Request for Information No. 1 (Revised)　　　　　　　　**August 9, 2021**

Project:　San Fernando Mall Bollard Installation

_____

Question #1: Do you know the amount of liquidated damages and engineers estimate for this project?

Answer #1: The amount for Liquidated Damages is per the Greenbook, Section 6-9, in the amount of $250 per day. The engineer's estimate is $95,000.

Question #2: Can you also confirm whether this project is subject to a PLA (Project Labor Agreement), a CWA (Community Workforce Agreement), a PSA (Project Stabilization Agreement), a CBA (Collective Bargaining Agreement), or anything of that nature?

Answer #2: This is a public works project so the contractor must be registered with the DIR and pay prevailing wages. It is not subject to PLA (Project Labor Agreement), a CWA (Community Workforce Agreement), a PSA (Project Stabilization Agreement), or a CBA (Collective Bargaining Agreement).

Question #3: Please confirm that only an email submission of this proposal is required.

Answer #3: Yes, only an email of the proposal is required.

Question #4: Will a bid bond be required for this proposal? If so, will the City provide a bid bond form?

Answer #4: Yes, a bid bond is required. Please refer to Addendum #1 on our City's webpage (https://ci.san-fernando.ca.us/rfps-rfqs-nibs-nois/)   for Bid Bond Form

Question #5: Please confirm the due date for this proposal is Wednesday, August 18, 2021 at 5:30pm

Answer #5: That is the correct date and time.

Question #6: Is there a job walk scheduled?

Answer #6: No job walk is scheduled for this project.

Question #7: Can a C-13 bid this project directly?
Answer #7: Yes, as long they have completed similar projects.

Question #8: Is there a set date in which work will begin?
Answer #8: Work shall begin in the month of September.

Question #9: What is the duration for this project?
Answer #9: The proposed term of the project is thirty (30) working days.

Question #10: Is there any mandatory participation requirements such as SBE/DVBE/DBE etc. set for this project??
Answer #10: No.
