCLUSION:**

The Engineer's Report prepared by Willdan Financial Services for FY 2016-2017 is acceptable to City staff, and it is therefore recommended that the City Council adopt the Resolution ordering the continued maintenance of the City's streetlights and confirming the annual assessment.

The Engineer's Report and Summary Listings (parcel number, address, and assessment amounts) are on file with the City Engineer for public review. The projected revenues and expenditures are also summarized in the Engineer's Report and the appropriate budget amounts have been incorporated into the preliminary FY 2016-2017 budget.

#### **DAVID BERNAL**

My name is David Bernal. I am a married father of one son and a homeowner here in the City of San Fernando. I have been a resident of San Fernando since I married my wife, Christina in July of 1994, while I was serving in The US Marine Corps.

We purchased our home at 702 4th St in August of 1999. In the process of looking for a home, we looked at a lot of different areas of the San Fernando Valley, including, Granada Hills, Northridge, and Studio City.

We decided on San Fernando because of the small town feel of the city. I feel as if everyone knows everyone here. It's a very friendly place to live. There are a number of small businesses here, which my wife and I can appreciate. It's very different from living in the other cities in LA County. Police response times are immensely faster here than other areas in the San Fernando Valley and I've always felt that there is a REAL sense of community here that you do not get in other areas. Mostly because of the low turnover we have in San Fernando. People move here and see the same charm as I did 17 years ago when I bought my house and decided that we do not want to leave.

My vision of San Fernando going forward is to make it a "destination" city with diverse restaurants, shopping, movie theaters and art galleries while maintaining its small-town feel and look. I believe we are very close to making San Fernando a family-friendly city that is rich in culture and history that people will want to visit over and over again. I want to thank the city staff for allowing me the opportunity to serve the city that I call home.

I was also afforded the opportunity to serve as a Planning and Preservation Commissioner from October 2015 to February 2016. During that time, we as the Planning and Preservation Commission were tasked with giving city staff direction on the TOD proposal from Sargent Town Planning.

# AGENDA REPORT

To: Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Ismael Aguila, Recreation and Community Services Director

July 18, 2016 Date:

Subject: Consideration to Approve Non-Exclusive License Agreement with the

Fernandeño Tataviam Band of Mission Indians for Cultural Enrichment Programs

#### **RECOMMENDATION:**

It is recommended that the City Council consider the following:

- a. Authorize the City Manager to execute Non-Exclusive License Agreement (Attachment "A" -Contract No. 1832) with the Fernandeño Tataviam Band of Mission Indians for Cultural **Enrichment Programs**;
- b. Adopt Resolution No. 7755 (Attachment "B") to increase expenditures of Fiscal Year (FY) 2016-2017 Fund 017 budget by \$1,500 to fund staffing costs for Indigenous Day in October of 2016.

#### **BACKGROUND:**

- 1. On July 6, 2010, the City Council authorized for the City Administrator to execute a Memorandum of Understanding (MOU) with Fernandeño Tataviam Band of Mission Indians (Tribe) for Cultural Enrichment Programs at Rudy Ortega Park Sr. Park.
- 2. In August 2015, the five-year agreement expired. City staff met with the Tribe to discuss future programming to include into the agreement, including the celebration of the Indigenous Day.
- 3. On October 5, 2015, the City Council adopted Resolution No. 7703 declaring its support of Indigenous Day on the second Monday of October.

#### **ANALYSIS:**

The original MOA was a result of cooperative discussions between the City of San Fernando and Fernandeño Tataviam Band of Mission Indians. The MOU allowed for the expansion of community programs/activities without impacting City staff. The Fernandeño Tataviam Band of Mission Indians were to provide a variety of community building activities while actively working to preserve its history and customs to impart this knowledge to coming generations and the general public. In order to implement these activities, the MOU granted the Tribe access to Rudy Orterga Sr. Park to:

- Conduct cultural enrichment programs that will be open to the general public.
- Conduct Tribe-sponsored events.
- Assist the City in maintenance of native and traditional plants found in the park.
- Establish a Traditional Plants Garden within the park.
- Pay all costs and expenses related to signage changes within the park to reflect the park's change in name from Heritage Park to Rudy Ortega Sr. Park.

Since 2010, the Tribe has provided both community and private (tribal) events of cultural enrichment to the park. In the initial two years, the Tribe provided music classes for both tribal and San Fernando residents and their children. The program was a great success, with 30 children each year registered for the program that was also supported by City of Los Angeles Department of Cultural Affairs and United American Indian Involvement.

In 2013, the Tribe partnered with National Indian Council of Aging (NICOA) to provide seniors with employment opportunities. The Tribe hired several senior citizens seeking employment throughout its locations. Among the newly hired seniors was a maintenance crew, which was established for the continued care of Rudy Ortega Sr. Park. Through the federal program, each employed senior work an average of 20 hours a week, providing the City's staff with support and enhanced care for the Park.

In addition, the Tribe provided its maintenance crew with its own equipment and tools, and, more importantly, appropriate OSHA training. Throughout the entire existence of the MOU, the Tribe has financially support Rudy Ortega Sr. Park in the amount of over \$135,000 (\$7,960 direct costs), which covered the park maintenance, park signs, tools, community clean-ups, uniforms, and gear.

The proposed Non-exclusive License Agreement will contain two modifications, which include:

- Increase duration of agreement to 10 years. This will allow for more funding opportunities for the Tribe to secure for capital improvements at Las Palmas Park.
- Allow fee waiver to include Recreation Park for celebration of Indigenous Day.

### Indigenous Day 2016

In October 2015, City staff began meeting with the Tribe to discuss potential collaboration in a celebration Indigenous Day in October of 2016. In these meetings, it was determined that Rudy Ortega Sr. Park did not have the appropriate logistics and resources for hosting such an event, thus the event is being planned to be held at Recreation Park on October 15, 2016. This fiestastyle event, located on the village site of Paséknga (San Fernando), will host traditional storytelling, music and dance, eclectic foods, family-oriented services, Native art workshops and interactive stations. The goal is to promote the diversity of Indigenous peoples through interactive and creative learning processes.

Since the event will require additional assistance from the City, the Tribe is requesting a fee waiver of \$1,500 for the involvement of City staff on the day of the event to provide logistical and technical assistance.

#### **BUDGET IMPACT:**

Since 2010, the partnership with the Tribe has provided residents of the City access to cultural art programming and maintenance assistance at Rudy Ortega Sr. Park with no additional costs to the City. Approval of the Agreement will ensure that these resources continue to benefit the community. Should the City Council decide to waive the staffing fees, the City will forego approximately \$1,500 in facility rental fees in FY 2016-2017.

#### **CONCLUSION:**

It is recommended that the City Council consider the following:

- c. Authorize the City Manager to execute Non-Exclusive License Agreement (Attachment "A" –
   Contract No. 1832) with the Fernandeño Tataviam Band of Mission Indians for Cultural
   Enrichment Programs;
- d. Adopt Resolution No. 7755 (Attachment "B") to increase expenditures of FY 2016-2017 Fund 017 budget by \$1,500.

For all Events of Default, the Party alleging an Event of Default shall give written notice to the defaulting Party (hereinafter referred to as a "Default Notice") which shall specify:
  - a. the nature of the Event of Default;
  - b. the action required to cure the Event of Default;
  - c. the date by which the Event of Default shall be cured, which date shall not be later than the period allowed by applicable cure period set forth under subsection 4.B.ii, below.

The foregoing notwithstanding, CITY shall be under no obligation to grant additional time for the cure of an Event of Default under this subsection that exceeds fifteen (15) calendar days from the end of the initial applicable cure period.

The foregoing notwithstanding, LICENSEE's failure to allow authorized CITY personnel with access to the Park shall constitute an immediate Event of Default and must be cured immediately upon verbal or written notice to LICENSEE by such CITY personnel. The failure to provide such immediate access upon verbal or written demand of the CITY shall constitute a breach of this Agreement.

- CITY shall have thirty (30) days from the date LICENSEE issues a Default Notice to cure any Event of Default, unless the Event of Default cannot reasonably be cured within the 30-day cure period. CITY shall be granted an additional thirty (30) calendar days to cure any Event of Default upon CITY's written request for such an extension of time and CITY's demonstration that it has commenced the cure of the Event of Default. Alternatively, CITY may at any time during the initial 30-day cure period submit a written objection to the Default Notice along with any written declarations or other evidence which disprove or rebut the assertions in the Default Notice. In the event CITY and LICENSEE are unable to agree as to whether or not an Event of Default on the part of CITY has occurred or whether CITY's proposed cure will adequately cure the Event of Default, LICENSEE shall either waive the Even of Default in writing or issue a written notice declaring the CITY to be in breach of the Agreement. LICENSEE shall have no authority to issue a breach notice to CITY prior to the earlier of the following: (a) the expiration of CITY's initial 30-day cure period or any additional 30-day cure period invoked by CITY; or (b) CITY's issuance of a written objection to the Default Notice. In the event CITY is in breach of this Agreement, LICENSEE's sole remedy shall be the termination this Agreement.

No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.
- C. Additional Rights and Remedies. The rights and remedies available to CITY hereunder shall be in addition to and not a limitation of any rights and remedies available to CITY at law. In addition to any other remedies available to CITY at law or under this Agreement in the event of any breach by LICENSEE, CITY, in its sole and absolute discretion, may also pursue any one or more of the following remedies:
  - i. Terminate this Agreement and revoke the license conferred herein for cause. Under such circumstance CITY may immediately order LICENSEE,

- LICENSEE's personnel and program participants to vacate the Park, the Facility and/or the Property; or
- ii. CITY may agree to some mutually acceptable alternative resolution of the breach with LICENSEE, provided such resolution is memorialized in writing; or
- iii. CITY may proceed by appropriate court action to: (a) enforce the terms of the Agreement; (b) obtain enforcement of the provisions of this Agreement; (c) obtain declaratory relief; and/or (d) seek recovery for any damages or other losses suffered by CITY as a result of LICENSEE's breach of this Agreement; or
- iv. The CITY may exercise such other rights or remedies as may be available to it at law or in equity.
- D. <u>Suspension of License</u>. Concurrent with, or as an alternative to, CITY's initiation of the Default Notice process or the issuance of a notice of intent to terminate this Agreement, CITY may also suspend LICENSEE's permission to access and use the Park for a period of one (1) or more days for any Event of Default. The term of this Agreement shall not be tolled during any suspension period. Nothing in this subsection shall operate to prohibit or otherwise restrict the ability of CITY to commence proceedings for the termination of this Agreement and the license conferred hereunder during any suspension period or concurrent with the initiation of suspension proceedings.

# AGENDA REPORT

To: Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Ismael Aguila, Recreation and Community Services Director

July 18, 2016 Date:

Subject: Consideration to Approve a Non-exclusive License Agreement with Plaza

Comunitaria Sinaloa for Adult Education Classes

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Authorize the City Manager to execute a Non-exclusive License Agreement (Attachment "A" - Contract No. 1825) with Plaza Comunitaria Sinaloa to grant access for implementation of adult education programs at Las Palmas Park; and
- b. Consider waiving facility-use fees for a total of \$2,420 and also budget \$270 in City staff salaries for use of the Community Lab Room at Las Palmas Park.

#### **BACKGROUND:**

- 1. In January 2016, City staff began meeting with Ms. Julieta Garcia in regards to her desire to implement adult literacy and domestic violence classes at Las Palmas Park.
- 2. On May 2, 2016, the City Council authorized staff to develop a non-exclusive license agreement with Ms. Julieta Garcia to implement an adult literacy and domestic violence program during summer and winter months at Las Palmas Park.

#### **ANALYSIS:**

# Plaza Comunitaria Literacy Programming

Since the 1860s, public libraries have provided adult literacy programs to immigrants by teaching English and citizenship classes. After the American Library Association created a manual for adult literacy in libraries in the 1980s, adult literacy programs began to grow. Today many types of libraries go beyond English as a Second Language (ESL) and citizenship classes and offer computer classes; pre-General Education Diploma (GED) and GED preparation courses; and family, basic, health, civic, and financial literacy programs. Due to lack of state

funding, many ESL and GED classes have been closed. Many libraries have picked-up the slack for a service that is required more than ever.

