SAN FERNANDO CITY COUNCIL
SPECIAL MEETING NOTICE & AGENDA

JULY 15 2013 – 4:00 PM

**COMMUNITY MEETING ROOM
117 MACNEIL STREET
SAN FERNANDO, CA 91340**

NOTICE IS HEREBY GIVEN that the San Fernando City Council will hold a Special Meeting on **Monday, July 15, 2013, at 4:00 p.m.**, in the Community Meeting Room, located at 117 Macneil Street,, San Fernando, California.

CALL TO ORDER/ROLL CALL

PLEDGE OF ALLEGIANCE

Mayor Antonio Lopez

APPROVAL OF AGENDA

PUBLIC STATEMENTS – WRITTEN/ORAL

There will be a three (3) minute limitation per each member of the audience who wishes to make comments in order to provide a full opportunity to every person who desires to address the City Council. Only matters contained in this notice may be considered.

STUDY SESSION

1) REFUSE SERVICES REQUEST FOR PROPOSALS

R3 Consulting Group will provide a presentation which will include key issues regarding the first draft of the Request for Proposals, procurement timeline, franchise agreement or pavement impact fee, customer billing process, and the contract term.

SAN FERNANDO CITY COUNCIL
SPECIAL MEETING NOTICE & AGENDA – JULY 15, 2013
PAGE 2

2) WAYFINDING SIGN PROJECT

Recommend that the City Council review, comment, and provide final approval of the style and sign locations regarding the wayfinding signage.

3) SAFE ROUTES TO SCHOOLS PROJECT

Recommend that the City Council provide direction regarding the Safe Routes to Schools grant funded projects which consist of pedestrian safety improvements at public and private schools throughout the City.

ADJOURNMENT

I hereby certify under penalty of perjury under the laws of the State of California that the foregoing agenda was posted on the City Hall bulletin board not less than 24 hours prior to the meeting.

Elena G. Chávez, City Clerk

Signed and Posted: July 11, 2013 (2:30 p.m.)

Agendas and complete Agenda Packets (including staff reports and exhibits related to each item) are posted on the City's Internet Web site (www.sfcity.org). These are also available for public reviewing prior to a meeting in the City Clerk's Office. Any public writings distributed by the City Council to at least a majority of the Councilmembers regarding any item on this regular meeting agenda will also be made available at the City Clerk's Office at City Hall located at 117 Macneil Street, San Fernando, CA, 91340 during normal business hours. In addition, the City may also post such documents on the City's Web Site at www.sfcity.org. In accordance with the Americans with Disabilities Act of 1990, if you require a disability-related modification/accommodation to attend or participate in this meeting, including auxiliary aids or services please call the City Clerk's Office at (818) 898-1204 at least 48 hours prior to the meeting.

PUBLIC WORKS DEPARTMENT**MEMORANDUM**

TO: Mayor Antonio Lopez and Councilmembers

FROM: Don Penman, Interim City Administrator
By: Ron Ruiz, Public Works Director

DATE: July 15, 2013

SUBJECT: Refuse Services Request for Proposals

R3, the consultant retained by the City for assistance with the refuse services procurement, has completed a first draft of the Request for Proposals (RFP). A number of key issues are included in the draft and staff, with the assistance of the consultant, is making the City Council aware of these issues to establish general consensus. The consultant will provide a slide presentation at the meeting to discuss the following issues and others:

- Procurement Timeline
- Franchise Agreement or Pavement Impact Fee
- Pay As You Throw (PAYT) - Customers are charged a rate based on how much waste they produce for collection which can be measured by weight or size. Some of the benefits of PAYT is more equitable rate structure and encourages customers to minimize waste. Currently, customers are charged a flat rate and pay the same fee unless additional services are requested
- Customer Billing Process – City billing vs. contractor
- Contract Term
- CNG vs. other fuels

