#### **PLEDGE OF ALLEGIANCE**

Mayor Lopez

#### APPROVAL OF AGENDA

Motion by Mayor Pro Tem Ballin, seconded by Councilmember Avila, to approve the agenda. By consensus, the motion carried.

#### PUBLIC STATEMENTS – WRITTEN/ORAL

Brenda Esqueda said she represents the voice of San Fernando to expose everything and believes that the owner of the property should be responsible for the fees and not the business owner or tax payers.

Eric Rodriguez and Alfred Blanco, Valley Wing Pit owners, said they had no idea the fees existed until they pulled the permit and they are asking for leniency and a payment plan.

Sam Beltran said the City is in a bind and asked why people weren't told about this meeting.

SAN FERNANDO CITY COUNCIL SPECIAL MEETING MINUTES – December 5, 2012 Page 2

Linda Campenella-Jauron said the previous speaker was confused when he talked about whether or not a Councilmember served in the military and said she too is watching the City Council and speaks on behalf of City workers.

Julian Ruelas said it doesn't matter whose property it is, we need to market our City and work with the new tenants and, in this case, a graduated repayment schedule is highly beneficial.

Renato Lira said the City does need to be more business friendly and said there should be a policy in place to welcome new businesses.

#### **NEW BUSINESS**

1) REQUEST FOR INSTALLMENT PAYMENT PLAN FOR SEWER CONNECTION FEES – VALLEY WING PIT SPORTS BAR AND GRILL

City Administrator Al Hernandez presented the staff report and replied to questions from Councilmembers.

Motion by Councilmember Fajardo, seconded by Mayor Pro Tem Ballin, to:

- a) Approve a proposal from Valley Wing Pit Sports Bar and Grill to pay the sewer connection charge of \$24,240 in monthly installments of \$5,000 each;
- b) Direct the City Attorney to draft an installment payment plan for the sewer connection fees:
- c) Authorize the City Administrator to execute an installment payment plan for sewer connection fees with Valley Wing Pit Bar and Grill; and
- d) Require that the two co-owners sign as personal guarantors in the effect that this is not paid for.

The motion carried with the following vote:

AYES: Ballin, Lopez, Avila, Gonzales, Fajardo – 5

NOES: None ABSENT: None

#### **RECESS TO CLOSED SESSION (6:43 P.M.)**

#### FINANCE DEPARTMENT

#### **MEMORANDUM**

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Don Penman, Interim City Administrator/Deputy Finance Director

**DATE:** February 4, 2013

**SUBJECT:** Warrant Register

#### **RECOMMENDATION:**

It is recommended that the City Council adopt a Resolution (Attachment "A") approving the Warrant Register.

#### **BACKGROUND:**

For each City Council meeting the Finance Department prepares a Warrant Register for Council approval. The Register includes all recommended payments for the City. Checks, other than handwritten checks, generally are not released until after the Council approves the Register. The exceptions are for early releases to avoid penalties and interest, excessive delays and in all other circumstances favorable to the City to do so. Handwritten checks are those payments required to be issued between Council meetings such as insurance premiums and tax deposits. Staff reviews requests for expenditures for budgetary approval and then prepares a Warrant Register for Council approval and or ratification. Items such as payroll withholding tax deposits do not require budget approval.

The Deputy Finance Director hereby certifies that all requests for expenditures have been signed by the department head, or designee, receiving the merchandise or services thereby stating that the items or services have been received and that the resulting expenditure is appropriate. The Deputy Finance Director hereby certifies that each warrant has been reviewed for completeness and that sufficient funds are available for payment of the warrant register.

# POLICE DEPARTMENT

# **MEMORANDUM**

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Donald Penman, Interim City Administrator

By: Robert Parks, Interim Chief of Police

**DATE:** February 4, 2013

**SUBJECT:** Adoption of a Resolution for Purchase and Installation of 4G Wireless Modems

for Police Vehicles

# **RECOMMENDATION:**

It is recommended that the City Council adopt a Resolution (Attachment "A") for the purchase and installation of four 4G wireless modems and related equipment for four police vehicles in an amount not to exceed \$6,000.

### **BACKGROUND:**

1. In 1997 San Fernando Police Department (Department) received a technology grant in the amount of \$175,000 for the purchase and implementation of a Mobile Data Terminal (MDT) computer system for the Department's police and parking enforcement vehicles. This project was implemented by utilizing the City of Inglewood's existing system and communicating through a UHF data radio (RF) which was the only known affordable technology at that time.

Since then, technology has evolved and in October 2006, the Department purchased the most advanced technology which was 2G wireless modems (17 total for each police and parking enforcement vehicle in our fleet).

Technology continues to advance as do the needs of the Department. In March 3, 2009, the Department (City) was awarded a technology grant in the amount of \$1,050,000. With this grant, Motorola/Advanced Electronics was given the task to equip and implement the "Virtual Patrol" concept.

Virtual Patrol is video surveillance currently utilized in the parks, police vehicles and the Communication Center (mobile workstations and handheld computer devices). Virtual Patrol is interconnected by the Motorola MESH Network and the City's existing network system. Because of the increased demands placed on technology, the MDT computer system

(using the 2G wireless modems) are extremely slow and incompatible with current technology.

2. On January 22, 2013, the City Council approved this item and recommended that staff reagendize to include a Budget Resolution to be adopted by City Council.

# **ANALYSIS:**

Upon closer examination of our current 2G wireless modems, it has been determined that they are extremely slow for current technology; the purchase of new 4G wireless modems will increase speed and capability. The Department will use funds from the State Asset Forfeiture Account which is solely used by the Department either to purchase equipment and/or fund a police personnel position.

The Department received three bids for the 4G wireless modems and Industrial Networking Solutions (I.N.S.) is the lowest bid (\$3,877.81). The installation will be done by Motorola/Advanced Electronics for no more than \$500 per vehicle. The total cost for the purchase and installation of the equipment for four police vehicles will not to exceed \$6,000.

# **CONCLUSION:**

The San Fernando Police Department has established the need to implement the first phase of the replacement of wireless modems for the police and parking enforcement vehicles. To start this process, the Department will utilize funds from the State Asset Forfeiture Fund.

# **BUDGET IMPACT:**

Funds are available in Fund 20 – Asset Seizure – State, but were not allocated for this purchase and installation during Fiscal Year 2012-13. Staff is recommending that the City Council approve the purchase of four 4G wireless modems and related equipment from I.N.S. installation by Motorola/Advanced Electronics in an amount not to exceed \$6,000 by utilizing the Asset Seizure – State Fund (20-3875-0000).

# FINANCE DEPARTMENT

# <u>MEMORANDUM</u>

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Don Penman, Interim City Administrator

**DATE:** February 4, 2013

**SUBJECT:** Fiscal Year 2011-2012 City Annual Financial Reports

# **RECOMMENDATION:**

It is recommended that the City Council receive and file the following annual reports for Fiscal Year (FY) 2011-2012:

- a. 2012 Comprehensive Annual Financial Report (Attachment "A") covering the financial activities of both the City and Successor Agency of the Former Redevelopment Agency; and
- b. 2012 Cities Financial Transactions Report for the City of San Fernando (Attachment "B").

### **BACKGROUND:**

- 1. The City Code requires an annual audit to be conducted by independent certified public accountants shortly after the end of each fiscal year. The audit is conducted in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB).
- 2. On October 18, 2012, the "Cities Financial Transactions Report" was filed with the State Controller's Office.
- 3. On January 24, 2013, the 2012 Comprehensive Annual Financial Report (2012 CAFR) was completed for fiscal year ended June 30, 2012. The 2012 CAFR was transmitted to the Government Finance Officers Association (GFOA) for consideration of the Certificate of Achievement for Excellence in Financial Reporting Award. The award is presented to government agencies whose comprehensive annual financial reports achieve the highest standards in government accounting and financial reporting.

Fiscal Year 2011-2012 City Annual Financial Reports Page 2

# **ANALYSIS:**

The 2012 CAFR provides a government-wide analysis of all of the city's governmental activities, business-type activities, and of each the City's major funds as of the year ended June 30, 2012 (i.e., FY 2011-2012). As part of the analysis, it was determined that the General Fund and the Grants Special Revenue Fund, which are major City funds, have deficit fund balances of \$1,236,782 and \$2,007,798, respectively (see Attachment "A", Page 19). Collectively, the deficits of the General Fund and the Grants Special Revenue Fund are a City financial liability totaling \$3,244,580.

The negative fund balance in the General fund is (\$1,236,782) and is partially due to increased liabilities from unpaid invoices for fire-ambulance services and the Self-insurance fund (combined with the General Fund), which accounts for expenditures related to insurance reimbursement or lawsuits. The Self-insurance fund is experiencing a deficit relating to settlements for personal and property damage claims, workers compensation claims that occurred over the current and prior fiscal years, insurance premiums and legal fees for liability claims.

The deficit in the fund balance of the Grants Special Revenue Fund of \$2,007,798 accounts for a decrease in the fund deficit in the amount of \$755,485 from the prior year. The City continues to collect reimbursement of grant funds and part of the balance is due to timing. A large portion of the repayment being made by the city to the grant fund is due to the Las Palmas Park capital improvement project (the Las Palmas Improvement Project), which had a total construction cost of \$1,500,000 and began in Fiscal Year 2000-2011. On May 7, 2001, the City Council approved Resolution No. 6772 (Attachment "C") to fund the Las Palmas Improvement Project by borrowing \$750,000 from the Retirement Fund (Fund 18) and \$750,000 from the Sewer Enterprise Fund (Fund 72). The borrowed funds, including principal and interest, are to be paid back to the appropriate funds in 20 years or by 2021. The outstanding balance as of June 30, 2012 is \$966,166. An additional, \$396,870 of the grant fund deficit is also attributed to the Las Palmas Improvement Project that exceeded the original \$1.5 million loan amount. The remaining deficit amount in the Grants Special Revenue Fund is attributed to other city grant fund reimbursement requests that were denied by the grantor. In light of the current deficit in the grants fund, the General Fund has assumed the liability and is ultimately responsible for the grant fund deficit. In addition, if sufficient funds are not available in the General Fund, the City has historically transferred from other funds in order to relieve this deficit.

The end of year (FY 2011-2012) deficits in these funds continues to be an ongoing financial concern for the City that must be addressed during the current fiscal year FY 2012-2013. Management's plans to address the ongoing budget deficit in these funds are discussed in Note 11: Commitments and Contingencies and Note 13: Uncertainties of the 2012 CAFR (see Attachment "A", Pages 51 and 53).

Fiscal Year 2011-2012 City Annual Financial Reports Page 3

# **CONCLUSION:**

As previously noted, the 2012 CAFR provides end of year analysis of the fiscal health of the City's major funds that include the General Fund and Grants Special Revenue Fund for FY 2011-2012. These results will be used by City staff as part of the mid-year financial analysis of the current FY 2012-2013 Budget. The mid-year review of the FY 2012-2013 Budget will be presented to the City Council at upcoming meetings in February and March of 2013.

# **BUDGET IMPACT:**

The cost associated with audit firm and City staff's preparation of the 2012 CAFR was a budgeted expense for Fiscal Year 2012-2013.

I. Introductory Section

January 24, 2013

Honorable Mayor and City Council Members Residents of San Fernando

The Comprehensive Annual Financial Report (CAFR) of the City of San Fernando, California for the fiscal year ended June 30, 2012, is hereby submitted. The report is presented as required by Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis-for State and Local Governments (GASB 34). Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City of San Fernando. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB). This report consists of management's representations concerning the finances of the City of San Fernando, California. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, City management has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable.

The City of San Fernando City Code requires an annual audit by an independent certified public accountant. The City's financial statements have been audited by Teaman, Ramirez & Smith, Inc.; a public accounting firm fully licensed and qualified to perform audits of the State and local governments within the State of California. The purpose of the independent audit was to provide reasonable assurance that the financial statements of the City of San Fernando for the fiscal year ended June 30, 2012, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of San Fernando's financial statements for the fiscal year ended June 30, 2012, are fairly presented in conformity with GAAP. The report of independent auditors is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies. The City was required to undergo the annual single audit in conformity with provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget (OMB) Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations." The Single Audit Report, which is issued separately, includes the schedule of federal expenditures, findings and recommendations, the auditors' reports on the internal control structure and compliance with applicable laws and regulations.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the CAFR.

### **Reporting Entity**

The City Council exercises control over the Successor Agencies of the former San Fernando Redevelopment Agency and the San Fernando Public Financing Authority and thus these Agencies have been included in this report. The Los Angeles Unified School District and other public bodies have not met the established criteria for inclusion in the reporting entity since independent boards not under City Council control govern them. The City Council does not have any voting power over them; accordingly they are excluded from this report.

The City provides a full range of municipal services. These services include police and fire protection; construction and maintenance of streets, infrastructure; community development activities; recreational and cultural activities; and general administrative and support services. Fire and ambulance services are provided by contract with the City of Los Angeles Fire Department. In addition, the City provides water, sanitary sewer and refuse services under an Enterprise Fund system with customer fees covering the cost of providing the services.

The City of San Fernando adopts a comprehensive budget detailed by department prior to the start of the fiscal year which commences on July 1. The budget is further broken down by character of expenditure, defined as Contractual Services, Personnel Services, Maintenance and Operations, and Capital Outlay. The ledger of the City and its component units are maintained by the line item detail or object of expenditure. However, all budgetary controls are exercised at the fund level. Revenues are estimated annually and measured against actual revenues earned.

# Adoption of GASB Statement No. 54

In February 2009, the Governmental Accounting Standards Board (GASB) issued Statement No 54 Fund Balance Reporting and Governmental Fund Type Definitions This new standard does not change the total amount of a given fund balance but it substantially alters the categories and terminology used to describe the components that make up a fund balance. The new categories and terminology reflect an approach that focuses not on financial resources available for appropriation within a fund but on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the fund can be spent.

The City adopted GASB Statement No. 54 on June 20, 2011. Some highlights of GASB 54 include:

❖ This accounting standard does not change our fund balances or how we would utilize the fund resources but it is a new way of classifying and identifying fund balance based on these new components: Non Spendable, Restricted, Committed, Assigned and Unassigned fund balance

| Past Practice – Eliminated Classifications | New GASB 54 Classifications |
|--|-----------------------------|
| Reserved                                   | Non-Spendable               |
|  | Restricted                  |
| Unreserved and Designated                  | Committed                   |
|  | Assigned                    |
| Unreserved and Undesignated                | Unassigned                  |

Honorable Mayor and City Council Members Residents of San Fernando January 24, 2013

### **Economic Condition and Outlook**

The City of San Fernando continues to faces significant economic challenges attributed to governmental actions at the state and federal level as well as economic uncertainty attributed to the global financial markets. In light of these facts, the City has taken a number of actions to augment revenues and reduce expenditures during 2012 and in future years in order to attain a balanced City budget and work toward the creation of a General Fund reserve. However, as reflected in this audit, the General Fund ended the year in a negative position relative to revenues versus expenditures.