The Plaza Comunitarias Program was created in 2001 under the administration of Mexican President Vicente Fox and accepted in the United States through a Memorandum of Understanding between the Mexican and United States governments dated November 10, 2004. The Plazas Comunitarias serve as transitional programs into English and adult basic education classes as it establishes an academic foundation for Hispanic immigrants from which to work. There are 400 Plaza Comunitarias programs in the United States. Currently, there are 15 Plaza Comunitarias in the County of Los Angeles, including two in the City of San Fernando (Plaza Comunitaria San Fernando and Plaza Comunitaria Sinaloa).

## Plaza Comunitaria Sinaloa (PCS)

PCS is a private business owned by Ms. Julieta Garcia that provides basic literacy education programs for adults in literacy, elementary and secondary programs. PCS seeks to train and certify the Mexican and Hispanic community of San Fernando. Its objective is integrating this community into the labor and social force of United States. The services this organization will provide are technology and ESL classes, vocational and personal development workshops and prevention of Domestic Violence as well as self-esteem development.

The goals of the Plaza Community Sinaloa are:

- To extended the opportunities for education, information and communication.
- Learn to use the computer, internet and other technologies as educational resources.
- To learn to read and write or finish elementary or middle school. Once the student satisfactorily completes the modules required for elementary or middle school he or she receives a certificate from the Mexican Consulate in Los Angeles, Ca.

# **Proposed Agreement**

PCS currently conducts adult education classes at Vaughn Next Century Learning Center, located at 13421 Vaughn Street, San Fernando, CA 91340. However, PCS is not granted access to a classroom during the summer and winter school breaks. PCS is requesting access to the Community Lab Room located at Las Palmas Park on Tuesday and Thursday, from 6 pm to 8 pm, during school vacation seasons via a non-exclusive license agreement (Attachment "A"-Contract No. 1825) so that the following services can be provided:

Program Offered & Costs		
Literacy Program Free (include free material)		
English as a Second Language (ESL)	\$5/person/day donation	
Computer Class \$5/person/day donation		
Domestic Violence class \$5/person/day donation

### **Requested Program Dates**

- Summer season: June 20, 2016 through August 12, 2016 (6 pm to 8 pm)
- Winter season: December 19, 2016 through January 6, 2017 (6 pm to 8 pm)

In addition, PCS shall immediately begin efforts to gain non-profit status (501(c)3) and seek external funding opportunities for public adult educations programs at Las Palmas Park to offset Park operational costs assumed by City.

#### <u>Department Program Impact</u>

It is estimated that over 35,000 individuals (equating to over 250,000 visits) living in and around the City will have utilized the City park resources by the end of Fiscal Year (FY) 2015-2016, which is an increase of over 30% in the past four years. At this time, the City park facilities are being used at a very high capacity and there is very little space to introduce new and/or add additional programming in both inside & outside facilities. In order to accommodate PCS, various programs (i.e., MMAP, Aztec Dance) will be moved to the Banquet Room thus no rooms will be available to the public for rental at Las Palmas Park on Tuesday and Thursday evenings. By accommodating PCS, there will be approximately \$2,420 in lost revenues and an additional \$270 in expenditures on staff salaries.

#### **BUDGET IMPACT:**

Should the City Council decide to waive the facility rental fees, the City will forego approximately \$2,420 in facility rental fees in FY 2016-2017. Additionally, due to the need to keep the facility open and staffed during the holidays when it usually goes dark, the City will incur approximately \$270 in additional staff expenditures directly related to this program.

#### **CONCLUSION:**

It is recommended that the City Council consider the following:

- a. Authorize the City Manager to execute a Non-exclusive License Agreement (Attachment "A"

   Contract No. 1825) with Plaza Comunitaria Sinaloa to grant access for implementation of adult education programs at Las Palmas Park; and
- b. Consider waiving facility-use fees for a total of \$2,420 and budget \$270 in City staff salaries for use of the Community Lab Room at Las Palmas Park.

For all Events of Default, the Party alleging an Event of Default shall give written notice to the defaulting Party (hereinafter referred to as a "Default Notice") which shall specify:
  - a. the nature of the Event of Default;
  - b. the action required to cure the Event of Default;
  - c. the date by which the Event of Default shall be cured, which date shall not be later than the period allowed by applicable cure period set forth under

The foregoing notwithstanding, PCS's failure to allow authorized CITY personnel with access to the Room shall constitute an immediate Event of Default and must be cured immediately upon verbal or written notice to PCS by such CITY personnel. The failure to provide such immediate access upon verbal or written demand of the CITY shall constitute a breach of this Agreement.

iii. CITY shall have thirty (30) days from the date PCS issues a Default Notice to cure any Event of Default, unless the Event of Default cannot reasonably be cured within the 30-day cure period. CITY shall be granted an additional thirty (30) calendar days to cure any Event of Default upon CITY's written request for such an extension of time and CITY's demonstration that it has commenced the cure of the Event of Default. Alternatively, CITY may at any time during the initial 30-day cure period submit a written objection to the Default Notice along with any written declarations or other evidence which disprove or rebut the assertions in the Default Notice. In the event CITY and PCS are unable to agree as to whether or not an Event of Default on the part of CITY has occurred or whether CITY's proposed cure will adequately cure the Event of Default, PCS shall either waive the Event of Default in writing or issue a written notice

declaring the CITY to be in breach of the Agreement.   - iv. The CITY may exercise such other rights or remedies as may be available to it at law or in equity.
- 6. <u>Suspension of License</u>. Concurrent with, or as an alternative to, CITY's initiation of the Default Notice process or the issuance of a notice of intent to terminate this Agreement, CITY may also suspend PCS's permission to access and use the Room for a period of one (1) or more days for any Event of Default. The term of this Agreement shall not be tolled during any suspension period. Nothing in this subsection shall operate to prohibit or otherwise restrict the ability of CITY to commence proceedings for the termination of this Agreement and the license conferred hereunder during any suspension period or concurrent with the initiation of suspension proceedings.

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Chris Marcarello, Deputy City Manager/Public Works Director

**Date:** July 18, 2016

Subject: Consideration of Award of Contract for Compressed Natural Gas (CNG) Fueling

Station Upgrade Project

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Approve specifications related to the City's Request for Proposal (Attachment "A");
- b. Award a contract to Clean Energy for CNG Fueling Station Improvements at 120 Macneil Street;
- c. Authorize the City Manager, or designee, to negotiate and execute a design-build agreement in a form approved by the City Attorney (Attachment "B" Contract No. 1824) with Clean Energy in the amount of \$1,356,683;
- d. Establish an amount of 15% of the contract amount (\$203,502), as a contingency, to cover the cost of unforeseen construction expenses; and
- e. Accept funds in the amount of \$387,091 awarded to the City by the Mobile Source Air Pollution Review Committee (MSRC) via the Clean Transportation Funding Grant Program and authorize the City Manager or designee to execute the grant agreement with MSRC (Attachment "C").

#### **BACKGROUND:**

- 1. In 2008, the City was awarded a Federal grant of approximately \$1.6 Million to improve the City's existing CNG fueling station at 120 Macneil Street and purchase new transit vehicles;
- 2. In November 2014, the City was notified by the Mobile Source Air Pollution Review Committee (MSRC) and South Coast Air Quality Management District (SCAQMD) that \$387,091 in funding through the Clean Transportation Funding grant program was awarded for improvements to the City's CNG fueling station.

# **Consideration of Award of Contract for Compressed Natural Gas (CNG) Fueling Station Upgrades**Page 2 of 6

- 3. In late 2015, the City compiled a list of potential contractors with the requisite experience and qualifications that specialize in the construction of compressed natural gas fueling stations for inclusion in a Request for Proposals (RFP) process. The City also reviewed a draft RFP document with the Metropolitan Transportation Authority (Metro) and Federal Transit Administration (FTA) in order to ensure compliance with provisions related to the expenditure of federal transportation funds.
- 4. On January 4, 2016, a Request for Proposals (RFP) (Attachment "A") for the CNG Fueling Station Upgrade Project was published on City Website and in the San Fernando Valley Sun.
- 5. On February 29, 2016 (Proposal Due Date), the City received six (6) proposals from contractors to deliver the CNG Fueling Station Upgrade Project.
- 6. On April 4, 2106, staff retained the consulting services of Fuel Solutions Incorporated to review and evaluate all proposals submitted for the upgrade project and provide project management during construction phase of project.
- 7. On April 14, 2016, a committee made up of four Public Works staff and Fuel Solutions evaluated and scored all six proposals and agreed upon a short list of two (2) contractors to interview.
- 8. On May 12, 2016, interviews were conducted with selected contractors.

### **ANALYSIS:**

In 2006, the City developed and built a City-owned and operated CNG Station in the Civic Center (120 Macneil Street) that is used by City vehicles, Metropolitan Transit Authority (Metro) buses, Caltrans vehicles, and the general public. The current mechanical equipment at the Station has reached the end of its design life and is technologically obsolete. The stations' fueling capacity is severely limited. In most cases, large vehicles (trucks and buses) are able to fill only a 50-55% of their fuel tanks before the system shuts down to generate more fuel. This process takes approximately 90 minutes for the station tanks to refill and for the system to pump additional fuel.

Equipment upgrades are needed to improve fueling capacity and dispensing efficiency. Further, the current mechanical equipment is at the end of its useful life and requires ongoing maintenance and repairs in order to stay functional. The replacement of this equipment will help save costs related to these ongoing repairs and will allow for a more efficient fueling operation.

### Project Description/Scope of Services

The scope of services includes the design, engineering, fabrication, installation, commissioning, testing and training associated with the CNG station equipment upgrades, as described in the

# **Consideration of Award of Contract for Compressed Natural Gas (CNG) Fueling Station Upgrades**Page 3 of 6

Request for Proposals (RFP) (Attachment "A"). This RFP includes civil engineering work, the installation of equipment foundation, equipment installation, safety systems, lighting systems, fuel management system, facility startup and facility commissioning.

The RFP was made available by the City on the City's website and was published in the San Fernando Valley Sun, Bid America, Fleets & Fuels newsletter, NGV America newsletter and Dodge Data & Analytics website. Six (6) companies submitted proposals to the City; Trillium CNG, Fueling and Service Technologies Inc. (FasTech), Diversified Project Services International (DPSI), TruStar Energy LLC, GP Strategies Corp and Clean Energy prior to the RFP closing deadline.

## **Evaluation Criteria/Process**

As indicated in Section 3.6 of RFP, Evaluation Criteria (see Pages 7 and 8, Section 3.6 in RFP), after a review for compliance with required qualifications, proposals were evaluated based on the following criteria:

- Qualifications and Experience of Firm and Key Personnel- 45%
- General Quality and Responsiveness of the Proposal- 30%
- Fee Proposal- 20%
- Knowledge of FTA Requirements- 5%

The proposals were evaluated and scored by a panel comprised of City staff members and the City's consultant that specializes in CNG station construction projects. The consultant helped to review and confirm the accuracy of technical aspects related to the proposals. After the panel's evaluation it was determined that each company submitted a responsive proposal, has the requisite experience in CNG station construction, and meets Federal Transportation Authority (FTA) requirements. The cost proposals received from each company are summarized below.

BID RESULTS		
Company	Cost	
Clean Energy	\$1,356,683.00	
Fueling and Services Technology	\$1,548,929.00	
TrilliumCNG	\$1,686,249.00	
Diversified Project Services	\$1,897,998.00	
GP Strategies Corp	\$1,952,700.00	
TruStar Energy, LLC	\$2,715,764.20	

# **Consideration of Award of Contract for Compressed Natural Gas (CNG) Fueling Station Upgrades**Page 4 of 6

Though cost was not the sole criteria for which an award of contract would be based, the panel did remove three (3) companies from the list of potential contractors because their cost proposals exceeded the City's total budget for the Project. The three (3) remaining companies (Clean Energy, Fueling and Services Technology, and TrilliumCNG) were put on a short-list for further consideration and references were contacted for each firm. Based on further evaluation of relevant experience, the City narrowed the field to two (2) companies – Clean Energy and Fueling and Services Technology – which were invited to participate in an in-person interview on May 11, 2016. After completing the interview process, it was determined that Clean Energy provided the lowest cost responsive proposal.