PUBLIC WORKS DEPARTMENT**MEMORANDUM**

TO: Mayor Antonio Lopez and Councilmembers

FROM: Don Penman, Interim City Administrator
By: Ron Ruiz, Public Works Director

DATE: July 15, 2013

SUBJECT: Wayfinding Sign Project

Please find attached conceptual graphics, prepared by Fuel Creative Group, for the Wayfinding Sign Project, which is being funded with a Housing and Urban Development (HUD) Economic Development Initiative (EDI) grant. The Project consists of the design, manufacturing, and installation of wayfinding signage to guide motorists to key destinations and parking facilities in the City. The conceptual graphics prepared by the consultant include two styles to choose from as shown on pages 03.00 (Program I) and 03.01 (Program 2). Sign locations are shown on the sign location map on page 04.00 with the accompanying pages showing details for each of the locations. Staff is seeking comments and final approval of the style and sign locations.

Materials, Colors and Finishes

DRAWING WILL BE INSERTED ONCE DESIGN DIRECTION IS CHOSEN

This document was created by FUEL Creative Group (FUEL). It is expected that the builder of this sign package meet all of the following quality and performance requirements. Acceptance of these drawings by the Sign Builder constitutes agreement to comply with the following conditions.

1. General

A. Proprietary Information

All designs, instructions, layouts, and plans contained in these drawings are the property of the Owner (City of San Fernando) for use on this specific project. This information is confidential and may only be distributed in association with a bid request, or to the Sign Builder selected to fabricate the final sign package. Permission from the Owner must be obtained in writing before disseminating this information to any other individuals.

B. Interpretation of Drawings

When reviewing these Drawings...

- 1. Written dimensions take precedence over any other implied dimension.
- 2. Material notes take precedence over materials visually implied on the drawings.

2. Pre-fabrication

A. Proposal Requirements

- 1. The proposal shall include all costs needed to complete fabrication, and installation of all items in this document, including but not limited to: materials, labor, engineering, permitting requirements and equipment. The proposal shall adhere to all Fabrication, performance and material requirements detailed in this document.
- 2. For purpose of comparison, when bidding on this project, use all of the specific materials and fabrication methods called out in this document. Substitution of materials or methods outlined in this package will make a bid non-responsive and subject to disqualification.

B. Construction Drawings

- 1. This package contains design drawings only. Builder must provide shop drawings to the Owner for final approval.

C. Submittals

- 1. The selected Sign Builder is responsible for providing all submittals as outlined in this bid package (See Sheet 00-00ii and 00-00iii). The Owner will review all submittals to make sure design integrity is maintained. All other requirements are the responsibility of the Sign Builder.

All materials and finishes are subject to revisions prior to final approval of all submittals. Submittals must be received with enough time to review and maintain schedule.

3. Removal/Fabrication/Installation Requirements

A. Removal & Installation of Signs

The City will be removing and installing all signs. Builder will consult with the City to ensure proper fabrication for each location.

B. Permitting and Code Compliance Requirements

The Sign Builder will secure and pay for all required permits, inspections, insurances and tests required by Local, State and Federal agencies. The Sign Builder is also responsible for verifying that all elements of this document meet all code requirements including ADA, OSHA and any environmental regulations. Any revisions to this document or resulting shop drawings must be approved by the Owner prior to fabrication.

C. Sign Engineering/Structure Requirements/Additional Engineering Costs

Sign Builder is responsible for all engineering required by law to build these signs. Please include engineering costs in your bid—engineering is not included or provided in this document.

D. Electrical Requirements

Sign builder is responsible for supplying all required electrical and electrical conduits for these signs. It is suggested that the Sign Builder survey they site to ensure they include all needed electrical work as the Owner will be supplying the site as-is. All work must be in compliance with NEC and all other required codes. All components to be UL listed.