### **Long Term Finance Plan**

The effort to achieve the City financial goal of having a balanced budget will require a multifaceted approach including working with the city's various union groups, reevaluation of current professional services contracts for possible savings, and creating greater public and private partnerships to identify business retention and recruitment opportunities that help keep and expand the services of existing businesses while creating new opportunities to attract new businesses to the city and expand our economic base. Business opportunities exist for the City of San Fernando, which has retained its historical function as a regional center of retail trade, services and employment, and it has in the recent past continued to capture a significantly higher ratio of sales taxes per capita as compared to other cities in the region. The business climate in San Fernando is favorably impacted by the following factors: excellent regional access and sizable regional labor force; general infrastructure/public sector investment; comparatively low crime rate; comparatively low business taxes; and a responsive government and staff.

Because of the recent downturn in the economy, commercial vacancies have continued to impact the city and resulted in a decline in sales tax revenues. The continuing business climate in the auto industry has adversely affected the City's sales tax revenue from local auto dealerships sites that remained closed during 2012. However, the recent resurgence in automobile sales has improved the economic outlook for the auto industry. To this end, the City is currently working with prospective dealership owners that have had a renewed interest in considering the city as the potential site for a new franchise automotive dealership in 2013. City staff has also been working with new businesses to streamline the building permit process that resulted in short turnaround times for building permit processing and construction, which allowed the opening of a new Vallarta Supermarket and relocation of the Enterprise Rent A Car Office to its new facility in the city's auto commercial sub-district.

Additionally, as the housing market in Southern California show signs of improvement resulting in increased home purchases and property values, the City will further work at removing government constraints to foster faster processing of building permits for the existing residential construction while promoting infill development projects within the city's mixed-use corridors and high density residential zones.

The City will also continue to work with property owners and prospective developers in an effort to promote adaptive reuse of vacant and underutilized public and private property for new commercial, industrial and housing opportunities. In addition, in June of 2012 the City completed infrastructure improvements that included street improvement projects, energy efficient lighting upgrades to public facilities, implementation of the city's nitrate removal system project, review and approval of discretionary permits for new affordable housing projects on city and privately owned properties, and new street improvements along Park Avenue adjacent to the City's Regional Aquatic Facility at San Fernando Recreation Park. Also, the City's passage of new sewer and water rate increases has facilitated continued water and sewer improvement projects into the new fiscal year in order to address the city's aging water and sewer infrastructure.

Despite these efforts, flat or declining revenues including lower estimated property tax and sales tax has impacted our ability to achieve a balanced budget, consequently, the City has taken a fiscally conservative approach in budgeting expenditures and it will continue to do so as necessary in the future. However, the City's recovery from the effects of the recession, and the dissolution of redevelopment will likely be slow.

Honorable Mayor and City Council Members Residents of San Fernando January 24, 2013

### **Financial Information**

The City has developed and maintained its accounting system with due consideration given to the adequacy of internal accounting controls. These controls are designed to provide reasonable, but not absolute assurance that assets are adequately safeguarded from waste, fraud and inefficient use. The financial records maintained allow for the preparation of financial statements in conformity with generally accepted accounting principles. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgements by management.

### **Relevant Financial Policies**

The City's current policy is to not only maintain a balanced budget, but to also create a general fund reserve balance over the coming years. The City Council has approved the concept of a reserve of about 10% of the operating expenditures for the General Fund. To this extent the City is working to limit expenditures and identify new revenue sources to continue to provide core public services and maintain the level of services expected by the community. In light of the recent water and sewer fee increases approved by the City Council, the City's Enterprise Fund's policy is to have a balanced budget while building a fund reserve in order to invest in needed infrastructure improvements. Any excess revenues over expenses that are generated will be retained and designated for future capital improvements or to cover future unexpected expenditures or revenue shortfalls.

# **Other Information**

<u>City Staffing</u> - The City is fortunate to have a very qualified staff of employees that make every effort to continue to maintain service levels despite diminished resources resulting in fewer staff.

<u>Awards</u> - The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of San Fernando for its comprehensive annual financial report for the fiscal year ended June 30, 2011. This was the 27<sup>th</sup> consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and all applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we will submit it to the GFOA to determine its eligibility for the 2012 certification.

Acknowledgments - The preparation of the Comprehensive Annual Financial Report on a timely basis was made possible by the dedicated service of the entire City staff, especially Sonia Garcia (Junior Accountant) and Fred Ramirez (City Planner). This report would not have been accomplished without their support and without the dedication of the audit firm Teaman, Ramirez & Smith, Inc. Each contributing member of the City staff has my sincere appreciation for the contributions made in the preparation of this report. As a new member of this staff team, I am extremely impressed with their commitment. I would also like to thank the members of the current City Council for their interest and commitment to conducting the financial operations of the City in a responsible and fiscally prudent manner and setting a course for the City that is both progressive and positive.

Respectfully submitted,

Donald Pennon

### Independent Auditors' Report

City Council Members City of San Fernando, California

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of San Fernando, as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of San Fernando's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of San Fernando, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The basic financial statements have been prepared assuming that the General Fund and the Grants Special Revenue Fund, which are both considered to be major funds of the City, will continue as going concerns. As discussed in Notes 11 and 13 to the financial statements, as of June 30, 2012, the General Fund and Grants Special Revenue Fund have deficit fund balances. The lack of liquidity in the General Fund and Grants Special Revenue Fund raise substantial doubt about the ability of the General Fund and the Grants Special Revenue Fund to continue as going concerns. Management's plans regarding those matters are also described in Notes 11 and 13. The financial statements do not include any adjustments that might result from the outcome of these uncertainties. Our opinion is not modified with respect to that matter.

As described in Note 14, the San Fernando Redevelopment Agency, previously reported as a blended component unit, was dissolved as of February 1, 2012, in accordance with State law and the related California Supreme Court decision.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 24, 2013 on our consideration of the City of Fernando's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of funding progress and budgetary comparison schedules, identified as required supplementary information in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of

financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of San Fernando's financial statements as a whole. The introductory section, the statements and schedules listed as supplementary information in the table of contents, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

January 24, 2013

Teamon Raminez & Smith, I me.

This section of the City's Comprehensive Annual Financial Report provides a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information we have furnished in our letter of transmittal, which can be found beginning on page i and the City's financial statements beginning on page 13.

### FINANCIAL HIGHLIGHTS

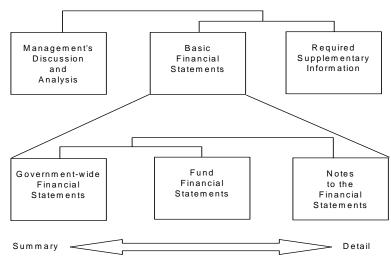

The City adopted Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis-for State and Local Governments* (GASB 34) for the year ending June 30, 2003. GASB 34 established new financial reporting standards for state and local governments in an effort to make governmental reporting more understandable and useful to the readers. During the June 30, 2007 fiscal year, the City completed the implementation of GASB 34 by adjusting the financial statements to include the value of infrastructure that was previously not required to be reported. The following are some key financial highlights for the fiscal year ending June 30, 2012:

- The City's assets exceeded its liabilities at the close of the most recent fiscal year by \$62,168,809 (net assets). Unrestricted net assets were (\$6,170,037) at June 30, 2012.
- As of June 30, 2012, the City's governmental funds reported combined fund balances of (\$1,053,380).

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis (this portion), the basic financial statements, required supplementary information, and *optional* combining statements for non-major governmental funds. This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements 2) fund financial statements and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

### Components of the Financial Section

### **Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net* assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only affect cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The *governmental activities* of the City include general government, public safety, public works, community development, recreation, non-departmental, and interest on long-term debt.

The government-wide financial statements include not only the City itself (known as the primary government), but also two legally separate entities, the Successor Agency of the former San Fernando Redevelopment Agency and the San Fernando Public Financing Authority. The City is financially accountable for these entities and financial information for these blended component units is reported within the financial information presented for the primary government itself.

The government-wide financial statements can be found beginning on page 13 of this report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the City's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental Funds.</u> Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 26 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Special Revenue Grants Fund, Special Revenue State Gas Tax Fund, Special Revenue Retirement Tax Fund, Redevelopment Merged Project Areas # 1, 2, 3, and 4-Debt Service Fund, and the Low-Income Housing

### **Fund Financial Statements (continued)**

Fund-Capital Projects Fund, each of which are considered to be major funds. Data from the other 20 governmental funds are combined into a single, aggregated presentation-the "Other Governmental Funds". Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* in the *non-major governmental funds supplementary information* section of this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate its compliance with this budget.

The governmental fund financial statements can be found beginning on page 16 of this report.

<u>Proprietary Funds</u>. The City maintains several proprietary funds. <u>Enterprise funds</u> are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for the Water Enterprise Fund, Sewer Enterprise Fund, and the Waste Disposal Enterprise Fund. <u>Internal service funds</u> are an accounting device used to accumulate and allocate costs internally among a City's various self-supporting functions. The City uses internal service funds to account for purchases of vehicles and other major emergencies.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the maintenance and operation of the City's water, sewer and waste disposal services. The Water Fund accounts for all activities necessary to provide water services to all residents of the City and some County areas. Some of these activities include, but are not limited to, operations, maintenance and major construction. The Sewer Fund accounts for the provision of sewer services to all residents of the City. Processing of sewage is done by the City of Los Angeles under contract. The Waste Disposal Fund accounts for the collection of solid waste from all residential utility accounts within the City. Solid waste collection and disposal is operated under a contract with a private disposal company. These are considered to be business-type activities in the government-wide financial statements. The water services fund, sewer services and waste disposal services funds are presented as major funds in the financial statements.

The basic proprietary fund financial statements can be found beginning on page 22 of this report.

### **Notes to Basic Financial Statements**

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found beginning on page 28 of this report.

### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* beginning on page 60 of this report. This section includes a comparison of budgeted to actual results for the general and major special revenue funds.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following *the required supplementary information*. Combining and individual fund statements and schedules can be found beginning on page 60 of this report.

As noted earlier, net assets may serve over time as a useful indicator of the City's financial position. In this case, City assets exceeded liabilities by \$62,168,809 at June 30, 2012. Total assets and total liabilities decreased significantly in 2012 due to the dissolution of the City's former Redevelopment Agency.

The largest portion of the City's net assets, \$65,805,041, reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, etc.) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

A portion of the City's net assets, \$2,533,805, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets, if any, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report a positive balance in two categories of net assets (Invested in capital assets, net of related debt and Restricted); the City's governmental activities unrestricted net assets had a deficit of \$14,057,614.

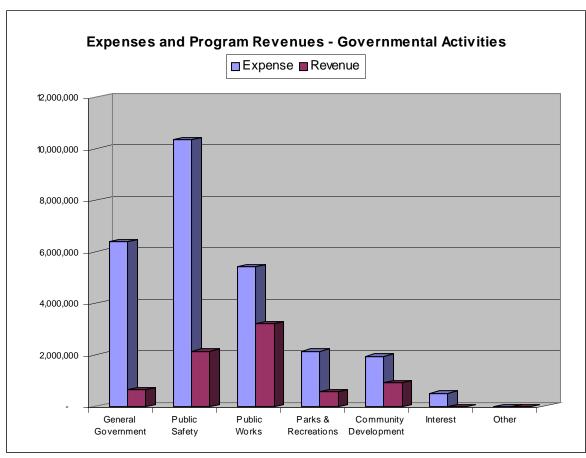

### **Government-wide Financial Analysis (continued)**

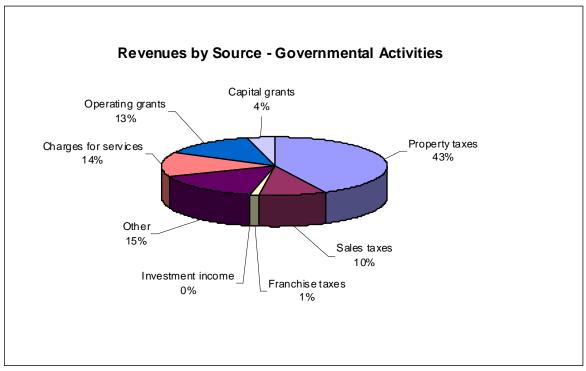

### Statement of Activities

Governmental and Business-type activities increased the City's net assets by \$1,837,474. Key elements of this increase are as follows:

- ❖ Governmental activities increased the City's net assets by \$2,196,211 due to the Extraordinary Gain resulting from the dissolution of the former Redevelopment Agency and subsequent transfer of net assets to the Successor Agency Trust Fund.
- ❖ Business-type activities decreased the City's net assets by \$358,737 due to decreases in revenue.

### Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information may be useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of (\$1,053,380). The City's governmental funds report a deficit of (\$4,081,155) in its *unassigned fund balance*. The remainder of the fund balance is either nonspendable or restricted to indicate that it is not available for new spending because it has already been reserved for 1) \$44,646 for inventories, 2) \$694,923 for advances to other funds, 3) \$88,592 for prepaid items and 4) \$2,199,614 restricted for transportation, air pollution, parks and recreation, and public safety.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was (\$1,572,548).

The negative balance in the General fund is (\$1,236,782) and is partially due to increased liabilities from unpaid invoices for fire-ambulance services (Note 12) and the self-insurance fund (combined with the General Fund), which accounts for expenditures related to insurance reimbursement or lawsuits. The self-insurance fund is experiencing a deficit relating to settlements for personal and property damage claims that occurred over the current and prior fiscal years.

The deficit in the fund balance of the Grants Special Revenue Fund amounted to \$2,007,798 at the end of the fiscal year, which accounts for a decrease in the fund deficit in the amount of \$755,485 from the prior year. The City continues to collect reimbursement of grant funds and part of the balance is due to timing. The City is currently repaying the grant fund for a grant that was not reimbursed in the past. In addition, if sufficient grant monies are not collected or recovered, the City will transfer from other funds that benefited from the various projects in order to relieve this deficit. The two major funds related to the City's Redevelopment Agency (Debt Service Fund and Capital Projects Fund) are reporting no assets and liabilities as of June 30, 2012, in accordance with State law. The revenues and expenditures reported in the Statement of Revenues, Expenditures, and Changes in Fund Balances, for those funds, represent activity from July 1, 2011 through the date of dissolution (February 1, 2012).

In addition, two funds previously reported as nonmajor funds, the Gas Tax Fund and the Retirement Tax Fund, currently qualify as major funds for the 2011-12 fiscal year.