Clean Energy (CE) has more than 19 years' experience providing natural gas fueling solutions to municipalities and private companies. Since 2010, they have constructed more than 350 natural gas fueling stations and are industry leaders in providing CNG station related design, construction, operation and maintenance services. A copy of CE's proposal is included in Attachment "D".

South Coast Air Quality Management District

Contract No. ML16075

### AB 2766/MSRC LOCAL GOVERNMENT MATCH PROGRAM CONTRACT

 PARTIES - The parties to this Contract are the South Coast Air Quality Management District (hereinafter referred to as "SCAQMD") whose address is 21865 Copley Drive, Diamond Bar, California 91765-4178, and the City of San Fernando (hereinafter referred to as "CONTRACTOR") whose address is 117 Macneil Street, San Fernando, California 91340.

### 2. RECITALS

- A. SCAQMD is the local agency with primary responsibility for regulating stationary source air pollution within the geographical boundaries of the South Coast Air Quality Management District in the State of California (State). SCAQMD is authorized under State Health & Safety Code Section 44225 (AB 2766) to levy a fee on motor vehicles for the purpose of reducing air pollution from such vehicles and to implement the California Clean Air Act.
- B. Under AB 2766, SCAQMD's Governing Board has authorized the imposition of the statutorily set motor vehicle fee. By taking such action, the State's Department of Motor Vehicles (DMV) is required to collect such fee and remit it periodically to SCAQMD.
- C. AB 2766 further mandates that thirty (30) percent of such vehicle registration fees be placed by SCAQMD into a separate account for the sole purpose of implementing and monitoring programs to reduce air pollution from motor vehicles.
- D. AB 2766 creates a regional Mobile Source Air Pollution Reduction Review Committee (MSRC) to develop a work program to fund projects from the separate account. Pursuant to approval of the work program by SCAQMD's Governing Board, SCAQMD authorized this Contract with CONTRACTOR for equipment or services described in Attachment 1 - Statement of Work, expressly incorporated herein by this reference and made a part hereof of this Contract.
- E. CONTRACTOR has met the requirements for receipt of AB 2766 Discretionary Funds as set forth in CONTRACTOR's Local Government Match Program Application dated September 4, 2015.
- F. CONTRACTOR is authorized to do business in the State of California and attests that it is in good tax standing with the California Franchise Tax Board.
- G. All parties to this Contract have had the opportunity to have this Contract reviewed by their attorney.
- 3. <u>DMV FEES</u> CONTRACTOR acknowledges that SCAQMD cannot guarantee that the amount of fees to be collected under AB 2766 will be sufficient to fund this Contract. CONTRACTOR further acknowledges that payment under this Contract is contingent upon SCAQMD receiving sufficient funds from the DMV, and that SCAQMD assumes no responsibility for the collection and remittance of motor vehicle registration fees.

### 4. AUDIT AND RECORDS RETENTION

- A. CONTRACTOR shall, at least once every two years, or within two years of the termination of the Contract if the term is less than two years, be subject to an audit by SCAQMD or its authorized representative to determine if the revenues received by CONTRACTOR were spent for the reduction of pollution from motor vehicles pursuant to the Clean Air Act of 1988.
- B. CONTRACTOR agrees to maintain records related to this Contract during the Contract term and continue to retain these records for a period of two years beyond the Contract term, except that in no case shall CONTRACTOR be required to retain more than the most recent five years' records. SCAQMD shall coordinate such audit through CONTRACTOR'S audit staff.

- C. If an amount is found to be inappropriately expended, SCAQMD may withhold funding, or seek reimbursement, from CONTRACTOR in the amount equal to the amount that was inappropriately expended. Such withholding shall not be construed as SCAQMD's sole remedy and shall not relieve CONTRACTOR of its obligation to perform under the terms of this Contract.
- 5. <u>TERM</u> The term of this Contract is for twenty eight (28) months from the date of execution by both parties, unless terminated earlier as provided for in the TERMINATION clause of this Contract, or the term is extended by amendment of this Contract in writing. - A. In the event any party fails to comply with any term or condition of this Contract, or fails to provide services in the manner agreed upon by the parties, including, but not limited to, the requirements of Attachment 1 Statement of Work, this failure shall constitute a breach of this Contract. The non-breaching party shall notify the breaching party that it must cure this breach or provide written notification of its intention to terminate this contract. Notification shall be provided in the manner set forth in the NOTICES clause of this Contract. The non-breaching party reserves all rights under law and equity to enforce this Contract and recover damages.
- B. SCAQMD reserves the right to terminate this Contract, in whole or in part, without cause, upon thirty (30) days' written notice. Once such notice has been given, CONTRACTOR shall, except as and to the extent or directed otherwise by SCAQMD, discontinue any Work being performed under this Contract and cancel any of CONTRACTOR's orders for materials, facilities, and supplies in connection with such Work, and shall use its best efforts to procure termination of existing subcontracts upon terms satisfactory to SCAQMD. A stop work order may be issued for reasons including, but not limited to, the project exceeding the budget, out of scope work, delay in project schedule, or misrepresentations. Upon receipt of the stop work order, CONTRACTOR shall immediately take all necessary steps to comply with the order. CONTRACTOR shall resume the work only upon receipt of written instructions from SCAQMD cancelling the stop work order. CONTRACTOR agrees and understands that CONTRACTOR will not be paid for performing work while the stop work order is in effect, unless SCAQMD agrees to do so in its written cancellation of the stop work order.

This Indemnification Clause shall survive the expiration or termination (for any reason) of the Contract and shall remain in full force and effect.
- 12. <u>DISCLAIMER OF WARRANTY</u> The purchase or lease of funded vehicles/equipment is the CONTRACTOR's decision. The SCAQMD does not make any express or implied warranty of merchantability, fitness for a particular purpose or otherwise, quality or usefulness of the technology or product. Without limiting the foregoing, the SCAQMD will not be financially responsible, or otherwise liable, for the installation or performance of the vehicle/equipment.

Upon satisfactory completion of project and final acceptance of work and the final report, CONTRACTOR's invoice for the withheld amount shall be released. Proof of project completion shall include a Final Report detailing the project goals and accomplishments, data collected during project performance, if any, documentation of significant results, and emissions reduction input data needed for calculation of emissions reductions.

C. Any funds not expended upon early Contract termination or Contract completion shall revert to the AB 2766 Discretionary Fund. Payment of charges shall be made by SCAQMD to CONTRACTOR within thirty (30) days after approval by SCAQMD of an itemized invoice prepared and furnished by CONTRACTOR.

South Coast Air Quality Management District 21865 Copley Drive Diamond Bar, CA 91765-4178 Attn: Cynthia Ravenstein, MSRC Contracts Administrator

 Charges for equipment, material, and supply costs, travel expenses, subcontractors, and other charges, as applicable, must be itemized by CONTRACTOR. Reimbursement for equipment, material, supplies, subcontractors, and other charges, as applicable, shall be made at actual cost. Supporting documentation must be provided for all individual charges (with the exception of direct labor charges provided by CONTRACTOR).

 SCAQMD shall pay CONTRACTOR for travel-related expenses only if such travel is expressly set forth in Attachment 2 – Payment Schedule of this Contract or pre-authorized by SCAQMD in writing.

 CONTRACTOR's failure to provide receipts shall be grounds for SCAQMD's non-reimbursement of such charges. CONTRACTOR may reduce payments on invoices by those charges for which receipts were not provided.

CONTRACTOR must submit final invoice no later than ninety (90) days after the termination date of

this Contract or invoice may not be paid.

- 14. COMPLIANCE WITH APPLICABLE LAWS CONTRACTOR agrees to comply with all federal, state, and local laws, ordinances, codes and regulations and orders of public authorities in the performance of this Contract. CONTRACTOR shall ensure that the provisions of this clause are included in all subcontracts.
- 15. MOBILE SOURCE EMISSION REDUCTION CREDITS (MSERCs)

A. The MSRC has adopted a policy that no MSERCs resulting from AB 2766 Discretionary Funds may be

generated and/or sold.

- B. CONTRACTOR has the opportunity to generate MSERCs as a by-product of the project if a portion of the air quality benefits attributable to the project resulted from funding sources other than AB2766. These MSERCs, which are issued by SCAQMD, are based upon the quantified vehicle miles traveled (VMT) by project vehicles or other activity data as appropriate. Therefore, a portion of prospective MSERCs, generated as a result of AB 2766 Funds, must be retired. The portion of prospective credits funded by the AB 2766 program, and which are subject to retirement, shall be referred to as "AB 2766-MSERCs."
- C. The determination of AB 2766-MSERC's is to be prorated based upon the AB 2766 program's contribution to the cost associated with the air quality benefits. In the case where AB 2766 Discretionary Funds are used to pay for the full differential cost of a new alternative fuel vehicle or for the retrofitting or repowering of an existing vehicle, all MSERCs attributable to AB 2766 Discretionary Funds must be retired. The determination of AB 2766-MSERCs for infrastructure and other ancillary items is to be prorated based upon the AB 2766 program's contribution to the associated air quality benefits. Determination of the project's overall cost will be on a case-by-case basis at the time an MSERC application is submitted.

07/18/2016

Contract No. ML16075

SCAQMD staff, at the time an MSERC application is submitted, will calculate total MSERCs and retire the AB 2766-MSERCs. CONTRACTOR would then receive the balance of the MSERCs not associated with AB 2766 funding.

Re: Proposal for CNG Fueling Station Upgrades

Dear Ms. Chavez:

The enclosed proposal responds to your RFP for upgrades to your CNG station located at 120 Macneil Street. The City of San Fernando (City) already enjoys the cost savings, cleaner air, and overall public support from your existing CNG program. Your desired station upgrades will result in a more efficient, user-friendly station to support your expanding CNG fleet. Clean Energy's previous work with similar municipalities and local customers such as the cities of Long Beach, Norwalk, and Glendale demonstrate that we have the capability to support the continued the success of your expanding CNG program.

Should you have any questions on the information contained in this proposal, please contact your dedicated Business Development Manager, Wally Dubno at (949) 437-1327 or via email at wally.dubno@cleanenergyfuels.com.

Sincerely,

Peter J. Grace

### Understanding of the Scope of Services

Clean Energy has more than 19 years' experience developing and implementing natural gas fueling solutions for municipal and private customers alike. Having completed more than 540 natural gas fueling stations, we have developed a consultative approach to building partnerships with customers throughout the evaluation, design, and construction of their CNG stations. Our proven, one-stop solution eliminates the inconvenience and confusion of working with numerous vendors.

We understand that the City requires a new CNG fueling station to support your growing fleet and potentially serve third-party fleets in the area. Our proposed station design addresses your specific needs including:

- Increased Capacity: Clean Energy understands that the City's current CNG station is under-sized for current demand and will not support expansion of the City's CNG fleet.
- Reliability: The City requires a station that is both reliable and redundant.
- Quality: When fueling vehicles back-to-back, you require your new station to provide the same quality fill for the last driver as the first.
- Expansion: Because your CNG fleet continues to grow, you desire that your CNG station be redesigned to accommodate for future expansion.
- **Efficiency:** You desire a station that provides reliable refills no matter what the ambient temperature is.

Upon award, Clean Energy will collaborate with the City to further refine the conceptual plan solution presented in this proposal. To kick-off the project, Clean Energy will meet with the City's staff to analyze your current fueling operations, annual volume, and our proposed solution to confirm performance, efficiency, and future expansion requirements. Our proposed solution includes the following per the City's scope of work:

- Design, permit, procure, and install all elements needed to complete the CNG station upgrades
- Provide temporary fueling option
- Remove existing CNG equipment
- Extend existing fuel island
- · Install a steel canopy equipped with high-efficiency LED lighting and solar panels
- Provide temperature compensated CNG fueling
- · Install commercial quality security system
- Procure new and unused station equipment

### Methodology & Work Plan

### Station Development Plan

The first step in the City's project is the refinement of the conceptual plan (CP) presented in this proposal. Clean Energy's dedicated Project Manager (PM) for the City's project, Don Canonizado, will initiate any necessary redesign plans with our in-house design team. We will review the CP collaboratively with the City, adjusting the layout as-needed based on desired performance parameters, proximity to utility resources, etc.