- 1. A list of electrical requirements will be provided to Owner along with all necessary location drawings etc. This will be provided in a timely manner that allows the project to maintain schedule. Sign builder is responsible for all electrical work, this list is FYI only.
- 2. All electrical hardware installed will be concealed (i.e. not detectable by any normal means from vehicular or pedestrian traffic). All components are easily accessible for servicing.
- 3. All electrical components shall be warranted against failure for at least 1 year. Within that period, defective components will be replaced by the Sign Builder within 48 hours of notification of the problem by the Owner. If the Sign Builder fails to replace the defective components within 48 hours, these items may be replaced by others at the Sign Builder's expense.

E. Lighting Requirements

The Sign builder is responsible for the design of all internal lighting elements and structures called for in these drawings.

- 1. All components will be easily accessible for servicing.
- 2. Unless otherwise specified, the internal space of all lit signs will be painted matte white to enhance reflectivity.
- 3. All components will follow required codes or regulations and manufacturers recommendations.
- 4. All neon components shall be warranted against failure for at least three years. All other lighting components shall be warranted against failure for at least 1 year. Within that period, defective components will be replaced by the Sign Builder within 48 hours of notification of the problem by the Owner. If the Sign Builder fails to replace the defective components within 48 hours, these items may be replaced by others at the Sign Builder's expense.

F. Labeling Requirements

Unless otherwise required by code, labels (manufacturer's or otherwise) shall not appear on any completed element. Placement of required labels requires written approval from the Owner or Lionakis prior to application or installation.

G. Fonts and Other Artwork Requirements

FUEL will provide digital layouts for all signs in .eps format or as requested (if a supported format). All final layouts are the responsibility of the Sign Builder. All fonts required shall be purchased by the Sign Builder. No substitution of fonts will be allowed. All other artwork, photos or illustrations, will be purchased by the Sign Builder and licensed to the City. Upon job completion, all artwork will be removed from the Sign Builders computers or facilities and delivered to the City along with copies of the license information.

H. Site Coordination Requirements

The enclosed location plans are approximate. The Sign Builder is responsible for verifying all final locations. The sign builder will place stakes at all installation locations showing the location and facing of each sign and receive written approval of locations prior to installation. If a discrepancy is found between this document and the actual site, or if field conditions prohibit sign placement or functionality the Sign Builder will notify the Owner, and suggest a resolution and receive written approval before beginning production.

- 1. All required footings, connections, electrical conduits, mounting and fasteners are the responsibility of the Contractor/Sign Builder.

I. Safety and Responsibility Requirements

The Sign Builder is responsible for all necessary precautions to ensure public and property safety during sign installation.

SHALL BE USED TO MATCH THE ILLUSTRATION.

4. Material Requirements

A. New Material Requirement

All materials used to fabricate any and all components will be new and taken from the newest of the Sign Builders supply of that material.

B. Free From Defect Requirement

All materials used to fabricate any and all components will be free from defects of any kind.

C. Paints and Finishes

All paints and finishes shall match exactly the color, finish, texture and manufacturer noted. All pretreats, primers, coatings, finishes, paints etc. shall be applied in strict accordance with the manufacturer's specifications and recommendations to ensure the highest possible level of UV light resistance, weatherability and overall longevity for both the materials indicated and any and all environmental conditions which exist at the final install locations.

- 1. All paints and finishes shall be warranted against failure (color fading, UV damage, cracking, peeling, blistering or any other defect) for at least five years from date of Owners acceptance.

D. Metals

Metals shall be free of defects impairing strength, durability or appearance. Unless otherwise noted all metals shall be the best commercial quality for the purposes specified, and all visible seams are to be continuously welded, filed and ground smooth. Any and all sheet metal shall have brake formed edges with radii not greater than sheet thickness. All metals must be treated to prevent corrosion and staining of other finishes.

E. Fasteners

Unless otherwise noted, all fasteners will be corrosion and oxidation resistant and tamper-proof. Unless noted, all fasteners will be painted to match adjacent surfaces. Concealed fasteners will be corrosion and oxidation resistant to prevent staining of other surfaces.