**Proprietary Funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

<u>Enterprise Funds.</u> Total net assets of the enterprise funds amounted to \$22,699,120 and total decrease in net assets for these funds was \$358,737 for the year ended June 30, 2012.

<u>Internal Service Funds.</u> The City's internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for purchases of vehicles throughout the City. As of June 30, 2012, unrestricted net assets of the internal service funds were \$135,259, which is the same as reported during the prior fiscal year. The services provided by the internal service funds have been allocated to governmental functions, based on user percentages, in the government-wide financial statements.

### **General Fund Budgetary Highlights**

In the General Fund, the actual expenditures \$15,788,936, compared to the final budget \$14,855,971, increased by \$932,965 primarily due to legal fees, pension cost, public safety and the aquatic facility. During the year, actual revenues were more than final budgetary estimates by \$56,241. This slight increase is mainly due to taxes, and licenses and permits. There were no significant variances noted between original and final budget amounts in the General Fund.

### **Capital Asset and Debt Administration**

*Capital Assets.* The City's investment in capital assets for its governmental activities amounts to \$52,505,498 (net of accumulated depreciation of \$43,403,399) as of June 30, 2012. This investment in capital assets includes land, buildings, improvements other than buildings, infrastructure (roads, sidewalks, streetlights, etc.), and machinery and equipment. The total increase in the City's investment in capital assets for the current fiscal year was \$478,555 before depreciation.

### Capital Asset and Debt Administration - Continued

### **Debt Administration - Continued**

State statutes limit the amount of general obligation debt a governmental entity may issue up to 15 percent of its total assessed valuation. The current debt limitation for the City is \$55,149,148, which is significantly in excess of the City's outstanding general obligation debt. Additional information on the City's long-term debt can be found in Note 6 to the basic financial statements on pages 42-45 of this report.

### **Economic Factors and Next Year's Budget**

In the fiscal year ending June 30, 2012, the City of San Fernando maintained a conservative budget in light of reduced revenues due to the ongoing sluggish economy, which was affected by a myriad of local, state, federal, and global factors including: increased commercial vacancies; foreclosures; decreased property values; reduced consumer spending; high unemployment; state budget crisis; the looming federal fiscal cliff; the economic slow down in China, India and Asia; and the economic crisis in Europe. The City has taken significant steps to address the fiscal challenges that it faces while maintaining the delivery of excellent municipal services to the community. Measures were implemented to ensure that costs for service delivery were being recovered, and to augment potential revenue sources and improve organizational efficiency in the deliver of city services. Such measures included controlling and reducing operating costs by renegotiating each memorandum of understanding with each union group that resulted in savings (e.g., modified benefits, frozen positions, staff reductions), renegotiation of contracts and professional service agreements with current vendors and public service providers, a comprehensive updating of the City's schedule of fees for services in general, stepped up business retention and recruitment programs, adoption of sewer and water rate increases to make enterprise funds self sufficient and reduce the need for General Fund monies, upgrade of energy efficient lighting infrastructure, applying for grant funds to offset planning and police personnel costs, applying for alternative fuel credits from the Federal government related to the sale of CNG (City's CNG station) while expanding capacity to sell more CNG, and deferring capital purchases where deemed appropriate.

The City has also been able to implement major projects as a result of the aggressive approach it has taken towards seeking new funding sources. City staff is constantly looking for new ways of finding new revenues and uses the talents from within to approach new projects rather than paying additional fees to receive services. In this regard, significant accomplishments in the fiscal year ending June 30, 2012 included:

- Completion of the Park Avenue street improvements. This project added extensive aesthetic improvements to the area and coincided with the construction of a sixty-two unit multifamily housing project that includes 41 affordable rental units and 21 market rate rental units. The housing project has a total valuation of \$14,500,000 in construction costs. The street project cost \$320,000 and was funded through special revenue funds such as Pavement Management, Measure R funds and Prop. C transit development funds.
- Adoption of Water and Sewer Rate Increases, also known as the Prop. 218 process was completed in 2012. This
  is necessary in order to maintain the necessary capital reserves to complete essential capital improvements and
  maintenance projects on the City's aging sewer and water infrastructure while ensuring that the enterprise funds
  are self sustaining for the long term.
- City facilitated public-private investment resulting in the construction of a 20-unit affordable housing project on a city-owned parcel at 1422 San Fernando Road with a total valuation of \$4,100,000 in construction costs.
- Approval of entitlements and permit processing to allow relocation of Enterprise Office to a free standing facility in the city's automotive zoning district.
- Approval of entitlements for the adaptive reuse of two former automotive dealership sites to be reopened with retail sales and service commercial uses; total construction valuation of \$2,500,000.

- Approval of entitlements for Harding Street Affordable Housing Project, which included a financial commitment of \$250,000 from the City to facilitate the development of 113 affordable rental units to extremely low to moderate income households; total construction valuation of \$30,000,000.
- Continued negotiations with prospective car dealership seeking to establish a new and used car automotive dealership in the City with anticipated start up in the last quarter of FY 2012-2013.
- Streamlined entitlement and building permit approval process to allow tenant improvements for a new Vallarta Supermarket to be completed within an unprecedented four months.
- Recreation and community services have continued to be expanded at the City's parks and regional aquatic
  facility resulting in new program income that has continued to reduce operational expenditures partially funded
  by the General Fund.
- Implementation of business retention and outreach program that includes online list of potential business opportunity sites on the City's website in order to match up potential businesses seeking to enter the City with vacant properties that are seized and zoned accordingly to facilitate the potential land use.
- Implementation of an inspection prior to resale of single family homes with an associated fee to ensure homes are not being sold with unpermitted improvements; any resulting upgrades required by the City are then reported to the County tax assessor resulting in increased property tax assessments.
- Installation of an Energy Efficient Induction Lighting system with a total construction cost of \$131,000 and was funded with Measure R funds. This energy efficient lighting system is intended to improve the lighting efficiency and will reduce lighting costs to the City.

In the upcoming fiscal year 2012-2013, the City plans to maintain a conservative budget in light of current economic conditions. Revenues to the General Fund are expected to fall slightly. Expenditures are expected to fall with anticipated savings from the continued practice of not filling positions as they become vacant. Also, the City will be entering into negotiations with all of the bargaining units in order to achieve additional savings. In spite of the economic conditions, the City plans on continuing with the Water Nitrate Project, increased fuel sales due to expansion of the CNG Fueling Station storage capacity, the Trolley and Bus Shelter Project, Energy Efficient Induction Lighting Project, and several street paving and repair projects. These projects will be funded through grants and/or special revenue funds except for the Water Project. In order to sustain the continued delivery of excellent municipal services to the community, the City will continue to closely review all revenues, department budgets and projects in light of budget constraints. Where necessary, the City will prioritize the use of resources so as to meet the community's demand for critical municipal services. The City has implemented a rolling twelve month cash flow analysis and a monthly departmental review of financials (revenues and expenditures).

#### 1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A) Description of Reporting Entity

The City of San Fernando, California was incorporated on August 31, 1911 under the general laws of the State of California and enjoys all the rights and privileges pertaining to "General Law" cities. The financial reporting entity includes the accounts of the City of San Fernando (the City), the primary government and its component units, the San Fernando Redevelopment Agency (the Agency or the RDA) and the City of San Fernando Public Financing Authority (the Authority).

The financial statements of the City of San Fernando include the financial activities of the City and its component units for which the City is considered to be financially accountable. Financial accountability is determined on the basis of budget adoptions, taxing authority, funding and composition or appointments of the governing board. Blended component units, although legally separate entities, are part of the City's operations and data from these units are therefore combined with data of the City.

#### **Blended Component Units**

Since the San Fernando City Council acts as the Board of Directors and is able to impose its will on the San Fernando Redevelopment Agency and the San Fernando Public Financing Authority, the City is considered to be the primary government and the other two entities are component units. Additionally, since the governing boards of the City and the component units are the same, the component units are blended.

The San Fernando Redevelopment Agency was established in 1965 pursuant to provisions of the California Health and Safety Code. The primary purpose of the Agency is to eliminate blighted areas by encouraging development of residential, commercial, industrial, recreational and public facilities. The Agency is accounted for in the City's financial statements in accordance with principles defining the governmental reporting entity adopted by the Governmental Accounting Standards Board. The City Council members, in separate session, serve as the governing board of the Agency. The Agency is reported in the Debt Service and Capital Projects Funds. The Agency was dissolved as of February 1, 2012 as a result of State legislation. The activities and balances subsequent to that date are reported in a private-purpose trust fund.

The City of San Fernando Public Financing Authority is a Joint Exercise of Powers Authority organized and existing under and by virtue of the Joint Exercise of Power Act of the Government Code of the State. The City and the Agency formed the Authority by the execution of a Joint Exercise of Powers Agreement. The primary purpose of the Authority is to issue bonds and make loans to the Agency. The Authority is accounted for in the City's financial statements in accordance with principles defining the governmental reporting entity adopted by the Governmental Accounting Standards Board (GASB). The City Council members, in separate session, serve as the governing board of the Authority. The Authority is reported in the Debt Service and Capital Projects Funds. There are no separate financial statements prepared for the Authority.

#### B) Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information about the reporting government as a whole, except for its fiduciary activities. Governmental activities,

which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government (including its blended component units) is reported separately from discretely presented component units for which the primary government is financially accountable. The City has no discretely presented component units.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are expenses that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items that are properly not included among program revenues are reported instead as general revenues.

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Separate financial statements for the government's governmental and proprietary funds are presented after the Government-wide Financial Statements. These statements display information about major funds individually and other governmental funds in the aggregate for governmental and enterprise funds.

#### C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Under the economic resources measurement focus, all assets and liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all the eligibility requirements have been satisfied.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### 1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation - Continued

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under the current financial resources measurement focus, only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period. Noncurrent portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. However, special reporting treatments are used to indicate that they should not be considered "available spendable resources" since they do not represent net current assets. Recognition of governmental fund type revenue represented by noncurrent receivables is deferred until they become current receivables. Noncurrent portions of other long-term receivables are offset by nonspendable fund balance accounts.

Under the modified accrual basis of accounting, revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, except for principal and interest on general long-term liabilities, claims and judgments, and compensated absences that are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual, and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

#### **Fund Classifications**

The funds designated as major funds are determined by a mathematical calculation consistent with GASB Statement No. 34. The City reports the following major governmental funds:

The <u>General Fund</u> is the City's primary operating fund and accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The <u>Grants Special Revenue Fund</u> is used to account for miscellaneous grants provided by federal, state and county agencies and expended for various street, park, recreation, historic preservation, human services and police purposes.

The <u>State Gas Tax Fund</u> accounts for the City's share of motor fuel tax revenue restricted for street maintenance and repairs.

The <u>Retirement Tax Fund</u> accounts for receipts from a voter-approved special tax levy that is used to pay for a portion of the cost of the City's participation in the Public Employees Retirement System.

#### C) Measurement Focus, Basis of Accounting, and Financial Statement Presentation - Continued

The <u>Redevelopment Merged Project Areas #1, 2, 3, 3A, and 4 Debt Service Fund</u> is used to account for the accumulation of resources for, and the payment of, long-term debt principal and interest on general obligations of the Agency's Project Areas #1, 2, 3, 3A, and 4.

The <u>Low-Income Housing Capital Projects Fund</u> is used to account for monies set aside in accordance with Redevelopment Law for the provision of affordable housing for low and moderate-income persons and families.

The City reports the following major enterprise funds:

The <u>Water Enterprise Fund</u> is used to account for the provision of water services to all residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, operations, maintenance and major construction.

The <u>Sewer Enterprise Fund</u> is used to account for the provision of sewer services to all residents of the City. Processing of sewage is done by the City of Los Angeles under contract.

The <u>Waste Disposal Enterprise Fund</u> is used to account for the collection of solid waste from all residential utility accounts within the City. Solid waste collection and disposal is operated under a contract with a private disposal company.

The City also reports the following fund types:

The <u>Internal Service Fund</u> is used to account for the financing of goods and services provided by one City department to other departments on a cost-reimbursement basis. The City's internal service fund is used to account for equipment replacements.

The <u>Successor Agency Private-purpose Trust Fund</u> accounts for the revenues and expenditures of the former Redevelopment Agency

The Agency Fund is used to account for funds received by the City as an agent for the other entities.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

#### D) Cash and Cash Equivalents

In order to maximize investment return, the City pools its available cash for investment purposes. The cash management pool is used essentially as a demand deposit account by the participating funds. The City has defined cash and cash equivalents, for purposes of the preparation of its statement of cash flows, all deposits and investments purchased with a maturity date of 90 days or less.

Year Ended June 30, 2012

#### 1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### E) Investments

Investments are stated at fair value (the value at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale).

#### F) Inventories

Inventories of the enterprise funds, consisting primarily of materials and supplies, are stated at cost determined by the first-in, first-out method. Inventories of the governmental funds are recorded as expenditures when purchased.

#### G) Land Held for Resale

Land held for resale is recorded at the lower of acquisition cost or net realizable value.

#### H) Capital Assets

Capital assets, which include land, structures and improvements, machinery and equipment and infrastructure assets, are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Capital outlay is recorded as expenditures in the governmental funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold is met.

Capital assets include additions to public domain (infrastructure) which includes certain improvements such as pavement, curb and gutter, sidewalks, traffic control devices, and right-of-way corridors within the City.

The provision for depreciation is computed by use of the straight-line method over the estimated useful lives of assets, which are as follows:

| Buildings                         | 50 years       |
|-----------------------------------|----------------|
| Infrastructure                    | Up to 50 years |
| Improvements Other than Buildings | 20 years       |
| Furniture and Equipment           | Up to 30 years |
| Vehicles and Related Equipment    | Up to 8 years  |

Water rights are recorded in the Water Enterprise Fund in the amount of \$624,659, which is the net acquisition cost. The asset represents amounts paid to the Metropolitan Water District of Southern California for the right to purchase water. Because the rights have an indefinite life and normally appreciate in value over time, the City has elected not to amortize the cost of water rights. This treatment is in accordance with accounting principles generally accepted in the United States of America.

#### 1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### I) Deferred Revenues

Deferred revenues in fund financial statements arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when the City receives resources before it has a legal claim to them (e.g., when grant monies are received prior to the incurrence of qualifying expenditures).

#### J) Restricted Assets

Certain proceeds of debt issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

#### K) Compensated Absences

Employees can accrue vacation, sick leave or annual leave depending on the employee's status (management or non-management). In addition, non-management personnel may earn compensation time in lieu of overtime pay. Vacation, annual leave, and compensation leave are paid out 100% upon employee termination. Sick leave is paid out up to 50% upon retirement only.