When the City is satisfied with the proposed layout, the next step is to confirm the major equipment components such as compressors, gas dryers, storage, and priority panels based on utility information and any proposed reconfiguration. CNG station equipment has been sized based on gas line pressure from the utility and the City's performance and redundancy requirements. Next, we will proceed to develop 30% and 90% design drawings for the City.

### 30% Drawing Reviews & Checks

Upon approval of the CP by the City, Clean Energy's engineering team prepares 30% drawings based on contract scope of work, site requirements, site assessments, site surveys, geotechnical report, codes and regulations and industry standards. The 30% drawings are then issued internally to the PM and subcontractors for review. Comments are documented in meeting minutes, and resolved and/or incorporated into the 30% drawings. Upon completion of the 30% drawings, Mr. Canonizado proceeds with placing orders for the major station equipment.

### 90% Drawing Reviews & Checks

After approval of the 30% drawings, we prepare the 90% drawings. This phase includes the completion of all detailed drawings and project specifications as necessary to illustrate and describe, in detail, all of the work required for the complete project including piping and instrument details and equipment supplier drawings. The 90% drawings are issued to the Project Manager for review and comment. Once reviewed, the Engineer of Record, John Jolly of C&J Technical, will provide final engineered stamped drawings. Once complete, the 90% drawings are simultaneously released to the City and the Authority Having Jurisdiction (AHJ) for review and approval.

### Permitting

Finally, Clean Energy will meet with the Authority Having Jurisdiction (AHJ) to review the permitting process and requirements prior to submittal of any permitting packages. This presubmittal meeting will allow Clean Energy to identify any potential AHJ requirements that may

impact the project schedule and scope of work. Any such issues will be brought to the City's attention for resolution.

### Conceptual Plan

Our proposed upgrade of the City's CNG station provides higher-capacity compressors, additional storage onsite, and higher flow rates for a faster, more efficient fueling experience. The following narrative provides Clean Energy's methodology and additional detail on your new station's performance specifications, equipment selection, construction plan, and temporary fueling provisions.

### Performance & Storage Specifications

Our proposed station design will significantly increase the storage capabilities of your CNG station, allowing for faster, more efficient, back-to-back vehicle fills, and ensure a complete temperature compensated fill to the appropriate pressures. Your current station has the ability to dispense 44 GGEs from storage, and requires 90 minutes to fully recover. Clean Energy's solution provides at least 100 usable GGEs of high-pressure storage and requires no more than 28 minutes for a complete recovery. The following table highlights the City's requirements and the specifications you can expect from your new station:

Station Specifications			
Specification*	RFP Requirement	Our Proposed Solution	
Compressor Output	250 SCF	250 SCF	
Usable GGEs in Storage	100 GGEs	100 GGEs	
Recovery Time	30 minutes	28 minutes	

<sup>\*</sup>Assumes 15 psi inlet pressure

### **Equipment Selection**

Clean Energy understands the City's current CNG station is woefully under-sized for the demand it sees. Based on our experience designing and building more than 500 natural gas fueling stations across North America, we have selected industry-best, reliable equipment that meets the City's desired performance specifications. Our station design includes 36,000 SCF of additional storage to accommodate the station's current demand as well as considerable future growth. Two compressors onsite will provide redundancy and ensure that when several vehicles fill back-to-back, the last vehicle fueling will receive the same quality fill as the first vehicle.

### **Dispensers**

At any fueling station, dispensers not only provide the connection from the vehicle to the fuel source, but they are also responsible for user experience. Understanding that the City desires to provide a seamless, user-friendly experience to drivers, we have selected two Kraus retail dispensers for their ease of use and their similarity to a modern traditional liquid fuels dispenser. Both dispensers onsite will provide temperature compensated fills to ensure that a vehicle's fuel gauge reads "full" when it pulls away from the station. For additional ease of use, the Kraus dispensers accept WEX fueling cards and all major credit cards.

### **Priority Panel**

Another key feature of the new station will be a PLC-controlled priority panel. Your new station will have two dispensers with two hoses on each dispenser. With a total of four available hoses at the station, there can be a considerable amount of CNG flowing through the station at any given moment. To ensure a consistent and efficient fueling experience regardless of whether a vehicle requires 6 GGEs or 75 GGEs to fill, the priority panel will determine where the CNG should flow, giving priority to the fast-fill dispensers. Additionally, the priority panel manages the compressor operation to ensure that the ground storage bottles are full in between fueling events.

### **Clean Energy Compression**

To provide a reliable compression solution for the City's redesigned CNG station, we have selected two Clean Energy Compression (CEC) units. Since 2012, Clean Energy has owned CEC as a subsidiary, formerly known as IMW Industries. CEC compressors carry a significant advantage for customers due to their "oil-free" design. This design ensures that the path the gas follows through the compressor never comes into contact with the oil that is used to lubricate the compressor. CEC compressors feature the lowest amount of oil carryover (less than 5ppm) in the industry which means no damage to the CNG vehicles caused by compressor oil, and lower long-term maintenance costs.

We recommend the following equipment for your fast-fill CNG station:

CNG Equipment Summary			
Equipment	Specifications	Key Advantages	
Compressor	Two 150HP CEC compressors 250 SCFM @ 15 psi inlet pressure (total 500 SCFM)	<ul><li>Non-lubricated compression</li><li>Low maintenance</li><li>Clean CNG</li></ul>	
Dryer	One PSB, single tower gas dryer with manual regeneration, equipped with Digital	<ul><li>Simple operation</li><li>Industry standard</li></ul>	

	Dew Point meter, sensor and alarm	
Gas Storage	Three ASME storage vessels with an approximate capacity of 36,000 SCF	<ul><li>Unlimited lifetime</li><li>Industry standard</li></ul>
Priority Panel	One valve panel to manage the fast-fill and time-fill operations	<ul><li>Multi-vehicle fueling</li><li>Fast-fill has priority</li></ul>
Fast-fill Dispenser	Two Kraus dual-hose, with one transit- style nozzle and one light-duty	User-friendly operation

### **Temporary Fueling**

Clean Energy understands that the City's station fuels critical applications that cannot miss rollout at any time. We have devised a safe, cost-effective fueling solution that is less obtrusive than a mobile fueling option at the construction site. Given the amount of activity with construction, storage, and fueling operations onsite, we believe that a temporary, on-site fueling system may present safety concerns upon installation.

To avoid safety issues associated with space limitations onsite, Clean Energy has arranged for the City to fuel at a Clean Energy-owned and operated site located two miles away at 12776 Foothill Blvd in Sylmar.

The site features three large compressors and fuels approximately 70 buses serving the City of Los Angeles nightly. To fuel onsite, Clean Energy will provide the City with Clean Energy-branded fueling cards. We believe this solution will only be in place for a few weeks, the following section entitled "Schedule" further defines the temporary fueling window. The following map illustrates the proximity of the offsite fueling location to the City's current CNG station. We welcome the opportunity to provide a customized temporary fueling solution; if this fueling solution is of interest to the City, we will discuss further terms with the City.

### Construction Plan

Station installation will be sequenced and managed using the critical path method (CPM) for all construction activities. Multiple construction crews consisting of mechanical, electrical and civil tradesman will concurrently perform underground activities at the compressor compound and fueling area. Clean Energy supervision and QA/QC personnel will manage day-to-day activities, document progress, ensure design and code compliance, and oversee all required testing and inspection.

The compound area, including the adjacent electrical service area, will be secured for the duration of construction. Site offices, sanitary facilities, and a construction staging area will also be located near this area. This is the same location where material deliveries are received, inspected, and staged prior to installation.

Underground services to the compressors/compound will be further sequenced into stages in accordance with traffic control measures in order to maintain free traffic flow around the site, and minimize operational impacts. Once traffic control measures are installed, we will conduct paving demolition, trenching, service installation, QA/QC testing, inspections, partial backfill and compaction, and drive surface restoration. A detailed sequencing plan will be provided to the City during the submittal phase. All work will be sequenced in a similar fashion to ensure minimal disruption to the City's current operations at the site. Once all underground work is completed, concrete foundation work can begin, followed by equipment rigging and tie in, canopy installation, finishing activities and finally, the commissioning.

Clean Energy shall perform quality testing with witness and documentation by the Project Manager and AHJ, as-needed. Quality tests performed may include pipe-leak testing on all gas piping, insulation resistance testing on all 4160/480V wiring, ground resistance testing at all major equipment's ground, and circuit breaker performance and contact resistance testing. Further, we will perform regular quality control inspections on all work to ensure compliance with contract documents and applicable codes and regulations.

Having constructed so many sites, we are acutely aware of operational priorities. Daily coordination meetings will be held with City staff in order to review work sequence and review look-ahead schedules. All look ahead-schedules will be updated weekly in order to ensure onsite and local operations are not impacted.

### Retailing to Third-Party Customers

A new CNG station with the capacity to meet increased volume presents revenue opportunities for the City should you chose to open the station to the public. Clean Energy has successfully helped dozens of municipalities (including the cities of Glendale, Chula Vista, Long Beach, and

Irvine) maximize third party usage at their CNG stations. Our experienced business development team provides marketing activities that include outreach to existing, local CNG fleet operations, educating local diesel and gasoline fleets on the merits of transitioning to CNG fueling, partnership with local chambers of commerce and AQMD to promote the use of CNG and increase grant funding opportunities. Clean Energy is committed to supporting our customers as they provide a valuable service to the community while increasing revenue.

# University of California San Diego (UCSD)

In April 2009, the University of California San Diego (UCSD) awarded Clean Energy a 10-year contract to design, build, operate, and maintain a fast-fill CNG fueling station. The station has twin compressors capable of producing 500 SCFM combined, two Kraus dual-hose dispensers, a Xebec single-tower dryer, 30,000 standard cubic feet of high-pressure storage, card reader, video screen training, and a fueling lane canopy.

The University's transit buses, street sweepers, delivery trucks, and various light-to-medium-duty campus vehicles currently use the station. The station also has the capacity to serve third-party fleets and the public in the future. On behalf of UCSD, we are responsible for all marketing, retailing, billing, and tax collection and remittance.

# City of Norwalk, CA

In 2013, the City of Norwalk selected Clean Energy to design, build, operate, and maintain a CNG station to serve its fleet of 14 CNG transit buses. The station was constructed to fuel up to 50 buses in the future, and was completed ahead of schedule and under budget. We sized the station equipment according to the gas pressure provided by the utility company during the design and planning phases; however, we quickly realized during installation that the actual gas line pressure was much lower than initially anticipated.

We quickly value-engineered a solution to utilize a smaller compressor that offered improved performance from 530 SCFM to 650 SCFM. Additionally, we extended a \$20,000 credit to the City to compensate for installation of the smaller compressor. Since making the switch to natural gas, the City has enjoyed not only reduced greenhouse gas emissions (GHG), but also savings of over \$250,000 in fueling costs annually.

# City of Kansas City, Missouri

In December 2014, Clean Energy completed the design and construction of a CNG station that fuels the City's fleet of more than 300 CNG vehicles serving the Kansas City community, as well as public access retail operations. The station utilizes non-lubricated compressors, supplied by Clean Energy's subsidiary, Clean Energy Compression (formerly IMW Industries).

The City had not previously implemented a project of this type, which includes sales to the public on City property while also providing a service for City vehicles. The City engaged Clean Energy for ongoing operations and maintenance to protect its investment and ensure maximum station reliability and user safety. The station was completed ontime and is maintained by local, Clean Energy-trained and employed service technicians.

