AGENDA REPORT

To: Chair Jason Hayes and Commissioners

From: Julian J. Venegas, Director of Recreation and Community Services

Date: November 8, 2022

Subject: Discussion Regarding Potential Commission Action Items

RECOMMENDATION:

It is recommended that the Parks, Wellness, and Recreation Commission:

- a. Discuss the items introduced at the September 13, 2022 Parks, Wellness, and Recreation Commission meeting that may potentially develop into action items; and
- b. Provide staff with direction as appropriate.

BACKGROUND:

1. The San Fernando City Council created the Parks, Wellness, and Recreation Commission (PWRC) to advise and make recommendations to the City Council on matters related to the operation and implementation of programs, services, and facilities of the Recreation and Community Services Department.
2. Article II, PARKS, WELLNESS AND RECREATION COMMISSION Sections 54-28 – 54-67 of the City's Municipal Code (Attachment "A") govern the actions of the PWRC. In particular, sections 54-63 on "Powers and Duties", provides a guide on how the PWRC should make recommendations to the City Council for consideration.
3. On September 13, 2022, Commissioner Sanchez-Brooks introduced several items to be agendized for discussion. The items include maintenance, security and lighting at the bike path, a community garden, a dog park, and an all abilities playground.

ANALYSIS:

Mission City Trail-Bike Path

Although the Mission City Trail Bike Path is a recreation feature in the City, maintenance of the

path falls under the direction of the Public Works Department. The Public Works Department has recently invested more department staff resources to address safety and cleanliness issues along the trail. Public Works plans to install solar lighting along the 1.4 mile bike trail to enhance safety.

Metro has a plan to build the North San Fernando Valley Transit Corridor Project that will improve east-west transit service in the North San Fernando Valley. The Mission City Trail will run along this corridor, which restricts the building of any permanent structure along the trail.

Community Garden

The Parks and Recreation Master Plan adopted by City Council in 2018 identifies several park facilities needed in the City. However, the plan also reported that the City of San Fernando is a built-out community, which hinders the development of new park space for recreational programming.

The scarcity of land to build a new recreation facility is challenging, but building on existing city land may be an option for new park programming. Depending on the size of a proposed community garden, the PWRC may look at existing parkland for a community garden project.

The PWRC must take into account how a community garden project would be funded. Several NGO's earmark grant funds toward community garden projects. However, those grants are highly competitive and require considerable staff resources needed for the application process. Most grants require community input that is incorporated into the application.

Dog Park

At the August 8, 2022 City Council meeting, staff was directed to look at the possibility of building a dog park in the City. This directive was expanded at the October 3, 2022 City Council meeting, to include the possibility of building other park developments and updating the Parks and Recreation Master Plan. The goal is to determine if the Parks and Recreation Master Plan still meets the needs of the community.

Staff will be developing a Request for Proposals for consulting services to assist the Recreation and Community Services Department in updating the Parks and Recreation Master Plan. The possibility of building a community garden and a dog park will both be investigated. A major component of updating the Parks and Recreation Master Plan will be gathering input from residents, stakeholders, and user groups through the community engagement process.

All Abilities Playground

The Recreation and Community Services Department is addressing the ADA accessibility issue for all of the park playgrounds. Three park renovation projects include a modification to an existing playground or bundling new playgrounds that are all abilities accessible. The park renovations that address ADA accessibility are the Layne Park Revitalization Project, the Las Palmas Revitalization Project, and the Pioneer Park Playground Renovation Project.

BUDGET IMPACT:

There is no budget impact for discussing the items introduced at the September 13, 2022 PWRC meeting. However, as cited in Article II, section 54-67 of the City Municipal Code, “Neither the Commission nor any person connected with the Commission shall incur any financial liability in the name of the City.”

Any projects, programs special events, or cultural activity recommended to City Council shall be accompanied by identified outside funds subject to City Council approval for implementing the Commission’s recommendation.

CONCLUSION:

It is recommended that the Parks, Wellness, and Recreation Commission discuss the items introduced at the September 13, 2022, PWRC meeting and provide staff with direction as appropriate.

Subject: Report and Updates Regarding Park Renovation Projects

RECOMMENDATION:

It is recommended that the Parks, Wellness, and Recreation Commission (PWRC):

- a. Receive and file a report updating the PWRC on the current park renovation projects; and
- b. Provide staff with direction as appropriate.

BACKGROUND:

1. The Recreation and Community Services (RCS) Department is currently managing three park renovation projects. The projects include the Layne Park Revitalization Project, the Las Palmas Park Revitalization Project, and the Pioneer Park Playground Renovation Project.
2. The City partnered with the Wild Horse Foundation in 2019 to establish sports programs and social services for the North San Fernando Valley community. The agreement with the Wild Horse Foundation included a renovation to the field house located at Pioneer Park. This facility became known as Puig's House and would serve as a home base for the Foundation's programs and services.

ANALYSIS:**Layne Park Revitalization Project**

The design phase of the Layne Park project has been completed. RCS staff released a Notice Inviting Bids (NIB) requesting proposals for the construction of the Layne Park project on May 2, 2022. The available funds for construction were \$912,941. The engineer's cost estimate for the construction of the project is \$1,300,000.

A job walk for prospective bidders' was held at Layne Park to explain the revitalization project.

Staff from MIG (design firm), Public Works and the Recreation and Community Services Department facilitated the job walk detailing the renovation elements for the park. Four companies participated in the job walk, which included R.E. Schultz Construction, Inc., KASA Construction, Inc., Marina Construction, and Environmental Construction, Inc. Of the four companies that participated in the job walk only KASA Construction submitted a proposal for the project. Their bid is \$1,374,635.