Both vacation and annual leave are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the fund financial statements only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are expected to be paid primarily by the General Fund.

#### L) Claims and Judgments

When it is probable that a claim liability has been incurred at year-end, and the amount of the loss can be reasonably estimated, the City records the estimated loss, net of any insurance coverage under its self-insurance program. For governmental funds, if claims will not be liquidated from currently available resources, they are recorded only in the government-wide financial statements.

#### M) Interfund Transactions

Interfund transactions are reflected as loans, services provided reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental and proprietary funds are netted as part of the reconciliation of the government-wide presentation.

#### N) Property Taxes

Property taxes include assessments on both secured and unsecured property. Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are payable in two installments which are delinquent if not paid by December 10 and April 10. The County of Los Angeles bills and collects the property taxes and remits them to the City in installments during the year. The City records property taxes as revenue when received from the County, except for property taxes received within 60 days after fiscal year-end, which are accrued at June 30<sup>th</sup>.

The County is permitted by State Law (Article XIII A of the California Constitution) to levy taxes at one percent (1%) of full market value (at time of purchases) and can increase the property's value at no more than two percent (2%) per year. The City receives a share of this basic levy.

#### O) Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and assumptions.

#### P) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

#### Governmental Accounting Standards Board Statement No. 63

In June of 2011, GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. The objective of this Statement is to provide guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. The City has elected not to early implement GASB No. 63 and has not determined its effect on the City's financial statements.

#### Governmental Accounting Standards Board Statement No. 65

In March of 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in the financial statements. Statement No. 65 is effective for periods beginning after December 15, 2012. The City has elected not to early implement GASB No. 65 and has not determined its effect on the City's financial statements.

Governmental Accounting Standards Board Statement No. 68

In June of 2012, GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27. This statement was issued to improve the financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trust or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this statement. Statement No. 68 is effective for periods beginning after June 15, 2014. The City has elected not to early implement GASB No. 68 and has not determined its effect on the City's financial statements.

The City pools its cash and investments for all fund entities except for cash and investments held by outside fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash and investments is allocated quarterly to the various funds based on the weighted average cash balances. Interest income from cash and investments with fiscal agents is credited directly to the related fund.

#### **Investment Policies**

The City's investment policy outlines the guidelines required to be used in effectively managing the City's available cash in accordance with the California Government Code. Summarized below are the investment vehicles that are authorized and certain provisions of the policy that address interest rate risk and concentration of credit risk.

|   |          | Maximum    |                    |

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Most of the City's investments are held in trust by a fiscal agent as required by the bond indenture. A table summarizing distribution of the City's investment by maturity as of June 30, 2012 is as follows:

|  |      | aining Maturity in Months) |
|--|------|----------------------------|
| Investment Type  | 12 N | Months Or Less             |

#### **Disclosures Relating to Credit Risk**

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required (where applicable) by the California Government Code or the City's investment policy and actual rating by Standard and Poors as of the year ended for each investment type.

|  |              |         | Rating as of Year End |              |              |

#### **Concentration of Credit Risk**

At June 30, 2012, the City had no investments in any one issuer that represent 5% or more of total City investments.

#### **Custodial Credit Risk**

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

At June 30, 2012, the carrying amount of the City's deposits was \$6,071,413 and balances per bank were \$6,081,862. The differences of \$10,449 represents outstanding checks, deposits in transit and other reconciling items. The City did not have any deposits with financial institutions in excess of Federal depository insurance limits and held in uncollateralized accounts.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

#### **Investment in State Investment Pool**

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

#### 3) INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

#### **Due To and Due From Other Funds**

Amounts due to/due from other funds at June 30, 2012 are as follows:

| Receivable            | Receivable Payable Amou   |    | Amount                                    |

The outstanding balances between funds result mainly from interfund borrowings to cover operating deficits.

#### **Long-term Advances**

At June 30, 2012, the City had the following interfund long-term advances:

#### **Long-term Advances - Continued**

- (1) On June 2, 2003, the City entered into an agreement with the Redevelopment Agency whereby the City conveyed a property to the Agency for the initial down payment of \$825,000, as well as a 15-year note with a 5% interest rate and annual payments of \$209,544. On January 15, 2010, the loan was restructured to include additional accelerated payments of \$220,000 in 2011 and 2012. As of June 30, 2012, the outstanding balance on the note is \$189,604. In addition, the General Fund has advanced the Successor Agency Trust Fund \$22,236. It is unclear when these amounts will be repaid due to the dissolution of the Redevelopment Agency.
- (2) On May 7, 2001, the Retirement Tax Special Revenue Fund and the Sewer Enterprise Fund advanced \$750,000 each to the Grants Special Revenue Fund. The interest is payable on the unpaid principal of the loan, compounded annually on a 360 day/year, at a rate calculated as the average rate earned on the funds deposited by the City into the Local Agency Investment Fund. The principal is due within 20 years, or sooner if funds are available. As of June 30, 2012, the outstanding balance due to the Retirement Tax Special Revenue Fund and the Sewer Enterprise Fund are \$483,083 and \$483,083, respectively.
- (3) On October 18, 1999, the Sewer Enterprise Fund advanced \$1,500,000 to the Water Enterprise Fund. The interest is payable on the unpaid principal of the loan, compounded annually on a 360 day/year, at a rate calculated as the average rate earned on the funds deposited by the City into the Local Agency Investment Fund. As of June 30, 2012, the outstanding balance of the advance is \$1,430,730.
- (4) On February 16, 2010, the Sewer Enterprise Fund advanced \$463,000 to the Redevelopment Merged Project Areas #1, 2, 3 and 4 Debt Service Fund to aid in the financing of redevelopment activities of the Agency. The interest is payable on the unpaid principal of the loan, compounded annually on a 360 day/year, at a rate calculated as the average rate earned on the funds deposited by the City into the Local Agency Investment Fund. The principal is due May 15, 2014. As of June 30, 2012 the outstanding balance is \$463,000. Due to the dissolution of the Redevelopment Agency it is unclear when this advance will be repaid.

#### **Compensated Absences**

The City's policies relating to compensated absences are described in Note 1. This liability amounting to \$1,475,197 is expected to be repaid from future resources, typically liquidated from the General Fund.

#### Fiduciary Fund Long-term Liabilities

Long-term liabilities of the former San Fernando Redevelopment Agency were transferred to the Successor Agency Private-purpose Trust Fund during 2011-12 as a result of the State's action to dissolve redevelopment agencies. The following is a schedule of changes in long-term debt of the Successor Agency for the fiscal year ended June 30, 2012:

### 1998 Project Areas #1 and #3 Tax Allocation Bonds

In June 1998, the Agency defeased its 1987 and 1991 (Project Areas #1 and #3) Tax Allocation Bonds by placing a portion of the proceeds of the new 1998 Tax Allocation Bonds in an irrevocable trust to provide for all future debt service payments related to the Agency's 1987 and 1991 issuances. Accordingly, the trust assets and liability for the defeased debt are not included in these financial statements. In fiscal year 2002-2003, all defeased bonds were paid, and none remains outstanding.

#### 1998 Project Areas #1 and #3 Tax Allocation Bonds - Continued

The San Fernando Redevelopment Agency sold two series of bonds in the amounts of \$1,320,000 and \$6,360,000 for Project Areas #1 and #3, respectively, to provide funds to advance refund the 1987 Project Area #1 Bonds, the 1987 Project Area #3 Bonds and a portion of the 1991 Project Area #2 Bonds. A portion of the bond proceeds were used to finance additional redevelopment projects.

Annual interest rates on the tax allocation bonds for the Project Area #1 range from 4.0% to 5.25% with interest payable semiannually. The bonds mature in amounts ranging from \$80,000 to \$115,000 through the year 2014. Bonds maturing on or after September 15, 2006 are subject to call or redemption prior to their stated maturity at a premium ranging from 2.0% in 2006 to 0.5% in 2008 and 2009, and at par thereafter.

Annual interest rates on the tax allocation bonds for Project Area #3 range from 4.0% to 5.25% with interest payable semiannually. The bonds mature in amounts ranging from \$385,000 to \$545,000 through the year 2014. Bonds maturing after March 15, 2006 are subject to call or redemption prior to their stated maturity at a premium ranging from 2.0% in 2006 to 0.5% in 2008 and 2009, and at par thereafter. As of June 30, 2012 \$1,890,000 of the 1998 Tax Allocation Bonds were outstanding.

#### 2006 Project Area #3 Tax Allocation Bonds

In December 2006, the Agency, Civic Center Redevelopment Project Area #3, issued \$11,490,000 of Series 2006 Tax Allocation Bonds for the completion of the aquatic center and the acquisition, construction and relocation to a new City yard and various street improvements. The bonds were issued on parity with the 1998 Tax Allocation Bonds. The bonds mature in annual installments ranging from \$420,000 to \$1,425,000 with coupon rates ranging from 3.25% to 4.125%. Interest payments are due each March 15 and September 15, commencing March 15, 2007. Final maturity of the bonds is September 15, 2020. As of June 30, 2012, \$8,550,000 of the bonds were outstanding.

Future debt service requirements, for the Tax Allocation Bonds to maturity are as follows:

#### **County Deferral**

The Redevelopment Agency and County of Los Angeles (the County) entered into an agreement whereby the County will defer tax increment (County Deferral) generated within the project area to meet the Agency's debt service obligations. The County Deferral, accrued at an interest rate of 7% was to be repaid whenever the Agency received property tax in excess of its bonded debt payment requirements. Due to the dissolution of the Agency as of February 1, 2012, this debt is reported in the Fiduciary Funds of the City (Successor Agency). At June 30, 2012, the balance of the County Deferral, including interest, was \$3,076,430.

#### 7) CITY EMPLOYEES RETIREMENT SYSTEM (DEFINED BENEFIT PENSION PLAN)

#### **Plan Description**

The City of San Fernando participates in the Miscellaneous 3% at 60 and 2% at 55 (Tier I and Tier II) Risk Pools and the Safety 3% at 50 and 2% at 55 (Tier I and Tier II) Risk Pools of the California Public Employee's Retirement System (PERS), cost-sharing, multiple-employer defined benefit pension plans administered by PERS. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions and all other requirements are established by State statute and District ordinance. Copies of the PERS' annual financial report may be obtained from the PERS Executive Office - 400 P Street, Sacramento, California 95814.

#### **Funding Policy**

The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by PERS. Active City employees are required to contribute 7% (Tier II), 8% (Tier I), or 9% (safety employees) of their annual covered salary to PERS. The City makes 50% of the contributions required of City general employees, and for management and safety employees. The City is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The current rates for the Miscellaneous Tier I and Tier II Plans are 23.711% and 11.208% of covered payroll, respectively. The current rates for the Safety Tier I and Tier II Plans are 38.174% and 24.178% of covered payroll, respectively. The City's total contributions to CalPERS for the years ended June 30, 2012, 2011 and 2010 were \$2,490,945, \$2,344,640, and \$2,498,872, respectively and were equal to the required contribution for each year.

#### 8) SELF-INSURANCE PROGRAM

#### **Workers' Compensation**

The City maintains a program of self-insurance for any liability to City employees pursuant to the Workers' Compensation Laws of the State of California. A service agent administers this program. The City is self-insured for the first \$500,000 on each claim. A private insurance company, up to the statutory limit, provides insurance coverage in excess of the self-insured amount. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. At June 30, 2012, the amount of these liabilities was \$2,431,305. This liability is the City's best estimate based on available information.

Year Ended June 30, 2012

#### 8) SELF-INSURANCE PROGRAM - Continued

#### **General Liability**

Additionally, the City is a member of the Independent Cities Risk Management Authority (the Authority), which provides member cities with general liability insurance. Specific coverage includes comprehensive and general automotive liability, personal injury, contractual liability, errors and omissions and certain other coverage. Annual premium payments are paid by member cities and are adjusted retrospectively to cover costs. Each member city, including San Fernando, self-insures from the first dollar to a limit of \$250,000. Participating cities then share above the retention level of \$250,000 to \$30,000,000 per loss occurrence.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. At June 30, 2012, the amount of these liabilities was \$429,251. This liability is the City's best estimate based on available information. During the current fiscal year, there were no significant reductions in insurance coverage. Annual settlements during each of the last three fiscal years have not exceeded insurance coverage in any year.

The Authority is comprised of Southern California member cities and is organized under a Joint Powers Agreement pursuant to the California Government Code. The purpose of the Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage. Each member city has a representative on the Board of Directors. The Board members elect officers of the Authority annually.

#### **Changes in Self-Insurance Liability**

Changes in the reported liabilities resulted from the following:

### 9) OTHER POST-EMPLOYMENT BENEFITS

#### **Plan Description**

The City contributes to a single-employer defined benefit plan to provide post-employment health care benefits. Specifically, the City provides health insurance for its retired employees and their dependent spouses (if married and covered on the City's plan at time of retirement), or survivors in accordance with Board resolutions. Medical coverage is provided for retired employees who are age 50 or over and who have a minimum of 5 years service with the City as long as such individuals retire within 120 days of separation from employment and receive a monthly retirement allowance. The City pays 100% of all premiums charged for the retiree and dependents under the health benefit plan administered by

CalPERS in which the individual is able to select, on an annual basis, an insurance carrier from a number of insurance carriers. Medical coverage is provided for the surviving spouse of retired employees and the surviving spouse of active employees who upon death had attained age 50 and who had a minimum of 5 years of service with the City in addition to satisfying the requirement to retire within 120 days of separation. The City will pay 100% of the premiums charged until the surviving spouse remarries, becomes enrolled under another group health plan, or cancels coverage. The plan does not provide a publicly available financial report.

#### **Funding Policy**

The contribution requirements of plan members and the City are established and may be amended by the City, City's Board of Directors, and/or the employee associations. Currently, contributions are not required from plan members. The City is currently funding this OPEB obligation on a pay-as-you-go basis. This obligation is typically liquidated from the General Fund.

#### **Annual OPEB Cost and Net OPEB Obligation**

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities of the plan over a period not to exceed thirty years.

The following table shows the component of the City's annual OPEB costs for the year, the amount actually contributed to the plan, and changes in the City's net OPEB asset:

| Annual Required Contribution (ARC)   | \$<br>2,636,951 |

#### **Funded Status and Funding Progress**

As of April 1, 2011, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$33,727,414, and the actuarial value of assets was zero, resulting in an unfunded accrued liability (UAL) of \$33,727,414. The covered payroll (annual payroll of active employees covered by the plan) was \$7,991,271 and the ratio of the UAL to the covered payroll was 422.05%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the City are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets consistent with the long-term perspective of the calculations.