### City of Montebello, California

In 2011, the City of Montebello selected Clean Energy to design, build, operate, maintain, and provide facility modifications for a new CNG station to fuel Montebello Bus Lines. We were selected based on our experience with creative fueling solutions, particularly as they relate to site-specific utility considerations. At the City's selected site, gas pressure and an aggressive timeline for utility access from the gas company were challenges initially.

To overcome the site's low gas line pressure, we designed a custom, multi-skid compression solution that uses inlet pressure boosters and provides 1,000 SCFM. Alternately, we coordinated the design and permitting of the site closely with the City and gas company to ensure that we experienced no delays in the project schedule due to the utility's connection of the gas line.

Commissioned in 2012, this \$2 million private fast-fill station currently fuels a fleet of 15 CNG vehicles and hybrid buses, with plans to expand the CNG fleet to more than 50 in the years to come.

We understand that the City of San Fernando's CNG station supports critical applications that need to meet rollout every day. Our cross-departmental management plan ensures that we continually communicate internally and with the City to make certain we meet expectations and project milestones. We have allotted for weather days in our schedule, as well as extra time for some tasks that seasonal factors may influence. This schedule assumes no delays outside our control (i.e. contract award date, utility issues, review or permitting delays, or force majeure).

# Fee Proposal

#### Station Cost

Clean Energy's history, track record and current initiatives will help to ensure that the City of San Fernando will capitalize on the economic and environmental benefits of continued use of CNG. Our proposal response meets all the requirements set forth by the RFP; furthermore, we have identified several value engineering opportunities that can significantly reduce the overall cost of the project while still achieving all of the key objectives of the City relative to fueling needs, redundancy, and safety.

We recommend an in-person meeting to discuss our solution and opportunities for value engineering your project. Our Business Development Manager, Wally Dubno, may assist you with any questions related to this RFP response and contract negotiations. He can be reached at (949) 437-1327 or wally.dubno@cleanenergyfuels.com.

#### RC-DBE INFORMATION - GOOD FAITH EFFORTS

Federal-aid Project No. CA-04-0088 Bid Opening Date:

February 29, 2016

CITY OF SAN FERNANDO has established a Race-Conscious Disadvantaged Business Enterprise (RC-DBE) goal of 11.52% for this project. The information provided herein shows that a good faith effort was made.

Lowest, second lowest and third lowest Proposers shall submit the following information to document adequate good faith efforts. Proposers should submit the following information even if the "Local Agency Bidder – RC-DBE Commitment" form indicates that the Proposer has met the RC-DBE goal. This will protect the Proposer's eligibility for award of the contract if the administering agency determines that the Proposer failed to meet the goal for various reasons, e.g., a RC-DBE firm was not certified at bid opening, or the Proposer made a mathematical error.

Submittal of only the "Local Agency Bidder RC-DBE Commitment" form may not provide sufficient documentation to demonstrate that adequate good faith efforts were made.

The following types of actions will be considered as part of the Proposer's Good Faith Efforts to obtain RC-DBE participation:

a. The names and dates of each publication in which a request for RC-DBE participation for this project was placed by the Proposer. Attach copies of advertisements or proofs of publication:

# Understanding My Score

D&B's Credit Limit Recommendation is intended to help you more easily manage your credit decisions. It provides two recommended dollar guidelines:

A conservative limit, which suggests a dollar benchmark if your policy is to extend less credit to minimize risk.

An aggressive limit, which suggests a dollar benchmark if your policy is to extend more credit with potentially more risk.

The dollar guideline amounts are based on a historical analysis of credit demand of customers in D&B's U.S. payments database which have a similar profile to your business.

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

**Date:** July 18, 2016

Subject: Update Regarding Potential Development of a Rent Control Ordinance and

Program

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Receive and File the update report; and
- b. Provide City Staff and the City Attorney with direction regarding potential development of a rent control ordinance and program.

#### **BACKGROUND:**

- On May 2, 2016, Councilmember Ballin and Vice Mayor Fajardo discussed their joint-council
  priority for Fiscal Year 2016-2017, consideration of developing a rent control ordinance and
  program in the City of San Fernando. As part of the discussion, the City Council directed
  City staff and the City Attorney to comeback with an update regarding the potential
  development of a rent control ordinance and program within the City of San Fernando.
- Since the May 2, 2016 City Council meeting, City staff and the City Attorney have conducted an assessment of existing multi-family dwelling units in the City of San Fernando, the number of business licenses currently on file for residential rentals, and a comparison of various components of rent control/rent stabilization ordinances adopted in other cities throughout California.

#### **ANALYSIS:**

## Enabling Legislation, Purpose and Intent of a Rent Control Regulations.

The California State Constitution itself confers upon all cities and counties the power to "make and enforce within [their] limits all local, police, sanitary, and other ordinances and regulations not in conflict with general laws." (Cal. Const., art. XI, § 7.) A city's police power under this

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 2 of 9

provision can be applied only within its own territory and is subject to displacement by general state law but otherwise is as broad as the police power exercisable by the Legislature itself. (*Stanislaus Co. etc. Assn. v. Stanislaus* (1937) 8 Cal. 2d 378, 383-384 [65 P.2d 1305]; *In re Maas* (1933) 219 Cal. 422, 425 [27 P.2d 373].)

The City's police power provides the authority to establish local ordinances such as zoning, building codes, health and safety, and rent control subject to findings that show said ordinances are being enacted for a specific public benefit. In the case of rent control ordinances, cities with rent control have made findings reasonably related to addressing excessive rents, identifying a shortage of decent and safe housing, right to non-discrimination of tenants, and maintaining the availability of existing housing that is resulting in tenant displacement while at the same time providing landlords with just and reasonable return on their properties.

Rent control ordinances are subject to compliance with the provisions of the Costa Hawkins Rental Housing Act of 1995 and the Ellis Act of 1986. A brief summary of each act is noted below:

 <u>Costa Hawkins Rental Housing Act.</u> The Costa-Hawkins Rental Housing Act (California Civil Code Section 1954.50-1954.535) (AB1164, Chapter 331, Statutes of 1995) ("Costa-Hawkins") was passed by the State Legislature in 1995.

Costa-Hawkins includes the following provisions: (1) housing constructed after 1995 must be exempt from local rent controls (Civil Code 1954.52(a)(1); (2) new housing that was already exempt from a local rent control law in place before February 1, 1995, must remain exempt (Civil Code 1954.52(a)(2); (3) single family homes and other units like condominiums that are separate from the title to any other dwelling units must be exempt from local rent controls (Civil Code Section 1954.52(a)(3)(A)); and (4) rental property owners must have the ability to establish their own rental rates when dwelling units change tenancy (Civil Code Sections 1954.50, et seq.). (See Attachment "A".)

• Ellis Act. The Ellis Act (California Government Code § 7060-7060.7) (SB 505 Chapter, Chapter 1509, Statutes of 1986) ("Ellis Act") was passed by the State Legislature in 1986.

The Ellis Act gives landlords the right to withdraw their property from the rental market by repurposing their property for some other use (e.g. condos, hotels, dirt lots, etc.) notwithstanding the passage of a rent control ordinance by a public entity (local government) (Government Code Section 7060 et. seq.). For example, a landlord could evict his or her tenants from a rent-controlled apartment building if he or she chooses to repurpose the property to build condos or similar "luxury" type rentals. Such conversions under the Ellis Act have become increasingly common in cities traditionally associated with rent control, such as San Francisco, Santa Monica, and Los Angeles. Landlords' utilization of the Ellis Act in such cities has reduced the number of units available to low-income renter

Page 3 of 9

while increasing the housing availability for wealthier renters (http://la.curbed.com/2015/9/18/9919760/santa-monica-ellis-act-eviction-map). At the same time, the law expressly allows local government to impose a variety of requirements (Government Code Sections 7060.1 et seq., through 7060.7 et seq.) on rental property owners who desire to exit the rental market. Depending upon the proposed use of the property after its removal from the market (i.e., condominium conversions, owner occupancy), local governments can enact regulations, including relocation assistance to displaced tenants, specific notice periods, and deed restrictions on future use of the property. (See Attachment "B".)

## Aggregate Effects of the Costa-Hawkins and the Ellis Act

Taken as a whole, the Costa Hawkins and the Ellis Act severely limit the scope and efficacy of a local rent control ordinance. The former, known to some as the "Anti-Rent Control Act," drastically reduces the number of units subject to local rent control and allows landlords to reset rents to a more lucrative market rate upon a vacancy (i.e. "vacancy decontrol"), preempting local rent restrictions. The latter essentially has incentivized landlords to take thousands of rent-controlled units off the market in favor of converting to non, rent-restricted uses.

In addition to statutory considerations for local rent control relating to Costa-Hawkins and the Ellis Act, California case law enables local governments to enact rent control regulations with additional protection for tenants in controlled units by requiring that the landlord state and prove just cause for termination Danekas v. San Francisco Rent Stabilization and Arbitration Bd. (2001) 95 Cal.App.4th 638. Common examples of permissible grounds for a just cause eviction are the following:

- Tenant fails to pay rent;
- Tenant continues to violate the lease after a warning notice;
- Tenant uses the unit for an unlawful purpose;
- Tenant refuses to provide the landlord with reasonable access to the unit;
- Landlord is withdrawing the unit from the rental market under the Ellis Act;
- Landlord wants to provide the unit to a relative or resident manager; and
- The owner's good faith intent to occupy.

# Constitutional Requirement for Landlord Reasonable Rate Return on Investment and Due

For the most part, the constitutionality of rent control is settled law. However, a rent control ordinance may be subject to constitutional challenges on its face (its explicit terms) or asapplied under certain circumstances. Such an ordinance could be considered an unconstitutional government "taking" if it is so restrictive that it precludes the possibility of a

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 4 of 9

landlord's fair and reasonable return on investment. Nevertheless, case law has determined that a rent control ordinance is valid even if it reduces the value or rate of return on the landlord's investment. A rent control ordinance's application can also be found to be unconstitutional if it denies a landlord due process or is applied arbitrarily so as to prevent a reasonable return on investment. Many rent control ordinances contain provisions to allow for fair returns on investment under which the landlords can raise rents on an annual basis (i.e., once every 12 months) with rent increased tied to a percentage maximum increase and many times tied to the local consumer price index (inflation). Landlords can also petition for other increases for such things as capital improvements, pass through of some utility fees (gas, electricity, water, etc.) as well as a percentage of annual rental unit registration and/or code enforcement fees. Some of these rental fee increases may be subject to review and approval of a landlord initiated petition by a rent board or commission.

## Existing Conditions in the City.

The United State Census estimates for the period of 2010-2014, note that there are 6,453 housing units in the City of San Fernando. Of the total housing units identified, 6,111 are occupied and of those occupied, there are 3,514 owner-occupied (57.5% of total occupied units) and 2,597 renter-occupied units (42.5% of total occupied units).

(Source: US Census 2010-2014 American Community Survey 5-Year Estimates; http://factfinder.census.gov/faces/nav/jsf/pages/community\_facts.xhtml#.)

Per City Code Section 22-135 (Hotels, rooming houses or residential rentals), "Every person engaged in the business of conducting or operating a hotel, [rooming house], boardinghouse, apartment house, [lodging house], duplex, triplex, house court or bungalow court and every person engaged in the business of renting or letting rooms, apartments or other accommodations for dwelling, sleeping or lodging in any such place or engaged in the business of renting or letting rooms, apartments or other accommodations for dwelling, sleeping or lodging in a single-family dwelling shall pay for each rental unit a license fee of \$25.00 per year or fractional part thereof for the first \$15,000.00 or less derived from such rental unit, plus \$3.00 per year for each additional \$1,000.00 of gross receipts or fractional part thereof in excess of \$15,000.00. However, one such rental unit may be exempt from the fee if the owner resides in the exempted rental unit." (Note: Each property owner is assessed an annual \$23.00 administrative processing fee regardless of the number of properties rented.)

## Number of Rental Units in the City by Housing Type.

Review of the 2016 City Business License records note that 505 Residential Rental Licenses were issued to property owners renting residential dwelling units in the City of San Fernando. The Residential Rental Licenses included over 632 properties with approximately 1,692 units identified in the County assessors records ranging in rentals of a single family residence on an individual parcels to parcels with multi-family residential complexes.