At the October 3, 2022, City Council meeting, City Council members approved an allocation of an additional \$461,694 to fill the gap, and construct all of the renovations proposed in the project design. The Layne Park Revitalization Project will transform the neighborhood park and provide recreational opportunities for the residents. The park amenities that will be built include:

- A Restroom Facility
- A Sod Turf Soccer Field and Goals with a 10' High Wire Mesh Fence
- A Basketball Half Court with a 10' High Wire Mesh Fence
- ADA Playground Equipment Upgrades, Shaded Area
- Picnic Tables
- Educational Nature Feature "Bioswale"
- Drought Tolerant Landscaping and Trees
- A Decomposed Granite and Concrete Pathway, including Site Furnishings
- Green Alleyway 6'-8' Shrubs Along South Alleyway
- Three Rail Fencing at North Alleyway

A groundbreaking ceremony for the project is being planned for Mid-November. The exact day and time of the event are to be determined.

Las Palmas Park Revitalization Project

The RCS Department has identified RJM Design Group, Inc. to provide consulting services that will produce the project design, engineers' cost estimates, and construction specification documents for the Las Palmas Park Project. Staff has also released a Request for Proposals (RFP) to assist the RCS Department in gathering community feedback on what the vision of the Las Palmas Park Revitalization Project could be. Once the community engagement consultant is on board, a series of meetings will be held to gather residents' input.

The Las Palmas Park Revitalization Project will renovate the major recreation features of the park and some of the indoor features as well. The grant scope of the renovations includes:

- Renovation of the Playground Adding ADA Accessibly and Shading
- Renovation of the Basketball Court with Lighting
- Construction of a New Tennis/Pickleball Court with Lighting
- Construction of a New Splash Pad

- Renovation of Three Baseball Fields with Lighting
- Renovation of the Concession Stand
- Renovation of the Outside Restrooms
- Construction of a New Multi-Purpose Field with Lighting
- Renovation of the Outdoor Exercise Equipment
- Renovation of the Picnic Shelters and Walking Path Lighting
- Construction of New Landscaping Throughout the Park
- Renovation of the Recreation Center/Learning Center Including 2 Patio Restrooms

Similar to the Layne Park project, the final design of the Las Palmas Park Revitalization Project will depend on the community's input. However, any major recreation feature that is changed or altered significantly must be approved by the State.

Pioneer Park Playground Renovation Project

The Recreation and Community Services Department has released a Notice Inviting Bids for the design and installation of a new playground and outdoor exercise equipment at Pioneer Park. The renovation design for the project shall incorporate community feedback from the Pioneer Park neighborhood residents.

The major features of the renovation include ADA accessibility, inclusive play elements, and shading for the playground area. In addition, the renovation will include outdoor exercise equipment adjacent to the playground.

The firm selected to provide community engagement for the Las Palmas Park project will also gather feedback for this project as well. Addressing ADA accessibility for our playgrounds is very important to the City Council. All three park renovation projects will include design elements to make the City's parks and playgrounds all abilities accessible.

Puig's House

The Wild Horse Foundation has completed renovating the inside of the Puig House. The Foundation still needs to install kitchen equipment and office furniture. The outside back patio will have decomposed granite and a fence will surround the house in the future.

The Foundation's plan to provide youth sports and social service programs has not materialized to date. The Covid-19 shutdown created a great void in service for the foundation. The RCS Department is actively looking for NGO's to collaborate with in order to provide programs and services for the residents in and around Pioneer Park.

BUDGET IMPACT:

There is no budget impact with discussing the park renovations project update report.

CONCLUSION:

It is recommended that the Parks, Wellness, and Recreation Commission receive and file a report updating the PWRC on the current park renovation projects, and provide staff with direction as appropriate.

Subject: Discussion Regarding Developing a Community Theatre Program

RECOMMENDATION:

It is recommended that the Parks, Wellness, and Recreation Commission:

- a. Discuss establishing a Community Theatre program in the City of San Fernando; and
- b. Provide direction to staff as appropriate.

BACKGROUND:

1. On or about September 10, 2020, the Recreation and Community Services Department hosted a meeting to establish a community theatre program in San Fernando. This initial meeting created synergy and enthusiasm among the meeting participants. Starting a community theatre looked promising and additional meetings were held to begin the planning process for the program
2. Due to the Covid-19 pandemic, all of the RCS Department programs were shut down. The only programming the Department offered was virtual. The online platform for conducting activities was not conducive to a Community Theatre program. Hence, the once vibrant individuals who showed interest in the program faded away, and the program was at a standstill.

ANALYSIS:

One of the biggest takeaways from the stoppage of the Community Theatre program is the need for a theatre director. This would require an individual with the ability to hold the program together. The misstep the Department took was to rely on volunteers to conduct the program. This was exacerbated by the pandemic shutdown.

A Theatre Director would provide the consistency the program would need to survive difficult situations. The Theatre Director position can be a community volunteer, staff from a partnering agency, or Department staff.

It is recommended that the PWRC discuss how the Community Theatre program can be established in the City of San Fernando, and present ideas that the RCS Department can act upon.

BUDGET IMPACT:

There is no budget impact with discussing the development of a Community Theatre program.

CONCLUSION:

It is recommended that the Parks, Wellness, and Recreation Commission discuss developing a community theatre program for the City of San Fernando, and provide staff with direction as appropriate.