In the April 1, 2011, actuarial valuation, the entry age normal cost level percent of pay method was used. The actuarial assumptions included a 4% investment rate of return (net of administrative expenses), inflation rate of 3.25%, and an annual healthcare cost trend rate of 9% initially, reduced by .5% per year to an ultimate rate of 4%. The City's unfunded actuarial accrued liability will be amortized as a level of percentage pay over a closed period of 28 years. It is assumed the City's payroll will increase 3.25% per year.

Year Ended June 30, 2012

#### 10) FUND BALANCES

The City implemented Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", as of June 30, 2011. The fund balances reported in the fund statements consist of the following categories:

<u>Nonspendable</u> - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

<u>Restricted</u> - This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers or through enabling legislation.

<u>Committed</u> - This classification includes amounts that may be specified by the City Council by ordinance or resolution to formally commit part of the City's fund balances or future revenues for a specific purpose(s) or program. To change or repeal any such commitment will require an additional formal City Council action utilizing the same type of action that was originally used.

<u>Assigned</u> - This classification includes amounts that are constrained by the City Council's intent to use specified financial resources for specific purposes, but are neither restricted nor committed. The City's fund balance policy establishes the authority to assign amounts to be used for specific purposes to the City Council. In governmental funds, other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed.

<u>Unassigned</u> - This classification includes the residual balance for the government's general fund and includes all spendable amounts not contained in other classifications. In other funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the City's policy is to apply restricted fund balance first.

When an expenditure is incurred for purposes for which committed, assigned or unassigned fund balances are available, the City's policy is to apply committed fund balance first, then assigned fund balance, and finally unassigned fund balance.

#### 11) DEFICIT NET ASSETS/FUND BALANCES AND EXCESS EXPENDITURES

The following funds reported deficits in net assets/fund balances at June 30, 2012:

Deficit

Year Ended June 30, 2012

#### 11) DEFICIT NET ASSETS/FUND BALANCES AND EXCESS EXPENDITURES - Continued

The deficits will be eliminated as follows:

The General Fund deficit will be eliminated by continuing to freeze as many staff positions as possible as they become vacant. During the period of January 1, 2012 and December 31, 2012 there have been twelve (12) full-time positions that were vacated due to retirement (3), layoffs (4), voluntary resignations, (4) and termination (1). These reductions in staff size are in addition to the four (4) positions that were vacated in the prior fiscal year. It is anticipated that a majority of these positions will not be filled. However, the City will be recruiting in early 2013 to fill four full-time management positions (e.g., directors, senior accountant and management analyst) that had previously become vacant and that have direct responsibility for maintaining the financial oversight of the City's General Fund. In 2012, the Police Officer's Association has agreed to contribute 50% of their employee portion of retirement costs, modification to health benefits and special assignment pays, and establishing a new tier/benefit package for new police hires. All City compensation formulas for PERS contributions have been amended consistent with AB 340 (the Public Employees' Pension Reform Act); resulting in long term savings to the City's General Fund as it relates to future retiree benefits.

In light of the ongoing structural deficit issues impacting the General Fund and the ongoing uncertainty with Federal and State budgets, as well as the associated budget impacts attributed to the dissolution of the former Redevelopment Agency, the City Council and Management will be seeking to reopen negotiations with the various City union groups to look at additional cost savings including, but not limited to, unpaid furloughs and staff reductions to address the General Fund's structural deficit. In addition, Management is currently reviewing all City contracts and agreements with consultants and vendors to determine possible options for renegotiation and cost savings. Included as part of this process is the current negotiation with the City of Los Angeles to establish a new annual fee for contracted fire and ambulance services with the Los Angeles Fire Department. The purpose of this contract renegotiation is to obtain additional savings for public services in the General Fund expenditures.

The Grant Special Fund deficit will be eliminated by continuing to make annual payments from the General Fund to the Grant Special Fund. Management is proposing to the City Council to adopt a payment schedule that ensures full payment of the outstanding deficit over the next 20 years. The schedule will seek to account for current financial constraints with payments increasing over time, which are intended to reflect long term build up in reserves through the implementation of Citywide cost saving measures.

The Recreation and Special Revenue Fund deficit will be eliminated by reducing budgeted personnel appropriations and increasing program fees. Together, these activities will recover program operational costs charged to the Fund during Fiscal Year (FY) 2012-2013 with a projected positive fund balance.

The Street Lighting Special Revenue deficit will be eliminated by improving the energy efficiency of our current lighting system via upgrades to more energy efficient infrastructure and by seeking other alternative funding sources during FY 2012-2013 to end with a positive fund balance.

The Community Development Block Grant Special Revenue Fund deficit will be reduced by future revenues associated with repayment of outstanding loans.

#### 12) COMMITMENTS AND CONTINGENCIES

Various claims and lawsuits have been filed against the City in the normal course of business. Based upon information obtained from the City attorney and the self-insurance administrators, the estimated liability under such claims and litigation will not exceed the accrued self-insurance liability recorded in the government-wide statement of net assets. Also, the City has received State and Federal funds that are subject to review and audit by the grantor agencies. Such audits could generate expenditure disallowances under terms of the grants; however, it is believed that any such reimbursements will not be significant.

#### **CHFA Loan**

In connection with the CHFA loan disclosed in Note 6, the City entered into a Disposition and Development Agreement in March 2004 whereby the City's RDA would acquire a piece of land, under certain conditions, for \$1.4 million from a developer for the purpose of providing low income senior housing in the City. Upon the arrival of the development milestones specified in the agreement, the RDA would acquire the fee title to the land parcel, and grant the Developer a leasehold interest in the land parcel for a term of 75 years at an annual lease payment of \$10, and an option to extend for an additional 24 years at market rate rent. The RDA and the Developer anticipate the project would cost over \$14.5 million, and would be financed through a combination of sources including, but not limited to: HOME Funds from the Los Angeles Community Development Commission, LIHTC proceeds, Tax Exempt Bond proceeds, and deferred development fees.

### **Fire - Ambulance Services Contract Negotiation**

The City of San Fernando contracts with the City of Los Angeles Fire Department (LAFD) for fire and ambulance services. During the fiscal year, City staff continued negotiations with the LAFD in an effort to obtain a savings for contracted services. At the conclusion of the fiscal year, the city was unable to complete the contract negotiations and has outstanding invoices for fire-ambulance services in the amount of \$526,560 that are reflected in the City's General Fund Liabilities. During the coming fiscal year, the City staff will continue to work with LAFD to negotiate a new contract term and annual cost for fire-ambulance services that may results in a savings to the General Fund and provide for a multi-year payment schedule that addresses the FY 11-12 Liabilities amount of \$526,560. Therefore, failure to obtain a savings in fire-ambulance contract costs would further increase liabilities to the General Fund.

#### **MOU-Swap Meet Property**

In June 2003, the City of San Fernando entered into a Memorandum of Understanding with the Robertsons Properties Group (the "Swap Meet Owner") in effort to facilitate the redevelopment of the current swap meet site into a future regional shopping center. The MOU provides for continued operation of the swap meet as well as facilitating relocation of the swap meet operation and vendors to a suitable location prior to initiating the commercial redevelopment of the subject site. As part of the MOU, the City conveyed the City Yard Site to the former City of San Fernando Redevelopment Agency (the Agency). In 2007, the Agency then entered into a Purchase and Sale Agreement with the Swap Meet Owner, which include an initial cash payment of \$500,000 and 10 equal payments of \$125,000 per year for 10 years. In addition, at the end of the 10 year term, the Swap Meet Owner is scheduled to make a balloon payment of \$3,819,335 (less an amount not to exceed \$198,020 for pre-approved demolitions costs) to the Agency. These funds are currently included as Assets (Loans) in the Successor Agency of the former Agency's Private –Purpose Trust Fund.

City is considering contesting the future remaining payments scheduled to the former city redevelopment agency.

#### 13) UNCERTAINTIES

#### **General Fund**

The City's General Fund and Grants Special Revenue Fund have been experiencing deficit fund balances and/or expenditures in excess of revenues for the past several years. The General Fund and Grants Fund had deficit fund balances at June 30, 2012 of \$1,236,782 and \$2,007,798, respectively. However, the General Fund reports a deficit "unassigned" fund balance of \$1,572,548 as of June 30, 2012. In addition, the General Fund and Grants Fund have had cash overdrafts in recent years making it necessary to borrow cash from other funds (total borrowings of \$2,871,646 at June 30, 2012). Also, the City's liability for other Post-Employment Benefits has increased to over \$6 million as of June 30, 2012. It is unclear how this liability will eventually be funded.

The General Fund is expected to have liquidity problems and will need to borrow cash from other funds in fiscal year 2012-2013.

In light of these facts, the City has taken a number of actions to augment the revenues and reduce expenditures for the fiscal year 2012-2013, and in future years, so as to increase the General Fund balance. Such measures include:

Controlling and reducing operational costs. This will be achieved through anticipated staff savings from all departments. Vacated and unfilled positions and union concessions (e.g., modified benefits, employee payment of 50% of employees' PERS contribution, layoffs, furloughs) resulting from renegotiation of each memorandum of understanding with each union group. The trend towards reducing government personnel expenditures is the "new normal" and is an operational reality for the City. Therefore, the City has to do more with less and right size the organizational structure to align personnel expenditures with available revenues.

#### **General Fund - Continued**

Renegotiation of contracts. During FY 2012-2013, the City renegotiated with City of Los Angeles for contracted services for fire and ambulance services in order to reduce General Fund expenditures associated with contracted public safety services. The City is also renegotiating the City's franchise refuse contract and considering an amendment with the local swap meet operator to increase the admission fee per swap meet attendee in order to secure additional revenues to reduce the General Fund budget shortfall. The City is also seeking alternative funding sources to the General Fund including grant funds for personnel costs (e.g., planning and police staffing).

<u>Cost recovery.</u> During FY 2012-2103, the City will review the current fee schedule to ensure that the City is recovering the full cost of providing municipal services.

<u>Business retention and recruitment.</u> The City is actively recruiting developers and businesses to fill vacant properties including new tenants for the former JC Penney building and the closed Rydell Automotive dealership site. The City is seeking out private sector jobs, notably those in technology related industries, professional and business services, and information, which could help build up demand for office space in the downtown area.

Removing government constraints. The City is also seeking ways to streamline the discretionary and permit approval process in order to facilitate new commercial, industrial, and residential construction focused on new tenant improvement work to retain existing business, attract new tenants, as well as, support of single residential rehabilitation, and new high density infill residential development. Collectively, these efforts to streamline the entitlement process will add to sales tax base in the community and improve property tax valuations throughout the City while preserving the City's existing residential neighborhoods. It is anticipated that the housing market will continue to show gains in new home purchase attributed to the lowest loan interest rates in history, as well as the demand for new affordable and market rate rental units in close proximity to public transit centers such as the San Fernando/Sylmar Metrolink Station.

However, it is important to note that there is no assurance that these efforts will eliminate the structural deficit and build up resources to provide operating capital and emergency funds.

### **Grant Special Revenue Funds**

<u>Grant fund monitoring.</u> The City will ensure implementation of internal grant fund monitoring protocols in order to ensure that the grant agreement requirements for procurement, reimbursement requests, and ongoing reporting are followed by all departments. In addition, the City will fill management positions (e.g., directors and management analyst) that have direct responsibility for ensuring compliance with grant fund requirements.

### 14) SUCCESSOR AGENCY TRUST FOR ASSETS OF FORMER REDEVELOPMENT AGENCY

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("the Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of Santee that previously had reported a community development commission (redevelopment agency) within the reporting entity of the City as a blended component unit.

Year Ended June 30, 2012

#### 14) SUCCESSOR AGENCY TRUST FOR ASSETS OF FORMER REDEVELOPMENT AGENCY - Continued

The Bill provides that upon dissolution of a redevelopment agency, either the City or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. In January 2012, the City Council elected to become the Successor Agency for the former redevelopment agency in accordance with the Bill. However, the City Council, on March 25, 2012, elected not to retain the housing assets and functions of the former Redevelopment Agency. As of June 30, 2012, no assets have been transferred to the County Housing Authority, and are currently reported in the Successor Agency Private Purpose Trust Fiduciary Fund.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The Bill directs the State Controller of the State of California to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency by the Bill.

Management believes, in consultation with legal counsel, that the obligations of the former redevelopment agency due to the City are valid enforceable obligations payable by the successor agency trust under the requirements of the Bill. The City's position on this issue is not a position of settled law and there is considerable legal uncertainty regarding this issue. It is reasonably possible that a legal determination may be made at a later date by an appropriate judicial authority that would resolve this issue unfavorably to the City.

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012.

Prior to that date, the final several months of the activity of the redevelopment agency continued to be reported in the governmental funds of the City. After the date of dissolution, the assets and activities of the dissolved redevelopment agency are reported in a fiduciary fund (private-purpose trust fund) in the financial statements of the City.

The transfer of the assets and liabilities of the former redevelopment agency as of February 1, 2012 (effectively the same date as January 31, 2012) from governmental funds of the City to fiduciary funds was reported in the governmental funds as an extraordinary loss. The receipt of these assets and liabilities as of January 31, 2012 was reported in the private-purpose trust fund as an extraordinary gain (loss).

#### 14) SUCCESSOR AGENCY TRUST FOR ASSETS OF FORMER REDEVELOPMENT AGENCY - Continued

Because of the different measurement focus of the governmental funds (*current financial resources measurement focus*) and the measurement focus of the trust funds (*economic resources measurement focus*), the extraordinary gain (loss) recognized in the governmental funds was not the same amount as the extraordinary gain (loss) that was recognized in the fiduciary fund financial statements.

The difference between the extraordinary loss recognized in the fund financial statements and the extraordinary gain (loss) recognized in the fiduciary fund financial statements is reconciled as follows:

| Total extraordinary loss reported in governmental funds - increase to net assets of the Successor Agency Trust Fund.  | \$<br>1,723,105   |

#### City of San Fernando Notes to Required Supplementary Information

Year Ended June 30, 2012

#### **BUDGETS AND BUDGETARY ACCOUNTING**

The budget of the City is a detailed operating plan, which identifies estimated costs and results in relation to estimated revenues. The budget includes (1) the program, projects, series, and activities to be provided during the fiscal year, (2) the estimated resources (inflows) and amounts available for appropriation and (3) the estimated charges to appropriations. The budget represents a process through which policy decisions are made, implemented and controlled. The City Charter prohibits expending funds for which there is no legal appropriation.