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 5 of 9

The City also conducted a citywide field survey of multi-family residential sites and has identified approximately 161 properties that have three or more units and include a total of 1,219 residential dwelling units. In addition, the City surveyed 304 properties with two residential dwelling units and identified an additional 610 residential dwelling units, which includes 29 Second Dwelling units.

The following Table 1.0 provides a summary of field surveyed 2,168 residential dwelling units by building size.

As previously noted, the Costa Hawkins Rental Housing Act notes that certain units are exempt from a proposed rent control ordinance and associated program. These exemptions apply to the following dwelling units:

- (1) housing constructed after 1995 must be exempt from local rent controls (Civil Code 1954.52(a)(1);
- (2) new housing that was already exempt from a local rent control law in place before February 1, 1995, must remain exempt (Civil Code 1954.52(a)(2);
- (3) single family homes and other units like condominiums that are separate from the title to any other dwelling units must be exempt from local rent controls (Civil Code Section 1954.52(a)(3)(A)).

After removing all previously identified rental units exempted under the Costa Hawkins Rental Housing Act (i.e., built after 1995, single family homes, condominiums, townhomes), Table 2.0 notes all non-exempted identified residential dwelling units that could be regulated under a proposed rent control ordinance.

## Comparison of Rent Control and Rent Stabilization Ordinances.

City staff and the City Attorney reviewed various rent control and rent stabilization ordinances currently adopted in other cities throughout California. Table 3.0 – Comparison of Rent

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 6 of 9

Control/Stabilization Programs (Attachment "C"), provides a comparison of rent control and rent stabilization regulations for the cities of Berkeley, Beverly Hills, East Palo Alto, Hayward, Los Angeles, Oakland, Palm Springs, San Francisco, San Jose, Santa Monica, and West Hollywood. (Attachment "D", provides a list of website links for each of the cities regulatory documents.)

The following components were identified as being part of a majority of the rent control and rent stabilization regulations that were reviewed:

- Section governing the administration of the Maximum Allowable Rent/setting limits on how much landlord may charge and when it can be increased including Annual General Adjustments;
- Section governing the registration of rental units;
- Section governing annual registration fees;
- Section governing the allowable rents during/after vacancies (including "vacancy decontrol" which allows resetting of the rent to be charged to a new tenant at the time of signing of the lease);
- Section governing the allowable increases (1 per 12 month period) and decreases in rents;
- Section governing the allowable limits on and interest for security deposits to be paid back to tenants;
- Section governing the limits on other fees charged to tenants;
- Section addressing surcharge and other pass-through fees (e.g. utilities, % of registration/code enforcement inspection fees) beyond base rent;
- Section governing the requirements for maintenance of rental properties;
- Section outlining existing housing services;
- section setting the grounds for termination or non-renewal of tenancy ("just-cause evictions" code section)
- Section(s) establishing the actions that could be illegal attempts to get a tenant to vacate the unit ("un-voluntary evictions/tenant harassment" code section(s));
- Section establishing fees to be paid by property owner for relocation/un-voluntary relocation/eviction;
- Regulation requires annual reporting of dwelling units;
- Regulation requires a per unit fee for ongoing housing/systematic code enforcement inspections;
- Regulation requires annual registration fee (per unit-administrative fee);
- Regulation establishes a Rent Adjustment Commission/Rent Board/Rent Review Officer/Hearing Officer and outlines specific duties and regulatory oversight under rent control/rent stabilization ordinance;
- Section Outlining Administrative Penalties, Civil Remedies, Legal Actions that may be undertaken by the city for non-compliance with the rent control/rent stabilization regulations.

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 7 of 9

Of the eleven (11) cities surveyed, the cities of Los Angeles and Hayward were the only two with code enforcement inspection fees. In addition, the City of Los Angeles was the only city surveyed that had a detailed process by which code enforcement inspections were to be conducted on an ongoing basis. The code enforcement inspection fees per unit were \$43.32 per unit in the City Los Angeles and \$27.00 per unit in the City of Hayward.

All cities had varying levels of detail that outlined the level of maintenance and housing services that needed to be kept for rental units within the various rent control or rent stabilization programs as well as varying levels of regulatory oversight and enforcement actions that could be undertaken by the city to obtain compliance with the applicable regulations.

As noted in Table 3.0 (Attachment "C"), the rental unit registration fee or administrative fee also varied widely from city to city ranging from \$10.50 per unit in Palm Springs to \$234.00 per unit in the cities of Berkeley and East Palo Alto.

## Rent Control Regulatory Options.

The following section provides some possible options regarding regulatory controls for identified rental dwelling units:

1. Residential Rent Increase Dispute Resolution Regulations. Similar to City of Fremont Ordinance (adopted in 1997) that provide renters and owners with a three-step process to resolve rent increase disputes. Seeks to discourage unreasonable rent increases and provides remedies to resolve rent increase disputes, limits rents to once per year unless otherwise agreed to by both renter and landlord, encourages 90-day minimum advance notice of rent increases, provides for well-maintained living units, discourages retaliatory evictions and other retaliatory behavior with dispute resolution services provided by outside third party (The city contracts with Project Sentinel's Fremont Fair Housing and Landlord/Tenant Services to provide Fair Housing information, and investigation of housing discrimination complaints.)

Budget Impact (Fiscal Year 2016-2017). Part-Time Code Enforcement Officer-Housing (\$50,000) to handle complaints on case by case basis (reactive approach); City Attorney code development and code enforcement activity (\$15,000); Referrals to Third Party Contract like Housing Rights Center for Landlord-Tenant Dispute Resolution (\$15,000); Total Cost = \$80,000.

 Implementation of a Rent Control Establishing Base Rent/Maximum Allowable Rent Increase and Just Cause Eviction Provisions (including a Registration Fee but No Code Enforcement Annual Inspection Fee). Similar to Cities of Berkeley, Beverly Hills, East Palo Alto, Hayward, Oakland, Palm Springs, San Francisco, San Jose, Santa Monica, and West Hollywood.

# **Update Regarding Potential Development of a Rent Control Ordinance and Program** Page 8 of 9

Budget Impact (Fiscal Year 2016-2017). Rent Control Coordinator/Housing Manager to oversee program, process annual registration of rent control units, and participate in the dispute resolution process (\$106,000); Full Time Code Enforcement Officer-Housing Compliance Officer to handle complaints on case by case basis and conduct annual inspections of units over a 3 to 5 year cycle for all potential rental units under rent control program (\$90,000); City Attorney code development and code enforcement activity (\$15,000); Establishing Rent Control Board/Commission and Contracting with Hearings Officer (\$10,000); Finance Clerk Time to Process Fees, including invoicing, following up with delinquencies, and participating in collection activities for non-compliant landlords (\$15,000); Total Cost = \$236,000.

There is an opportunity to recover some costs to run this program, however, cost recovery is limited to the time spent processing registration of rent control units, provision of one inspection every 3-5 years, and possibly a fee for dispute resolution (although you probably won't get full cost recovery as you don't want to make the fee for dispute resolution so high that it discourages renters from filing a dispute). It is estimated that these fees may only recover 10% to 20% of the total cost.

3. Rent Control Establishing Base Rent and Maximum Allowable Rent with Just Cause Eviction Provisions (Including Mandatory Registration Fee and Code Enforcement Annual Inspection Fee). Similar to City of Los Angeles.

Budget Impact (Fiscal Year 2016-2017). Rent Control Coordinator/Housing Manager oversee program process annual registration of rent control units, and participate in the dispute resolution process (\$106,000); Administrative Analyst to provide support services to coordinator regarding program administration, rent and code enforcement registry (\$80,000); Full Time Code Enforcement Officer-Housing Compliance Officer to handle complaints on case by case basis and conduct annual inspections of units over a 3 to 5 year cycle for all potential rental units under rent control program (\$90,000); City Attorney code development and code enforcement activity (\$15,000); Establishing Rent Control Board/Commission; Contracting with Hearings Officer (\$10,000); Finance Clerk Time to Process Fees, including invoicing, following up with delinquencies, and participating in collection activities for non-compliant landlords (\$15,000); Total Cost = \$316,000.

There is an opportunity to recover some costs to run this program, however, cost recovery is limited to the time spent processing registration of rent control units, provision of one inspection every 3-5 years, and possibly a fee for dispute resolution (although you probably won't get full cost recovery as you don't want to make the fee for dispute resolution so high that it discourages renters from filing a dispute). It is estimated that these fees may only recover 10% to 20% of the total cost.

#### Environmental Assessment.

This agenda item is not a "project" pursuant to California Environmental Quality Act (CEQA) Guidelines 15378.(b)(5) because the report provides background information regarding housing topics and does not involve commitment to any specific project that may impact the environment; therefore, no environmental review is required.

## **BUDGET IMPACT:**

The preparation of a rent control ordinance, inclusive of City Staff and City Attorney time is roughly estimated to cost \$15,000 during fiscal year 2016-2017, which will be heavily influenced by the direction from council as far as the regulatory components sought in a City rent control ordinance. However, future implementation will require further fiscal analysis based on the scope of the regulatory requirements and needed oversight. These yet to be determined costs include City staffing to administer the program (e.g., intake of rental unit registration fees, code enforcement fees, review of proposed rent appeals, unjust eviction claims), city code enforcement (e.g., inspections of housing units for compliance with life/safety/housing quality standards, follow up on complaints, unpermitted units, etc.), funding for a board, commission, and/or hearing officer, et cetera. As noted above in the three optional rent control regulations and associated programs the costs to implement these ordinances with associated programs range from \$80,000 to \$316,000.

## **CONCLUSION:**

City staff recommends that the City Council review potential rent control regulation alternatives and associated components from the various California cities surveyed as noted in Table 3.0 (Attachment "C"). In addition, City staff is requesting that subsequent to council discussion that the council provide staff with direction on the components that should be included in a city rent control ordinance for further development by the City Staff and the City Attorney. Based on council direction, City staff will determine the required discretionary review process, associated environmental assessment, and City fiscal impact to implement the council directive(s).

# **CIVIL CODE SECTION 1954.50-1954.535**

1954.50. This chapter shall be known and may be cited as the Costa-Hawkins Rental Housing Act.

- 1954.51. As used in this chapter, the following terms have the following meanings:
- (a) "Comparable units" means rental units that have approximately the same living space, have the same number of bedrooms, are located in the same or similar neighborhoods, and feature the same, similar, or equal amenities and housing services.
- (b) "Owner" includes any person, acting as principal or through an agent, having the right to offer residential real property for rent, and includes a predecessor in interest to the owner, except that this term does not include the owner or operator of a mobilehome park, or the owner of a mobilehome or his or her agent.
- (c) "Prevailing market rent" means the rental rate that would be authorized pursuant to 42 U.S.C.A. 1437 (f), as calculated by the United States Department of Housing and Urban Development pursuant to Part 888 of Title 24 of the Code of Federal Regulations.
- (d) "Public entity" has the same meaning as set forth in Section 811.2 of the Government Code.
- (e) "Residential real property" includes any dwelling or unit that is intended for human habitation.
- (f) "Tenancy" includes the lawful occupation of property and includes a lease or sublease.
- 1954.52. (a) Notwithstanding any other provision of law, an owner of residential real property may establish the initial and all subsequent rental rates for a dwelling or a unit about which any of the following is true:
- (1) It has a certificate of occupancy issued after February 1, 1995.
- (2) It has already been exempt from the residential rent control ordinance of a public entity on or before February 1, 1995, pursuant to a local exemption for newly constructed units.
- (3) (A) It is alienable separate from the title to any other dwelling unit or is a subdivided interest in a subdivision, as specified in subdivision (b), (d), or (f) of Section 11004.5 of the Business and Professions Code.
  - (B) This paragraph does not apply to either of the following:
- (i) A dwelling or unit where the preceding tenancy has been terminated by the owner by notice pursuant to Section 1946.1 or has been terminated upon a change in the terms of the tenancy noticed pursuant to Section 827.
- (ii) A condominium dwelling or unit that has not been sold separately by the subdivider to a bona fide purchaser for value. The initial rent amount of the unit for purposes of this chapter shall be the lawful rent in effect on May 7, 2001, unless the rent amount is governed by a different provision of this chapter. However, if a condominium dwelling or unit meets the criteria of paragraph (1) or