F. Vinyl

All vinyl shall match the colors and finishes noted exactly. Unless noted, all vinyl shall be applied in strict accordance with the manufacturer's specifications and recommendations to ensure the highest possible level of UV light resistance, weatherability and overall longevity for both the materials indicated and any and all environmental conditions which exist at the final install locations.

- 1. All vinyl shall be warranted against failure (color fading, UV damage, cracking, peeling, blistering or any other defect) for at least five years from date of Owners acceptance.

5. Project Completion

A. Paints and Finishes

The Sign Builder shall notify the Owner, the General Contractor and Lionakis/Owner, in writing, when all work has been completed. Upon notice, Lionakis and Merced College will review all work in accordance with their contract with the Owner and prepare a punch list detailing any unsatisfactory items. The repair/replacement of any work detailed on the punch list will be coordinated between the Owner and the Sign Builder.

B. Final Deliverables

Upon final Owner acceptance of the work, the Sign Builder will provide the owner with four copies of complete service and maintenance manuals for all products and finishes used in all components of the job. These manuals shall include, but is not limited to, warranty information, routine maintenance recommendations, manufacturer data and product specification etc.

C. Warranties

Unless stated differently above, all installed elements shall be warranted against manufacturers defects, and defects in installation or workmanship for a minimum of one year.

- 1. All warranty periods shall begin on the date of Owner's acceptance of the work.

PUBLIC WORKS DEPARTMENT**MEMORANDUM**

TO: Mayor Antonio Lopez and Councilmembers

FROM: Don Penman, Interim City Administrator
By: Ron Ruiz, Public Works Director

DATE: July 15, 2013

SUBJECT: Safe Routes to Schools Project

Staff is seeking any further direction regarding the upcoming Safe Routes to Schools grant funded projects which consists of pedestrian safety improvements at public and private schools throughout the City. The City received three grants for total of \$2,589,650 for three phases of improvements to be constructed over approximately three years. The first phase will consist of stop bars, bulb-outs, curb ramps, countdown and audible crossing modules, which is planned for construction in Fiscal Year 2013-14.

The project locations and concepts are provided as an attachment. Schools benefitting from the improvements in the first phase include Gridley Elementary School, Glenoaks School Triumph Charter Academy, Vista del Valle Elementary, Morningside Elementary School, San Fernando Elementary School, O'Melveny Elementary School, St. Ferdinand's School, Santa Rosa School, San Fernando Early Education Center, St. Simon School, and the Evangelical Lutheran School (currently vacant).

ATTACHMENT:

A. Project Locations and Concepts

Safe Routes To School Projects

San Fernando School Route Improvement Program Phase 2 2007 Grant Application Project List

1. 8th St. at Leach St.

4. 8th St. at Fernment St.

- Add bulb-outs (2) on north side
- Add double perpendicular curb ramps to bulb-outs

existing

proposed

2. 8th St. at Lazard St.

- Add high visibility crosswalks on east and north sides
- Add bulb-outs to cross Lazard St. on north, and 8th St. on east (4)
- Add double perpendicular curb ramps to bulb-outs
- Add raised crosswalk to cross 8th St. on east side
- Add center pedestrian sign on raised crosswalk (R1-6)
- Add pedestrian crossing warning signs (Assembly A) approaching Lazard St. from the west.

existing

proposed

3. 8th St. at Orange Grove Ave**5. 8th St. at Harding Ave**

- Add high visibility crosswalks on all 4 crossings
- Add bulb-outs on all 8 corners
- Add double perpendicular curb ramps to all bulb-outs
- Add center pedestrian sign on all 4 crossings (R1-6)

existing

proposed

6. 8th St. just east of Maclay Ave

- Add missing sidewalk on north side in two segments (53' & 37')

existing

proposed

7. Orange Grove Ave. at 7th St.

- Add high visibility crosswalks on all 4 crossings

**8. Orange Grove Ave. at Lucas St.**

- Add high visibility crosswalks to all 4 crossings
- Add advanced stop bars to all 4 crossings