The City's procedures for preparing the budgetary data reflected in the financial statements are:

- The annual budget provides for the general operation of the City and is adopted by the City Council after the holding of
  a public hearing. The budget figures presented in the accompanying required supplementary information financial
  schedules represent the original and final revised budget and include proposed expenditures and related financing.
- The City Council approves total budget appropriations and may amend the budget by motion during the fiscal year. However, the City Administrator is authorized to transfer within individual fund budgets without the approval of City Council; however, total appropriations may not be exceeded at the department level. The legal level of budgetary control is at the department level. The appropriated budget covers City expenditures in the General Fund, and Special Revenue Funds. Project length plans are adopted for the capital projects funds with unexpended funds at June 30 reappropriated in the following year. The debt service on bond issues constitutes a legally authorized "non-appropriated budget". During the fiscal year 2011-12 supplemental budget appropriations were approved by the City Council. The effects of the supplemental appropriations were minor.
- The City Council approves annual budgets for redevelopment funds only on a project-area-by-project-area basis and not on an individual fund basis, except for the Low-income Housing Capital Projects Fund, therefore, there are no Schedules of Revenues, Expenditures and Changes in Fund Balances Budget and Actual presented for the Redevelopment Funds, except for the Low-income Housing Capital Projects Fund.
- Formal budgetary integration is employed as a management control device during the year. Commitments for materials
  and services, such as purchase orders and contracts, are recorded as encumbrances to assist in controlling expenditures.
  Encumbrances at year-end lapse, and then are added to the following year's budgeted appropriations.
- Annual budgets for the General and Special Revenue Funds are adopted on a basis substantially consistent with
  generally accepted accounting principles. Actual revenues and expenditures can be compared with related budgeted
  amounts without any significant reconciling items. No budgetary comparisons are presented for the Proprietary Funds,
  as the City is not legally required to adopt budgets for this type of fund.
- Capital projects are budgeted through the Capital Projects Funds on a project-by-project basis. Appropriations for
  capital projects authorized but not constructed or completed during the year lapse at year-end, and are then included as
  part of appropriations in the following year's annual budget.

Budget information is presented as supplementary information for the other governmental special revenue funds. Budgeted revenue amounts represent the original budget modified by Council-authorized adjustments during the year which were contingent upon new, or additional revenue sources. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations during the year. The budgets conform, in all material respects, to generally accepted accounting principles, which serves as the budgeting basis. Appropriations lapse at year-end.

#### City of San Fernando Special Revenue Funds

#### SPECIAL REVENUE FUNDS

Special revenue funds account for specific revenues that are legally restricted to expenditures for particular purposes. The other special revenue funds include:

**Proposition A Local Transit -** Accounts for receipt and approved Local Transit Fund projects from a voter approved sales tax override for public transportation.

**Proposition C Discretionary -** Accounts for the maintenance of the mile-long bike path along the Metro-link Corridor in San Fernando.

**Traffic Safety -** Accounts for receipts from traffic fines as levied by local courts. Some of these funds are transferred to the General Fund for traffic safety purposes. The fund is required by Section 1463(b) of the California Penal Code.

**Parking Maintenance and Operations -** Accounts for parking receipts and maintenance of Business District parking facilities.

**Local Transportation -** Accounts for state funds allocated by the State for local pedestrian facility development or improvement.

**Recreation -** Accounts for receipts and the related expenditures from various recreation programs to be used for a specific program, such as sport leagues, craft and music classes, special events and concerts.

**Quimby Act Fees -** Accounts for revenues from real estate developers, who are required under state law to provide and support park facilities.

Street Lighting - Accounts for revenues and costs associated with the City's street lighting program.

Measure R - Accounts for the receipt of Measure R funds. These funds are to be used to provide traffic relief.

State Asset Forfeiture - Accounts for the receipts and disbursements of state seized and forfeited assets from sale of controlled substances.

**Federal Asset Forfeiture -** Accounts for the receipts and disbursements of federal seized and forfeited assets from sale of controlled substances.

**AQMD** - Accounts for South Coast Air Quality Management District revenues. These funds may be used for various programs to reduce air pollution.

**Cash-in-Lieu of Parking** - Accounts for revenues and related expenditures from developers or builders who elect to pay a specified amount to the City instead of providing required parking.

#### City of San Fernando Special Revenue Funds - Continued

#### **SPECIAL REVENUE FUNDS - Continued**

**Pavement Management** - Accounts for all of the pavement impact fees that are generated and the expenditures that are made related to the streets and highway infrastructure.

**Proposition C** - Accounts for the receipt of the "half-cent" sales tax allocated by LACMTA. These funds are to be used to reduce traffic congestion, improve air quality, improve conditions of streets/freeways, and reduce foreign fuel dependence.

**Community Development Block Grant (CDBG)** - Accounts for expenses of the Community Development Block Grant received through the County of Los Angeles.

Notes: Exempt values are not included in Total.

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of the property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At this point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

#### NOTES:

- (1) In 1978, California voters passed Proposition 13 which set the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.
- (2) Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners.
- (3) City's Share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the City. ERAF general fund tax shifts may not be included in tax ratio figures.
- (4) RDA rate is based on the largest RDA tax rate area (TRA) and includes only rate(s) from indebtedness adopted prior to 1989 per California State statute. RDA direct and overlapping rates are applied only to the incremental property values.
- (5) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.

#### Notes:

- (1) In 1978, California voters passed Proposition 13 which set the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of any voter approved bonds.
- (2) Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners.
- (3) City's Share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the City. ERAF general fund tax shifts may not be included in tax ratio figures.
- (4) The total debt to assessed valuation ratio is calculated by the total direct and overlapping debt divided by the 2010/11 Assessed Valuation.
- (5) RDA rate is based on the largest RDA tax rate area (TRA) and includes only rate(s) from indebtedness adopted prior to 1989 per California State statute. RDA direct and overlapping rates are applied only to the incremental property values.
- (6) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.

The Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel). The computations shown above reflect a conversion of assessed valuation data for each fiscal year from the current full valuation perspective to the 25% level that was in effect at the time that the legal debt margin was enacted by the State of California for local governments located within the state.

### RECREATION AND COMMUNITY SERVICES DEPARTMENT

# **MEMORANDUM**

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Don Penman, Interim City Administrator

By: Ismael Aguila, Recreation and Community Services Operations Manager

**DATE:** February 4, 2013

**SUBJECT**: Pool Pump – Request for Quimby Funds

#### **RECOMMENDATION:**

It is recommended that the City Council adopt a Resolution (Attachment "A") approving an allocation of Quimby Funds for a pool pump upgrade at the San Fernando Regional Pool Facility (Pool Facility) in the amount of \$17,121.73.

#### **BACKGROUND:**

- 1. On November 7, 2012, the 50-meter pool at the Pool Facility experienced water flow interruptions.
- 2. On November 8, 2012, Sea Clear Pool Service conducted diagnostic testing on the pool equipment and concluded that failure of the 50 horsepower (hp) pool pump was the cause of the water flow interruptions.
- 3. On November 18, 2012, a rental pump was located and installed to restore operations of the 50-meter pool until a new pump is purchased.
- 4. During November of 2012, Recreation and Community Services (RCS) staff contacted various vendors to request quotes for a new pump.
- 5. On December 8, 2012, RCS staff awarded a contract to Commercial Aquatics (the lowest bidder) to upgrade the 50-meter pool pump. When specifications for the pump were received, it was determined that the pump was redesigned with higher efficiency thus qualifying as an upgrade for use of Quimby Funds.
- 6. On December 26, 2012, Commercial Aquatics installed the pump upgrade at the Pool Facility.

Pool Pump – Request for Quimby Funds Page 2

### **ANALYSIS:**

### Pool Facility

The Pool Facility is comprised of three attractions that provide access to the community for aquatic programming which include:

- Competition Pool –Utilized for aquatic activities such as competition swim, water polo, diving, scuba diving, synchronized swimming, and lap swim. It contains approximately 750,000 gallons of water and requires a 50 hp recirculation pump to operate.
- Multi-use Pool Utilized for aquatic activities such as recreation swim, swim lessons, and small swim team activities. It contains 120,000 gallons of water and requires one 25 hp recirculation pump and three booster pumps to operate.
- Splash Pad Utilized for aquatic activities such as recreation swim. It requires one 2 hp recirculation pump and two booster pumps to operate.

### Paco Pump

The original pump for the competition pool was a Paco pump (model number 8015) that included double suction, split case, 13.23" impeller technology that provided 50 hp at 90% energy efficiency. This pump is no longer in production and thus was not available for purchase. The newly purchased Paco pump is similar, but has a redesigned impeller that allows for 98% energy efficiency thus qualifying for use of Quimby Funds.

#### **CONCLUSION:**

It is recommended that the City Council adopt a Resolution approving an allocation of Quimby Funds for the pool pump upgrade at the San Fernando Regional Pool Facility in the amount of \$17,121.73.

### **BUDGET IMPACT:**

There will be no budget impact to the General Fund for the Fiscal Year 2012-13.

### PUBLIC WORKS DEPARTMENT

# **MEMORANDUM**

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Don Penman, Interim City Administrator

By: Ron Ruiz, Public Works Director

**DATE:** February 4, 2013

**SUBJECT:** Award of Contract – On-Site Sodium Hypochlorite Generation System

#### **RECOMMENDATION:**

It is recommended that the City Council:

- a. Award a Contract to Severn Trent Water Purification, Inc. for the purchase and installation of an On-Site Sodium Hypochlorite Generation (OSG) System;
- b. Authorize the City Administrator to execute a Professional Services Contract with Severn Trent Water Purification, Inc. (Attachment "A") for an amount not to exceed \$164,400; and
- c. Authorize the City Administrator to approve a contingency not to exceed 10% of contract amount.

#### **BACKGROUND:**

- 1. On September 11, 2012, the Public Works Department published a Request for Proposal (RFP) for an OSG System.
- 2. On September 21, 2012, the City received one proposal in response to an RFP for an OSG System.
- 3. On November 19, 2012, City Council rejected the bid proposal.
- 4. On November 20, 2012, the Public Works Department republished an RFP for an OSG System.
- 5. On December 21, 2012, the City received one proposal in response to an RFP for an OSG System.

Award of Contract – On-Site Sodium Hypochlorite Generation System Page 2

#### **ANALYSIS:**

As part of the Nitrate Project, a new OSG System will be installed at the Lower Reservoir site located at 12900 Dronfield Avenue, Sylmar, CA 91342. This system is necessary to complete the Nitrate Treatment System as it will be used to inject chlorine into the treated water before it is distributed to City of San Fernando customers. This new system will be housed inside the new chlorination room that will be constructed as part of Phase 1B of the Nitrate Project. Currently, the City's other OSG systems are provided and serviced by Severn Trent Water Purification, Inc. This project work is included in the approved City budget for Fiscal Year (FY) 2012-13.

At the November 19, 2012 City Council meeting, the Council rejected the bid. Council felt the RFP was advertised for insufficient time therefore resulting in a sole response. During the rebid process, staff again sent out an invitation for the RFP to several companies that provide OSG systems. The RFP was again published on the City's website and other bid-related websites such as Bid America and Bid Net. Follow-up phone calls to three potential bidders were also conducted by staff to inform them of the RFP.

The reissuing of the RFP resulted again in receiving only one bid from the same bidder, Severn Trent Water Purification, Inc., with a bid amount of \$164,400. The bid amount is \$21,320 higher than the prior bid amount. The second bid process appears to confirm that there is little interest by other firms in bidding for this item. Given the results of the second bid process, it is unlikely that a third bid process would yield any better results. There is also the possibility that the existing bidder may choose to not bid again or raise the cost even higher if this item is rebid again. Therefore, staff recommends that the item not be rebid a third time.

### **CONCLUSION:**

Staff has analyzed the proposal and funding for the installation of the on-site chlorination system. Staff recommends award of the Contract to the sole responsive bidder; Severn Trent Water Purification, Inc. Staff recommends that this item not be bid again, since the process will not likely yield any better results.

### **BUDGET IMPACT:**

This item is included in the City Council approved budget for FY 2012-13 in Fund 70, Water, Division 384 Water Production.

- A. <u>City Representative</u>. For the purposes of this Agreement, the contract administrator and CITY's representative shall be the City Public Works Director (hereinafter the "City Representative"). It shall be CONSULTANT's responsibility to assure that the City Representative is kept informed of the progress of the performance of the services, and CONSULTANT shall refer any decisions which must be made by CITY to the City Representative. Unless otherwise specified herein, any approval of CITY required hereunder shall mean the approval of the City Representative.
- B. <u>Consultant Representative</u>. For the purposes of this Agreement, Kara Weber, Sales Engineer is hereby designated as the principal and representative of CONSULTANT authorized to act on its behalf with respect to the services specified herein and make all decisions in connection therewith (the "Responsible Principal"). The Responsible Principal may not be changed by CONSULTANT without the prior written approval of CITY.

#### 4. CONSULTANT'S PERSONNEL

- A. CONSULTANT represents that it has, or will secure at its own expense, all personnel required to perform the services required under this Agreement. All such services will be performed by CONSULTANT or under its supervision, and all personnel engaged in the work shall possess the qualifications, permits and licenses required by applicable law to perform such services.
- B. CONSULTANT shall be solely responsible for the satisfactory work performance of all personnel engaged in performing services required by this Agreement, and compliance with all reasonable performance standards established by CITY.
- C. In the event that CITY, in its sole discretion, at anytime during the term of this Agreement, desires the removal of any person or persons assigned by CONSULTANT to perform services pursuant to this Agreement, CONSULTANT shall remove any such person immediately upon receiving notice from CITY of the desire of CITY for the removal of such person or persons.
- D. CONSULTANT shall be responsible for payment of all employees' and subconsultants' wages and benefits and shall comply with all requirements pertaining to employer's liability, workers' compensation, unemployment insurance, and Social Security.
- E. <u>Permits and Licenses</u>. CONSULTANT shall obtain and maintain during the Agreement term all necessary licenses, permits and certificates required by law for the provision of services under this Agreement, including a City of San Fernando business license.

#### 5. FACILITIES AND EQUIPMENT

Except as otherwise authorized by CITY in writing, CONSULTANT shall, at its sole cost and expense, furnish all facilities and equipment which may be required for furnishing services pursuant to this Agreement.

#### 6. TERM OF AGREEMENT

This Agreement is effective as of the Commencement Date and shall terminate on the Expiration Date, unless sooner terminated as provided in Section 18 herein.

#### 7. COMPENSATION

- A. CITY agrees to compensate CONSULTANT for the services provided under this Agreement, and CONSULTANT agrees to accept in full satisfaction for such services, a sum not to exceed ONE HUNDRED SIXTY-FOUR THOUSAND FOUR HUNDRED DOLLARS (\$164,400.00). CITY shall not withhold applicable federal or state payroll or any other required taxes or other authorized deductions from each payment made to CONSULTANT. No claims for compensation in excess of the not-to-exceed amount for the Project will be allowed unless such compensation is approved by the City Administrator, in writing.
- B. <u>Additional Services</u>. No claims for additional services performed by CONSULTANT which are beyond the scope set forth in Exhibit A will be allowed unless such additional work is authorized by CITY in writing prior to the performance of such services. Additional services, if any are authorized, shall be compensated on a time and materials basis using CONSULTANT's Approved Fee Schedule (Exhibit B). Fees for such additional services shall be paid within thirty (30) days of the date CONSULTANT issues an invoice to CITY for such services.