- (2) of subdivision (a), or if all the dwellings or units except one have been sold separately by the subdivider to bona fide purchasers for value, and the subdivider has occupied that remaining unsold condominium dwelling or unit as his or her principal residence for at least one year after the subdivision occurred, then subparagraph (A) of paragraph (3) shall apply to that unsold condominium dwelling or unit.
- (C) Where a dwelling or unit in which the initial or subsequent rental rates are controlled by an ordinance or charter provision in effect on January 1, 1995, the following shall apply:
- (i) An owner of real property as described in this paragraph may establish the initial and all subsequent rental rates for all existing and new tenancies in effect on or after January 1, 1999, if the tenancy in effect on or after January 1, 1999, was created between January 1, 1996, and December 31, 1998.
- (ii) Commencing on January 1, 1999, an owner of real property as described in this paragraph may establish the initial and all subsequent rental rates for all new tenancies if the previous tenancy was in effect on December 31, 1995.
- (iii) The initial rental rate for a dwelling or unit as described in this paragraph in which the initial rental rate is controlled by an ordinance or charter provision in effect on January 1, 1995, may not, until January 1, 1999, exceed the amount calculated pursuant to subdivision (c) of Section 1954.53. An owner of residential real property as described in this paragraph may, until January 1, 1999, establish the initial rental rate for a dwelling or unit only where the tenant has voluntarily vacated, abandoned, or been evicted pursuant to paragraph (2) of Section 1161 of the Code of Civil Procedure.
- (b) Subdivision (a) does not apply where the owner has otherwise agreed by contract with a public entity in consideration for a direct financial contribution or any other forms of assistance specified in Chapter 4.3 (commencing with Section 65915) of Division 1 of Title 7 of the Government Code.
- (c) Nothing in this section shall be construed to affect the authority of a public entity that may otherwise exist to regulate or monitor the basis for eviction.
- (d) This section does not apply to any dwelling or unit that contains serious health, safety, fire, or building code violations, excluding those caused by disasters for which a citation has been issued by the appropriate governmental agency and which has remained unabated for six months or longer preceding the vacancy.
- 1954.53. (a) Notwithstanding any other provision of law, an owner of residential real property may establish the initial rental rate for a dwelling or unit, except where any of the following applies:
- (1) The previous tenancy has been terminated by the owner by notice pursuant to Section 1946.1 or has been terminated upon a change in the terms of the tenancy noticed pursuant to Section 827, except a change permitted by law in the amount of rent or fees. For the purpose of this paragraph, the owner's termination or nonrenewal of a contract or recorded agreement with a governmental agency that provides for a rent limitation to a qualified tenant, shall be construed as a change in the terms of the tenancy pursuant to Section 827.
- (A) In a jurisdiction that controls by ordinance or charter provision the rental rate for a dwelling or unit, an owner who terminates or fails to renew a contract or recorded agreement with a

governmental agency that provides for a rent limitation to a qualified tenant may not set an initial rent for three years following the date of the termination or nonrenewal of the contract or agreement. For any new tenancy established during the three-year period, the rental rate for a new tenancy established in that vacated dwelling or unit shall be at the same rate as the rent under the terminated or nonrenewed contract or recorded agreement with a governmental agency that provided for a rent limitation to a qualified tenant, plus any increases authorized after the termination or cancellation of the contract or recorded agreement.

- (B) Subparagraph (A) does not apply to any new tenancy of 12 months or more duration established after January 1, 2000, pursuant to the owner's contract or recorded agreement with a governmental agency that provides for a rent limitation to a qualified tenant, unless the prior vacancy in that dwelling or unit was pursuant to a nonrenewed or canceled contract or recorded agreement with a governmental agency that provides for a rent limitation to a qualified tenant as set forth in that subparagraph.
- (2) The owner has otherwise agreed by contract with a public entity in consideration for a direct financial contribution or any other forms of assistance specified in Chapter 4.3 (commencing with Section 65915) of Division 1 of Title 7 of the Government Code.
- (3) The initial rental rate for a dwelling or unit whose initial rental rate is controlled by an ordinance or charter provision in effect on January 1, 1995, may not until January 1, 1999, exceed the amount calculated pursuant to subdivision (c).
- (b) Subdivision (a) applies to, and includes, renewal of the initial hiring by the same tenant, lessee, authorized subtenant, or authorized sublessee for the entire period of his or her occupancy at the rental rate established for the initial hiring.
- (c) The rental rate of a dwelling or unit whose initial rental rate is controlled by ordinance or charter provision in effect on January 1, 1995, shall, until January 1, 1999, be established in accordance with this subdivision. Where the previous tenant has voluntarily vacated, abandoned, or been evicted pursuant to paragraph (2) of Section 1161 of Code of Civil Procedure, an owner of residential real property may, no more than twice, establish the initial rental rate for a dwelling or unit in an amount that is no greater than 15 percent more than the rental rate in effect for the immediately preceding tenancy or in an amount that is 70 percent of the prevailing market rent for comparable units, whichever amount is greater.

The initial rental rate established pursuant to this subdivision may not substitute for or replace increases in rental rates otherwise authorized pursuant to law.

- (d) (1) Nothing in this section or any other provision of law shall be construed to preclude express establishment in a lease or rental agreement of the rental rates to be applicable in the event the rental unit subject thereto is sublet. Nothing in this section shall be construed to impair the obligations of contracts entered into prior to January 1, 1996.
- (2) If the original occupant or occupants who took possession of the dwelling or unit pursuant to the rental agreement with the owner no longer permanently reside there, an owner may increase the rent by any amount allowed by this section to a lawful sublessee or assignee who did not reside at the dwelling or unit prior to January 1, 1996.
- (3) This subdivision does not apply to partial changes in occupancy of a dwelling or unit where one or more of the occupants of the premises, pursuant to the agreement with the owner provided for above, remains an occupant in lawful possession of the dwelling or

unit, or where a lawful sublessee or assignee who resided at the dwelling or unit prior to January 1, 1996, remains in possession of the dwelling or unit. Nothing contained in this section shall be construed to enlarge or diminish an owner's right to withhold consent to a sublease or assignment.

- (4) Acceptance of rent by the owner does not operate as a waiver or otherwise prevent enforcement of a covenant prohibiting sublease or assignment or as a waiver of an owner's rights to establish the initial rental rate, unless the owner has received written notice from the tenant that is party to the agreement and thereafter accepted rent.
- (e) Nothing in this section shall be construed to affect any authority of a public entity that may otherwise exist to regulate or monitor the grounds for eviction.
- (f) This section does not apply to any dwelling or unit if all the following conditions are met:
- (1) The dwelling or unit has been cited in an inspection report by the appropriate governmental agency as containing serious health, safety, fire, or building code violations, as defined by Section 17920.3 of the Health and Safety Code, excluding any violation caused by a disaster.
- (2) The citation was issued at least 60 days prior to the date of the vacancy.
- (3) The cited violation had not been abated when the prior tenant vacated and had remained unabated for 60 days or for a longer period of time. However, the 60-day time period may be extended by the appropriate governmental agency that issued the citation.

1954.535. Where an owner terminates or fails to renew a contract or recorded agreement with a governmental agency that provides for rent limitations to a qualified tenant, the tenant or tenants who were the beneficiaries of the contract or recorded agreement shall be given at least 90 days' written notice of the effective date of the termination and shall not be obligated to pay more than the tenant's portion of the rent, as calculated under the contract or recorded agreement to be terminated, for 90 days following receipt of the notice of termination of nonrenewal of the contract.

# GOVERNMENT CODE SECTION 7060-7060.7

- 7060. (a) No public entity, as defined in Section 811.2, shall, by statute, ordinance, or regulation, or by administrative action implementing any statute, ordinance or regulation, compel the owner of any residential real property to offer, or to continue to offer, accommodations in the property for rent or lease, except for guestrooms or efficiency units within a residential hotel, as defined in Section 50519 of the Health and Safety Code, if the residential hotel meets all of the following conditions:
- (1) The residential hotel is located in a city and county, or in a city with a population of over 1,000,000.
- (2) The residential hotel has a permit of occupancy issued prior to January 1, 1990.
- (3) The residential hotel did not send a notice of intent to withdraw the accommodations from rent or lease pursuant to subdivision (a) of Section 7060.4 that was delivered to the public entity prior to January 1, 2004.
- (b) For the purposes of this chapter, the following definitions apply:
  - (1) "Accommodations" means either of the following:
- (A) The residential rental units in any detached physical structure containing four or more residential rental units.
- (B) With respect to a detached physical structure containing three or fewer residential rental units, the residential rental units in that structure and in any other structure located on the same parcel of land, including any detached physical structure specified in subparagraph (A).
- (2) "Disabled" means a person with a disability, as defined in Section 12955.3 of the Government Code.
- 7060.1. Notwithstanding Section 7060, nothing in this chapter does any of the following:
- (a) Prevents a public entity from enforcing any contract or agreement by which an owner of residential real property has agreed to offer the accommodations for rent or lease in consideration for a direct financial contribution or, with respect to written contracts or agreements entered into prior to July 1, 1986, for any consideration. Any contract or agreement specified in this subdivision is not enforceable against a person who acquires title to the accommodations as a bona fide purchaser for value (or successors in interest thereof), unless (1) the purchaser at the time of acquiring title to the accommodations has actual knowledge of the contract or agreement, or (2) a written memorandum of the contract or agreement which specifically describes the terms thereof and the affected real property, and which identifies the owner of the property, has been recorded with the county recorder prior to July 1, 1986, or not less than 30 days prior to transfer of title to the property to the purchaser. The county recorder shall index such a written memorandum in the grantor-grantee index.

As used in this subdivision, "direct financial contribution" includes contributions specified in Section 65916 and any form of interest rate subsidy or tax abatement provided to facilitate the

acquisition or development of real property.

- (b) Diminishes or enhances, except as specifically provided in Section 7060.2, any power which currently exists or which may hereafter exist in any public entity to grant or deny any entitlement to the use of real property, including, but not limited to, planning, zoning, and subdivision map approvals.
- (c) Diminishes or enhances any power in any public entity to mitigate any adverse impact on persons displaced by reason of the withdrawal from rent or lease of any accommodations.
- (d) Supersedes any provision of Chapter 16 (commencing with Section 7260) of this division, Part 2.8 (commencing with Section 12900) of Division 3 of Title 2 of this code, Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of the Business and Professions Code, Part 2 (commencing with Section 43) of Division 1 of the Civil Code, Title 5 (commencing with Section 1925) of Part 4 of Division 3 of the Civil Code, Chapter 4 (commencing with Section 1159) of Title 3 of Part 3 of the Code of Civil Procedure, or Division 24 (commencing with Section 33000) of the Health and Safety Code.
- (e) Relieves any party to a lease or rental agreement of the duty to perform any obligation under that lease or rental agreement.
- 7060.2. If a public entity, by valid exercise of its police power, has in effect any control or system of control on the price at which accommodations may be offered for rent or lease, that entity may, notwithstanding any provision of this chapter, provide by statute or ordinance, or by regulation as specified in Section 7060.5, that any accommodations which have been offered for rent or lease and which were subject to that control or system of control at the time the accommodations were withdrawn from rent or lease, shall be subject to the following:
- (a) (1) For all tenancies commenced during the time periods described in paragraph (2), the accommodations shall be offered and rented or leased at the lawful rent in effect at the time any notice of intent to withdraw the accommodations is filed with the public entity, plus annual adjustments available under the system of control
- (2) The provisions of paragraph (1) shall apply to all tenancies commenced during either of the following time periods:
- (A) The five-year period after any notice of intent to withdraw the accommodations is filed with the public entity, whether or not the notice of intent is rescinded or the withdrawal of the accommodations is completed pursuant to the notice of intent.
  - (B) The five-year period after the accommodations are withdrawn.
- (3) This subdivision shall prevail over any conflicting provision of law authorizing the landlord to establish the rental rate upon the initial hiring of the accommodations.
- (b) If the accommodations are offered again for rent or lease for residential purposes within two years of the date the accommodations were withdrawn from rent or lease, the following provisions shall govern:
- (1) The owner of the accommodations shall be liable to any tenant or lessee who was displaced from the property by that action for actual and exemplary damages. Any action by a tenant or lessee pursuant to this paragraph shall be brought within three years of the withdrawal of the accommodations from rent or lease. However, nothing in this paragraph precludes a tenant from pursuing any

alternative remedy available under the law.