#### 8. METHOD OF PAYMENT

CONSULTANT shall submit to CITY an invoice, on a monthly basis, for the services performed pursuant to this Agreement. Each invoice shall itemize the services rendered during the billing period and the amount due. Such itemizations shall include the days worked, number of hours worked by position, and authorized reimbursable expenses incurred with appropriate back-up documentation and receipts evidencing the authorized expenses, if any, for each day in the period and shall separately describe any additional services authorized by CITY. Any invoice claiming compensation for additional services shall include appropriate documentation of CITY's prior authorization. Within ten (10) business days of receipt of each invoice, CITY shall notify CONSULTANT in writing of any disputed amounts included on the invoice. Within thirty (30) calendar days of receipt of each invoice, CITY shall pay all undisputed amounts included on the invoice up to the maximum amount set forth in Section 7.

#### 9. OWNERSHIP OF WORK PRODUCT

All reports, documents or other written material ("written products") developed by CONSULTANT in the performance of this Agreement shall be and remain the property of CITY without restriction or limitation upon its use or dissemination by CITY. CONSULTANT may take and retain such copies of the written products as desired, but no such written products shall be the subject of a copyright application by CONSULTANT.

#### 10. TRAVEL REIMBURSEMENT

Travel required by CONSULTANT or any subconsultant or subcontractor pursuant to this Agreement shall be a reimbursable expense and shall only be made where necessary to complete the services agreed to be performed under this Agreement. Travel expenses shall be reasonable and shall be incurred in the most cost efficient manner possible. CITY will not pay for travel expenses to and from City Hall. All requests for travel reimbursement shall be accompanied by appropriate back-up documentation and receipts evidencing authorized expenses.

#### 11. INDEPENDENT CONTRACTOR

CONSULTANT will act hereunder as an independent contractor. This Agreement shall not and is not intended to constitute CONSULTANT as an agent, servant, or employee of CITY and shall not and is not intended to create the relationship of partnership, joint venture or association between CITY and CONSULTANT.

#### 12. CONFIDENTIALITY

All data, documents, discussion, or other information developed or received by CONSULTANT or provided for performance of this Agreement are deemed confidential and shall not be disclosed by CONSULTANT without prior written consent by CITY. CITY shall grant such consent if disclosure is legally required or necessary to provide the services under this Agreement. All CITY data shall be returned to CITY upon the termination of this Agreement. CONSULTANT's covenant under this Section shall survive the termination of this Agreement.

#### 13. CONFLICTS OF INTEREST

CONSULTANT hereby warrants for itself, its employees, and subcontractors that those persons presently have no interest and shall not obtain any interest, direct or indirect, which would conflict in any manner with the performance of the services contemplated by this Agreement. No person having such conflicting interest shall be employed by or associated with CONSULTANT in connection with this project. CONSULTANT hereby warrants for itself, its employees, and subcontractors that no such person shall engage in any conduct which would constitute a conflict of interest under any CITY ordinance, state law or federal statute. CONSULTANT agrees that a clause substantially similar to this Section shall be incorporated into any sub-contract that CONSULTANT executes in connection with the performance of this Agreement.

#### 14. INDEMNIFICATION

A. To the full extent permitted by law, CONSULTANT shall indemnify, hold harmless and defend CITY, its elected officials, officers, agents, employees, attorneys, servants, volunteers, successors and assigns from and against any and all claims, demands, causes of action, liability, losses, costs or expenses for any damage due to death or injury to any person and injury to any property resulting from any alleged intentional, reckless, negligent or otherwise wrongful acts, errors or omissions of CONSULTANT or any of its officers, employees, servants, agents, subcontractors, volunteers or any other person or entity involved by, for, with or on

behalf of CONSULTANT in the performance of this Agreement. Such costs and expenses shall include reasonable attorneys' fees incurred by counsel of CITY'S choice.

The parties understand and agree that the duty of CONSULTANT to indemnify and hold harmless includes the duty to defend as set forth in Section 2778 of the California Civil Code.

- B. CONSULTANT's obligations under this or any other provision of this Agreement will not be limited by the provisions of any workers compensation act or similar act. CONSULTANT expressly waives its statutory immunity under such statutes or laws as to CITY, its officers, agents, employees and volunteers.
- C. CONSULTANT agrees to obtain executed indemnity agreements with provisions identical to those in this Section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of CONSULTANT in the performance of this Agreement. In the event CONSULTANT fails to obtain such indemnity obligations for the benefit of CITY, CONSULTANT agrees to be fully responsible and indemnify, hold harmless and defend CITY, its officers, agents, employees and volunteers from and against any and all claims and losses, costs or expenses for any damage due to death or injury to any person and injury to any property resulting from any alleged, intentional, reckless, negligent or otherwise wrongful acts, errors or omissions of CONSULTANT or any of its officers, employees, servants, agents, subcontractors, volunteers or any other person or entity involved by, for, with or on behalf of CONSULTANT in the performance of this Agreement. Such costs and expenses shall include reasonable attorneys' fees incurred by counsel of CITY's choice.
- D. CITY does not, and shall not; waive any rights that it may possess against CONSULTANT because of the acceptance by CITY, or the deposit with CITY, of any insurance policy or certificate required pursuant to this Agreement. This hold harmless and indemnification provision shall apply regardless of whether or not any insurance policies are determined to be applicable to the claim, demand, damage, liability, loss, cost or expense. CONSULTANT agrees that CONSULTANT's covenant under this Section shall survive the termination of this Agreement.
- E. CONSULTANT agrees to pay all required taxes on amounts paid to CONSULTANT under this Agreement, and to indemnify and hold CITY harmless from any and all taxes, assessments, penalties, and interest asserted against CITY by reason of the independent contractor relationship created by this Agreement. CONSULTANT shall fully comply with the workers' compensation laws regarding CONSULTANT and CONSULTANT's employees. CONSULTANT further agrees to indemnify and hold CITY harmless from any failure of CONSULTANT to comply with applicable workers' compensation laws. CITY shall have the right to offset against the amount of any fees due to CONSULTANT under this Agreement any amount due to CITY from CONSULTANT as a result of CONSULTANT's failure to promptly pay to CITY any reimbursement or indemnification arising under this Section.

#### 15. INSURANCE

- A. CONSULTANT shall at all times during the term of this Agreement carry, maintain, and keep in full force and effect, insurance as follows:
  - 1. Commercial General Liability Insurance with minimum limits of One Million Dollars (\$1,000,000) for each occurrence and in the aggregate for any personal injury, death, loss or damage.
  - 2. Automobile Liability Insurance for any owned, non-owned or hired vehicle used in connection with the performance of this Agreement with minimum limits of One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.
  - 3. Worker's Compensation insurance as required by the State of California.
  - 4. Professional Liability Insurance with a minimum limit of One Million Dollars (\$1,000,000) per occurrence.
- B. CONSULTANT shall require each of its sub-consultants or sub-contractors to maintain insurance coverage that meets all of the requirements of this Agreement.
- C. The policies required by this Agreement shall be issued by an insurer admitted in the State of California and with a rating of at least A:VII in the latest edition of Best's Insurance Guide.
- D. CONSULTANT agrees that if it does not keep the insurance required in this Agreement in full force and effect, CITY may either immediately terminate this Agreement or, if insurance is available at a reasonable cost, CITY may take out the necessary insurance and pay, at CONSULTANT'S expense, the premium thereon.
- E. Prior to commencement of work under this Agreement, CONSULTANT shall file with CITY's Risk Manager a certificate or certificates of insurance showing that the insurance policies are in effect and satisfy the required amounts and specifications required pursuant to this Agreement.
- F. CONSULTANT shall provide proof that policies of insurance expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Such proof will be furnished at least two weeks prior to the expiration of the coverages.
- G. The general liability and automobile policies of insurance shall contain an endorsement naming CITY, its elected officials, officers, agents, employees, attorneys, servants, volunteers, successors and assigns as additional insureds. All of the policies shall contain an endorsement providing that the policies cannot be canceled or reduced except on thirty (30) days' prior written notice to CITY. CONSULTANT agrees to require its insurer to modify the certificates of insurance to delete any exculpatory wording stating that failure of the insurer to

mail written notice of cancellation imposes no obligation, and to delete the word "endeavor" with regard to any notice provisions.

- H. The insurance provided by CONSULTANT shall be primary to any other coverage available to CITY. Any insurance or self-insurance maintained by CITY, its officers, employees, agents or volunteers, shall be in excess of CONSULTANT's insurance and shall not contribute with it.
- I. All insurance coverage provided pursuant to this Agreement shall not prohibit CONSULTANT, and CONSULTANT's employees, agents, subcontractors, or volunteers from waiving the right of subrogation prior to a loss. CONSULTANT hereby waives all rights of subrogation against CITY.
- J. Any deductibles or self-insured retentions must be approved by CITY. At the option of CITY, CONSULTANT shall either reduce or eliminate the deductibles or self-insured retentions with respect to CITY, or CONSULTANT shall procure a bond guaranteeing payment of losses and expenses.
- K. If CONSULTANT is a Limited Liability Company, general liability coverage must be amended so that the Limited Liability Company and its managers, affiliates, employees, agents, and other persons necessary or incidental to its operation are insureds.
- L. Procurement of insurance by CONSULTANT shall not be construed as a limitation of CONSULTANT's liability or as full performance of CONSULTANT's duties to indemnify, hold harmless and defend under Section 14 of this Agreement.

#### 16. MUTUAL COOPERATION

- A. CITY shall provide CONSULTANT with all pertinent data, documents and other requested information as is reasonably available for the proper performance of CONSULTANT's services.
- B. In the event any claim or action is brought against CITY relating to CONSULTANT's performance in connection with this Agreement, CONSULTANT shall render any reasonable assistance that CITY may require.

#### 17. RECORDS AND INSPECTIONS

CONSULTANT shall maintain full and accurate records with respect to all matters covered under this Agreement for a period of three (3) years. CITY shall have access, without charge, upon reasonable notice, during normal business hours to such records, and the right to examine and audit the same and to make transcripts therefrom, and to inspect all program data, documents, proceedings, and activities.

#### 18. TERMINATION OF AGREEMENT

- A. CITY shall have the right to terminate this Agreement for any reason or for no reason on five (5) calendar days' written notice to CONSULTANT. CONSULTANT shall have the right to terminate this Agreement for any reason or no reason on ten (10) calendar days' written notice to CITY. CONSULTANT agrees to cease all work under this Agreement on or before the effective date of such notice. All completed and uncompleted products up to the date of receipt of written notice of termination shall become the property of CITY.
- B. In the event of termination or cancellation of this Agreement by CITY, due to no fault or failure of performance by CONSULTANT, CONSULTANT shall be paid based on the percentage of work satisfactorily performed at the time of termination. In no event shall CONSULTANT be entitled to receive more than the amount that would be paid to CONSULTANT for the full performance of the services required by this Agreement.

#### 19. FORCE MAJEURE

CONSULTANT shall not be liable for any failure to perform if CONSULTANT presents acceptable evidence, in CITY's sole judgment that such failure was due to causes beyond the control, and without the fault or negligence of CONSULTANT.

#### 20. NOTICES

Any notices, bills, invoices, or reports required by this Agreement shall be deemed received on: (a) the day of delivery if delivered by hand or overnight courier service during CONSULTANT's and CITY's regular business hours; or (b) on the third business day following deposit in the United States mail, postage prepaid, to the addresses heretofore below, or to such other addresses as the parties may, from time to time, designate in writing.

#### 21. NON-DISCRIMINATION AND EQUAL EMPLOYMENT OPPORTUNITY

In the performance of this Agreement, CONSULTANT shall not discriminate against any employee, subcontractor, or applicant for employment because of race, color, creed, religion, sex, marital status, national origin, ancestry, age, physical or mental handicap, medical condition, or sexual orientation or other basis prohibited by law. CONSULTANT will take affirmative action to ensure that subcontractors and applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, religion, sex, marital status, national origin, ancestry, age, physical or mental handicap, medical condition, or sexual orientation.

#### 22. PROHIBITION AGAINST ASSIGNMENT

CONSULTANT shall not delegate, transfer, subcontract or assign its duties or rights hereunder, either in whole or in part, without CITY's prior written consent, and any attempt to do so shall be void and of no effect. CITY shall not be obligated or liable under this Agreement to any party other than CONSULTANT.

#### 23. ATTORNEY'S FEES

In the event that CITY or CONSULTANT commences any legal action or proceeding to enforce or interpret the provisions of this Agreement, the prevailing party shall be entitled to recover its costs of suit, including reasonable attorney's fees.

#### 24. ENTIRE AGREEMENT

All documents referenced as exhibits in this Agreement are hereby incorporated in this Agreement. In the event of any material discrepancy between the express provisions of this Agreement and provisions of any document incorporated by reference, the provisions of this Agreement shall prevail. This instrument contains the entire Agreement between CITY and CONSULTANT with respect to the subject matter herein. No other prior oral or written agreements are binding on the parties. Any modification of this Agreement will be effective only if it is in writing and executed by CITY and CONSULTANT.

#### 25. GOVERNING LAW; JURISDICTION

This Agreement shall be governed by and construed in accordance with the laws of the State of California. In the event of litigation between the parties, venue in State trial courts shall lie exclusively in Los Angeles County. In the event of litigation in a United States District Court, exclusive venue shall lie in the Central District of California.

#### 26. SEVERABILITY

Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be valid under applicable law. If any provision of this Agreement is determined by a court of competent jurisdiction to be invalid, void or unenforceable, the remaining provisions shall nevertheless continue in full force and effect.

#### 27. CAPTIONS

The captions used in this Agreement are solely for reference and the convenience of the parties. The captions are not a part of the Agreement, in no way bind, limit, or describe the scope or intent of any provision, and shall have no effect upon the construction or interpretation of any provision herein.

#### 28. EXECUTION

This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which when taken together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.

#### **EXHIBIT A**

#### SCOPE OF SERVICES

The scope of services shall include, but may not necessarily be limited to the following:

#### I. One ClorTec® CT-150 or equivalent

Provide NSF certified on-site sodium hypochlorite generation equipment capable of producing 150-lbs per day chlorine equivalent. The equipment shall consist of the following:

#### Factory Pre-Assembled Equipment Mounted on Skid:

- 1 Each- Epoxy based powder coated carbon steel skid with brine proportioning system, drain valve, acid cleaning by-pass valves, solenoid valve, pressure regulator and flow switch
- 2 Each75 PPD (34 kg/day) DSA titanium electrodes with temp/level controls, DC Copper connection points and safety covers, assembled in a clear acrylic housing. Factory plumbed and mounted on above skid.
- 1 Each- Control Cabinet factory mounted on skid with:
  - Epoxy powder coated steel, NEMA 4 enclosure
  - 6" color touchscreen display
  - Allen Bradley MicroLogix 1100 PLC
  - Built-in blower control
  - Ethernet/IP communication protocol
  - All necessary I/O points
  - Safety interlocks
- 1 Each- Transformer Rectifier in a NEMA 4 enclosure:

Oil-cooled DC power supply/rectifier, soft start constant current with built-in DC volt/amp display, emergency shut-off switch

#### Factory Pre-Assembled Equipment Provided as a Loose Assembly:

1 Each- Hydrogen dilution system consisting of one blower with factory pre-assembled check valve

#### **Equipment Provided As Loose Items:**

2 Each- 20 Micron 10" inline filters in clear PVC housing

| 1 Each- | 500 gallon HDLPE (4'5" D x 5'1" H) brine maker/storage tank with level controls, lid, fittings, and drain. |
|---------|--|
| 1 Each- | 1700 gallon HDXLPE, (6'1" D x 9'7" H) hypochlorite storage tank with lid, fittings, and drain.             |
| 1 Each- | Ultrasonic level sensor for hypochlorite tank level control  |
| 1 Each- | Differential pressure switch with orifice plate (for hydrogen dilution system)                             |
| 1 Each- | Hydrogen detector for generator room (required safety feature)   |
| 1 Each- | Maintenance Kit  |

#### **Dosing Equipment:**

1 Each- Dosing Pump skid, with two diaphragm metering pumps (one duty/one standby) each capable of 75 GPH at 145 psi (10 bar). Each pump is factory pre-piped and

mounted on a polypropylene skid and includes:

TEFC Motor

• VFD enclosures for pump control

The duty pump also includes:

- Back pressure valve
- Pressure relief valve
- Calibration column
- Y strainer
- Pulsation dampner

#### Spare Parts:

| 1 Lot-  | Spare fuses for control panel   |
|---------|---|
| 1 Each- | Spare parts kit for each of the supplied brine pumps                  |
| 1 Each- | Spare parts kit for each of the supplied metering pumps               |
| 1 Each- | Spare level and temperature switch assembly for the electrolytic cell |

#### II. Technical Services

#### **Engineering and Documentation:**

- Two hard copies and one electronic set of shop drawings and product data submittals
- Two hard copies and one electronic file of Operations and Maintenance Manuals

#### Installation Services:

- Four eight-hour man-days to perform installation services as listed above Included:
  - Setting and mounting of the provided equipment including the anchor bolts for the provided equipment when applicable
  - Plumbing of the interconnecting piping, pipe supports, valves and fittings between the provided equipment
  - o Plumbing of hydrogen dilution venting
  - o PVC conduits and wiring between provided equipment

#### Excluded:

- Power to any equipment
- Disconnects to any equipment
- Underground electrical conduit and plumbing to any equipment including conduit, piping, valves and fittings between provided equipment
- Roof penetrations
- Installation of storage tanks seismic restraints
- o Installation of hypochlorite injection line and corporation stop
- o Analyzer Drain
- Wall Corings

#### Startup and Training:

- Three eight-hour man-days to perform startup and commissioning
- One eight-hour man-day training sessions for owners operating personnel
- The above listed services must be provided by a trained technician or a factory authorized third party.

#### CITY COUNCIL

#### **MEMORANDUM**

**TO:** Mayor Antonio Lopez and Councilmembers

**FROM:** Councilmember Joel Fajardo

**DATE:** February 4, 2013

**SUBJECT**: Fourth of July Fireworks Celebration and December Holiday Parade

\_\_\_\_\_

#### **RECOMMENDATION:**

I have placed this on the agenda for City Council discussion and consideration. Furthermore, it is recommended that the City Council take one of the following actions:

- a. Designate a representative to fundraise for the Fourth of July Fireworks Celebration and to return \$10,000 to the Fund 17 Account; or
- b. Cancel the Fourth of July Fireworks Celebration for 2013; or
- c. Table this matter to a future date.

#### **BACKGROUND/ANALYSIS:**

The Fourth of July firework celebration has been a tradition in San Fernando for more than two decades. This tradition started after the City of Los Angeles prohibited the City of San Fernando from selling fireworks. Last year, the fundraising efforts for the celebration fell short by approximately \$10,000. To offset this shortage, funds were used from the Fund 17 Account, which is normally used for other items, such as recreational programs.

On January 28, 2013, the Recreation and Community Services Manager Ismael Aguila advised the Education, Parks, Arts, Health, Youth and Aging (EPAH) Standing Committee meeting that funds were not presently allocated for the fireworks celebration. Furthermore, Mr. Aguila stated that he and his staff were not in a position to raise such funds for the event. The City would need approximately \$26,000 by mid May for the event to take place.

The City Council should determine whether to pursue the fireworks celebration, cancel it, or table the matter. In making a decision, council members should take note that the city may face a similar predicament with the December Holiday Parade, which is unfunded at the present time.

#### **MEMORANDUM**

**TO:** Councilmembers

**FROM:** Mayor Antonio Lopez

**DATE:** February 4, 2013

**SUBJECT:** Discussion to Consider Declaring Ficus Trees a Public Nuisance

#### **RECOMMENDATION:**

It is recommended that the City Council:

a. Declare all Ficus trees as a public nuisance and undesirable throughout the City; and

b. Direct staff to prepare ordinance to be presented to City Council at an upcoming City Council meeting.

#### **ANALYSIS:**

To be provided during council meeting.

#### **CONCLUSION:**

It is my assessment that it shall be unlawful for any person to plant Ficus trees. The existence of this tree is potentially harmful to the public, and the removal of the tree is strongly encouraged. It is recommended that this undesirable tree be removed during the improvement of a lot or parcel. Staff shall provide Council with a recommendation of native trees to use as the replacement trees.

### Ficus' Shady Reputation Prompts Change in Scenery

Landscape: Onetime savior is now causing problems, such as ruining sidewalks. Some areas put palms in instead.

March 13, 1996 | LARRY GORDON | TIMES STAFF WRITER

Whether clipped into lollipop shape or allowed to spread thick evergreen canopies, ficus trees have transformed the look of Southern California cities from San Diego to San Luis Obispo. They also have garnered great affection and, more recently, blossoming antagonism.

Hailed as a miracle tree able to thrive under tough urban conditions, two ficus varieties commonly called "Indian laurel fig" were planted in enormous numbers throughout Southern California in the late '50s and early '60s. But the trees grew into troubled maturities with unanticipated harvests of cracked sidewalks, invaded sewer lines, blocked street signs and expensive prunings.

As a result, some neighborhoods and cities now are ripping out Ficus microcarpa nitida and its close cousin, Ficus microcarpa retusa, and replacing them with different species. Many other areas are considering similar changes, stirring debate over how the region should dress itself in greenery.

"It was sold as the tree to plant. But they are an absolutely horrible, horrible street plant," said Ken Ayers, public works director in Gardena, which took out 70 mature Ficus microcarpa from Gardena Boulevard last year and switched to palms.

Brea, Hollywood, San Fernando, Ventura and Glendale, among others, also have removed Indian laurel from some streets. Most cities, at the minimum, have stopped planting new ficus.

In Anaheim and Santa Ana, ficus trees have fallen off the cities' list of recommended trees to plant.

"Every time you plant a ficus tree, because of its root structure and as soon as the tree starts maturing, you're going to have problems," said Paul Emery, Santa Ana's maintenance service manager.

"A ficus tree has not been planted in Santa Ana in more than 10 years," Emery said.

The Ficus microcarpa's reversal of fortune again can alter dramatically the appearance of Southern California streetscapes, experts say. Native to Malaysia and India, ficus trees with their light gray bark and lustrous green, pinched-oval leaves now connote California elegance and affluence, partly through their carefully manicured presence in Beverly Hills.

The look of California greenery has changed several times before. Native oaks and sycamores fell to grazing and housing tracts. Previous generations planted massive amounts of other nonnative trees such as palms and eucalyptus.

Still, the many ficus lovers are quick to allege that their removal is horticultural massacre. In Ventura last year, the chopping down of two dozen ficus as part of a Main Street revitalization project sparked petitions, street theater protests and the arrest of one man who chained himself to a doomed tree in front of a thrift shop.

In many cases, ficus are being replaced by palm trees. That trendy switch upsets fans of the dense shade and vibrant green that ficus trees add to otherwise hot and drab boulevards.

"My description of a palm tree is telephone pole with a cowlick," said Victoria Hochberg, a Hollywood neighborhood activist. "It does not provide any shade. It does not provide any feeling of safe harbor. It does not provide a place where you can sit and read, an encompassing space that provides solace and peace."

Because ficus trees provide those qualities, she mourns the removal last year of large ficus during roadwork and redevelopment on Highland Avenue near the Hollywood Bowl and the year before on Hollywood Boulevard.

## Los Angeles Pays Damages as Ficus Jungle Breaks Up Sidewalks

By Nadja Brandt - Jul 01, 2008

July 1 (Bloomberg) -- The bill is coming due for Los Angeles, decades after ficus trees were planted to supply shade for a city bathed in sunshine almost year-round.

The thrusting roots of mature ficus are tearing up sidewalks, triggering complaints and lawsuits.

- ``Ficus trees are notorious supersizers," said Pieter Severynen, an arborist and landscape architect with North East Trees, a nonprofit environmental group in Los Angeles.
- ``Almost everything grows in Southern California. It becomes a curse when the cute little tree you planted turns into a monster."

<u>Los Angeles</u> budgeted \$8.4 million in May toward mending 4,000 miles (6,400 kilometers) of damaged sidewalks, said Victoria Villa-Agustin, an analyst at the <u>Bureau of Street Services</u>. It paid about \$415,000 to settle 99 claims involving tree mishaps from July 2007 through April 2008, according to documents provided by Frank Mateljan of the City Attorney's office.

`The people that have contacted us usually suffer strains or sprains from falling over tree roots or uprooted sidewalks," said Steven Glickman, a personal injury lawyer for Glickman & Glickman in Beverly Hills. Other claims are for limbs from ficus and other trees falling on houses, cars or people.

Developers lined neighborhood walkways with trees as they built houses to accommodate the burgeoning population of Los Angeles and its suburbs in the 1950s and '60s. They favored the <u>Ficus microcarpa</u>, whose broccoli-shaped crown can grow to more than 40 feet (12 meters) in diameter. Ficus roots can stretch as far as 90 feet from the trunk, Severynen said.

`They have been way overplanted, and planted where there was no room for them," he

said. ``They can be a nightmare."

#### **Fatal Blow**

In Anaheim, efforts to rein in growth of a ficus proved fatal for Michael Gandy, a resident of the town 25 miles south of Los Angeles. Gandy, 49, was killed last year when a 50-foot- tall ficus fell on his parked car.

His family alleged that the town had pruned the tree's roots, making it unstable. Anaheim agreed in February to pay Gandy's relatives \$700,000 in an out-of-court settlement, said David Nunley, the city's claims manager.

`The danger to pedestrians plus the cost to the infrastructure is immeasurable," said Helga McGinnis, 70, referring to the ficus trees on a main thoroughfare in nearby Whittier. ``Older people or people with disabilities definitely can't walk there."

Fixing tree-damaged sidewalks was homeowners' headache until the city government took responsibility under a 1973 ordinance. Los Angeles is asking private property owners to share the cost under the <u>50/50 Voluntary Sidewalk Reconstruction and Repair Program</u>, started three years ago.

#### Palms. Elms

The Ficus microcarpa, also known as Chinese banyan or laurel fig, is related to smaller ficus varieties that are potted for use indoors or on patios. It represents about 9 percent of trees along Los Angeles streets, while palms are the most common, said Ronald Lorenzen, the city's assistant chief forester. Chinese flame goldenrains, American sweet gums and Chinese elms also are prevalent.

The ficus, an evergreen native to Southeast Asia, does more than shield against the sun.

``Give a big ficus a chance and it will clean the air, even if it tears up the sidewalk in the process," Severynen said.

Every \$1 spent on a tree returns about \$1.91 in benefits, such as reducing energy use, removing carbon dioxide from the air and absorbing rainfall, Lorenzen said.

**Drought-Tolerant Trees** 

Ficus isn't on the planting list as Los Angeles adds to its tree population under Mayor Antonio Villaraigosa's Million Trees project, started two years ago. Participants are encouraged to choose native varieties that withstand drought better. They may include coastal live oak, valley oak, California sycamore, California walnut and California bay trees, Lorenzen said.

The city, neighborhoods, businesses, and individuals are planting and caring for a million new trees where they are needed most, such as schools and underserved communities.

`We are trying to learn from past mistakes," Lorenzen said. `We are trying to give trees the optimum space and work with urban developers to make sure they are putting the right tree in the right place."

In <u>Santa Monica</u>, 15 miles west, a grass-roots community group calling itself <u>Treesavers</u> is petitioning officials to preserve trees. The city is moving some mature ficus to help reduce problems and plans to replace others.

For 23 of the ficus, it found a permanent solution: Maintenance workers sawed them down.

# A Ficus Grows Out of the Fifth Story of a Broadway Building

Thursday, January 24, 2013, by Adrian Glick Kudler

The office conversion at the former Zobel Building on Broadway is uncovering all kinds of interesting things—first it was the original (restored) 1911 facade and now it's a mysterious 12-foot-tall ficus tree growing right out of the building's southern wall, five stories up, rising "well above the roofline and a rooftop structure that houses the top of the old elevator shaft," according to the *Downtown News*. A construction superintendent on the renovation project (which will add a sixth story and a groundfloor bar) "has searched the building many times trying to find the tree roots. He has inspected the elevator shaft and the walls on every floor for other signs of the tree, but except for the part that grows on the wall, he has found nothing." No one ever waters the thing, but it appears to be doing just fine. The superintendent says that "The tree has been here maybe five or six years ... In the last year alone it's grown twice the size." (Now sometimes they light it up at night.)

A tree curator tells the paper that it's not totally unheard of for a ficus to just set up shop wherever; all they need is a little moisture and something to grab ahold of. But the tenacious tree is headed for its doom: the fire department says the developer will have to remove it (he says he'll offer it up to whoever wants it). The tree is also on the side of the building that will get a new version of the "Calle"

de la Eternidad" mural that for many years graced the building's facade.