- (2) A public entity which has acted pursuant to this section may institute a civil proceeding against any owner who has again offered accommodations for rent or lease subject to this subdivision, for exemplary damages for displacement of tenants or lessees. Any action by a public entity pursuant to this paragraph shall be brought within three years of the withdrawal of the accommodations from rent or lease.
- (3) Any owner who offers accommodations again for rent or lease shall first offer the unit for rent or lease to the tenant or lessee displaced from that unit by the withdrawal pursuant to this chapter, if the tenant has advised the owner in writing within 30 days of the displacement of his or her desire to consider an offer to renew the tenancy and has furnished the owner with an address to which that offer is to be directed. That tenant, lessee, or former tenant or lessee may advise the owner at any time during the eligibility of a change of address to which an offer is to be directed.

If the owner again offers the accommodations for rent or lease pursuant to this subdivision, and the tenant or lessee has advised the owner pursuant to this subdivision of a desire to consider an offer to renew the tenancy, then the owner shall offer to reinstitute a rental agreement or lease on terms permitted by law to that displaced tenant or lessee.

This offer shall be deposited in the United States mail, by registered or certified mail with postage prepaid, addressed to the displaced tenant or lessee at the address furnished to the owner as provided in this subdivision, and shall describe the terms of the offer. The displaced tenant or lessee shall have 30 days from the deposit of the offer in the mail to accept the offer by personal delivery of that acceptance or by deposit of the acceptance in the United States mail by registered or certified mail with postage prepaid.

- (c) A public entity which has acted pursuant to this section, may require by statute or ordinance, or by regulation as specified in Section 7060.5, that an owner who offers accommodations again for rent or lease within a period not exceeding 10 years from the date on which they are withdrawn, and which are subject to this subdivision, shall first offer the unit to the tenant or lessee displaced from that unit by the withdrawal, if that tenant or lessee requests the offer in writing within 30 days after the owner has notified the public entity of an intention to offer the accommodations again for residential rent or lease pursuant to a requirement adopted by the public entity under subdivision (c) of Section 7060.4. The owner of the accommodations shall be liable to any tenant or lessee who was displaced by that action for failure to comply with this paragraph, for punitive damages in an amount which does not exceed the contract rent for six months.
- (d) If the accommodations are demolished, and new accommodations are constructed on the same property, and offered for rent or lease within five years of the date the accommodations were withdrawn from rent or lease, the newly constructed accommodations shall be subject to any system of controls on the price at which they would be offered on the basis of a fair and reasonable return on the newly constructed accommodations, notwithstanding any exemption from the system of controls for newly constructed accommodations.
- (e) The amendments to this section enacted by the act adding this subdivision shall apply to all new tenancies created after December 31, 2002. If a new tenancy was lawfully created prior to January 1, 2003, after a lawful withdrawal of the unit under this chapter, the amendments to this section enacted by the act adding this subdivision

may not apply to new tenancies created after that date.

7060.3. If a public entity determines to apply constraints pursuant to Section 7060.2 to a successor in interest of an owner who has withdrawn accommodations from rent or lease, the public entity shall record a notice with the county recorder which shall specifically describe the real property where the accommodations are located, the dates applicable to the constraints and the name of the owner of record of the real property. The notice shall be indexed in the grantor-grantee index.

A person who acquires title to the real property subsequent to the date upon which the accommodations thereon have been withdrawn from rent or lease, as a bona fide purchaser for value, shall not be a successor in interest for the purposes of this chapter if the notice prescribed by this section has not been recorded with the county recorder at least one day before the transfer of title.

7060.4. (a) Any public entity which, by a valid exercise of its police power, has in effect any control or system of control on the price at which accommodations are offered for rent or lease, may require by statute or ordinance, or by regulation as specified in Section 7060.5, that the owner notify the entity of an intention to withdraw those accommodations from rent or lease and may require that the notice contain statements, under penalty of perjury, providing information on the number of accommodations, the address or location of those accommodations, the name or names of the tenants or lessees of the accommodations, and the rent applicable to each residential rental unit.

Information respecting the name or names of the tenants, the rent applicable to any residential rental unit, or the total number of accommodations, is confidential information and for purposes of this chapter shall be treated as confidential information by any public entity for purposes of the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code). A public entity shall, to the extent required by the preceding sentence, be considered an "agency," as defined by subdivision (d) of Section 1798.3 of the Civil Code.

(b) The statute, ordinance, or regulation of the public entity may require that the owner record with the county recorder a memorandum summarizing the provisions, other than the confidential provisions, of the notice in a form which shall be prescribed by the statute, ordinance, or regulation, and require a certification with that notice that actions have been initiated as required by law to terminate any existing tenancies. In that situation, the date on which the accommodations are withdrawn from rent or lease for purposes of this chapter is 120 days from the delivery in person or by first-class mail of that notice to the public entity. However, if the tenant or lessee is at least 62 years of age or disabled, and has lived in his or her accommodations for at least one year prior to the date of delivery to the public entity of the notice of intent to withdraw pursuant to subdivision (a), then the date of withdrawal of the accommodations of that tenant or lessee shall be extended to one year after the date of delivery of that notice to the public entity, provided that the tenant or lessee gives written notice of his or her entitlement to an extension to the owner within 60 days of the date

of delivery to the public entity of the notice of intent to withdraw. In that situation, the following provisions shall apply:

- (1) The tenancy shall be continued on the same terms and conditions as existed on the date of delivery to the public entity of the notice of intent to withdraw, subject to any adjustments otherwise available under the system of control.
- (2) No party shall be relieved of the duty to perform any obligation under the lease or rental agreement.
- (3) The owner may elect to extend the date of withdrawal on any other accommodations up to one year after date of delivery to the public entity of the notice of intent to withdraw, subject to paragraphs (1) and (2).
- (4) Within 30 days of the notification by the tenant or lessee to the owner of his or her entitlement to an extension, the owner shall give written notice to the public entity of the claim that the tenant or lessee is entitled to stay in their accommodations for one year after date of delivery to the public entity of the notice of intent to withdraw.
- (5) Within 90 days of date of delivery to the public entity of the notice of intent to withdraw, the owner shall give written notice to the public entity and the affected tenant or lessee of the owner's election to extend the date of withdrawal and the new date of withdrawal under paragraph (3).
- (c) The statute, ordinance, or regulation of the public entity adopted pursuant to subdivision (a) may also require the owner to notify any tenant or lessee displaced pursuant to this chapter of the following:
- (1) That the public entity has been notified pursuant to subdivision (a).
- (2) That the notice to the public entity specified the name and the amount of rent paid by the tenant or lessee as an occupant of the accommodations.
- (3) The amount of rent the owner specified in the notice to the public entity.
- (4) Notice to the tenant or lessee of his or her rights under paragraph (3) of subdivision (b) of Section 7060.2.
  - (5) Notice to the tenant or lessee of the following:
- (A) If the tenant or lessee is at least 62 years of age or disabled, and has lived in his or her accommodations for at least one year prior to the date of delivery to the public entity of the notice of intent to withdraw, then tenancy shall be extended to one year after date of delivery to the public entity of the notice of intent to withdraw, provided that the tenant or lessee gives written notice of his or her entitlement to the owner within 60 days of date of delivery to the public entity of the notice of intent to withdraw.
- (B) The extended tenancy shall be continued on the same terms and conditions as existed on date of delivery to the public entity of the notice of intent to withdraw, subject to any adjustments otherwise available under the system of control.
- (C) No party shall be relieved of the duty to perform any obligation under the lease or rental agreement during the extended tenancy.
- (d) The statute, ordinance, or regulation of the public entity adopted pursuant to subdivision (a) may also require the owner to notify the public entity in writing of an intention to again offer the accommodations for rent or lease.
- 7060.5. The actions authorized by Sections 7060.2 and 7060.4 may be

taken by regulation adopted after public notice and hearing by a public body of a public entity, if the members of the body have been elected by the voters of the public entity. The regulation shall be subject to referendum in the manner prescribed by law for the ordinances of the legislative body of the public entity except that:

- (a) The decision to repeal the regulation or to submit it to the voters shall be made by the public body which adopted the regulation.
- (b) The regulation shall become effective upon adoption by the public body of the public entity and shall remain in effect until a majority of the voters voting on the issue vote against the regulation, notwithstanding Section 9235, 9237, or 9241 of the Elections Code or any other law.
- 7060.6. If an owner seeks to displace a tenant or lessee from accommodations withdrawn from rent or lease pursuant to this chapter by an unlawful detainer proceeding, the tenant or lessee may appear and answer or demur pursuant to Section 1170 of the Code of Civil Procedure and may assert by way of defense that the owner has not complied with the applicable provisions of this chapter, or statutes, ordinances, or regulations of public entities adopted to implement this chapter, as authorized by this chapter.
- 7060.7. It is the intent of the Legislature in enacting this chapter to supersede any holding or portion of any holding in Nash v. City of Santa Monica, 37 Cal.3d 97 to the extent that the holding, or portion of the holding, conflicts with this chapter, so as to permit landlords to go out of business. However, this act is not otherwise intended to do any of the following:
- (a) Interfere with local governmental authority over land use, including regulation of the conversion of existing housing to condominiums or other subdivided interests or to other nonresidential use following its withdrawal from rent or lease under this chapter.
- (b) Preempt local or municipal environmental or land use regulations, procedures, or controls that govern the demolition and redevelopment of residential property.
- (c) Override procedural protections designed to prevent abuse of the right to evict tenants.
- (d) Permit an owner to withdraw from rent or lease less than all of the accommodations, as defined by paragraph (1) or (2) of subdivision (b) of Section 7060.
- (e) Grant to any public entity any power which it does not possess independent of this chapter to control or establish a system of control on the price at which accommodations may be offered for rent or lease, or to diminish any such power which that public entity may possess, except as specifically provided in this chapter.
- (f) Alter in any way either Section 65863.7 relating to the withdrawal of accommodations which comprise a mobilehome park from rent or lease or subdivision (f) of Section 798.56 of the Civil Code relating to a change of use of a mobilehome park.

# AGENDA REPORT

**To:** Mayor Robert C. Gonzales and Councilmembers

From: Brian Saeki, City Manager

By: Nick Kimball, Finance Director

**Date:** July 18, 2016

**Subject:** Consideration of Business License Certificates for Special Events

### **RECOMMENDATION:**

It is recommended that the City Council provide direction to staff regarding the current Business License process, including the amount of the required taxes and fees, for special events.

# **BACKGROUND/ANALYSIS:**

The existing Business License Tax structure does not contemplate special events, especially a non-City vendor conducting business in the City for one day. Currently, a vendor must get a business license as a general retail vendor, which is a \$50.00 flat fee for gross receipts under \$25,000, plus the \$22.00 processing fee, and \$1.00 State fee for a total of \$73.00.

### **BUDGET IMPACT:**

There is no budget impact related to exploring other options for issuing Business License certificates to vendors for special events. The budget impact of potential options will be provided if City Council directs staff to move forward.

### **CONCLUSION:**

Staff is requesting direction from City Council to move forward with developing options for issuing Business License certificates to vendors for special events if desired.

Subject: Discussion of Timeline for Presenting the Transit Oriented Development (TOD)

Overlay Zone Project

I have asked that this item be placed on the City Council agenda in order to obtain an update on the current schedule for completing the TOD Overlay Zone Project.

It is my expectation that City Staff and the City Attorney provide the City Council with an update and that the City Council provide staff with direction necessary to complete the study by a date certain.
