

THE CITY OF

SAN FERNANDO

SUPPLEMENTAL ITEM NO. 4 AGENDA REPORT

To: Mayor Celeste T. Rodriguez and Councilmembers

From: Nick Kimball, City Manager
By: Matthew Baumgardner, Director of Public Works

Date: February 6, 2023

Subject: Consideration to Approve Increase to Compressed Natural Gas Retail Fuel Rate

BACKGROUND:

Due to the volatile state of current natural gas prices triggered by inventories on the West Coast being well below the five-year average, reduced pipeline capacity and constraints in gas deliveries to California, Public Works staff will make the following change to the Agenda Report amending staff's recommendation for City Council approval as follows:

"It is recommended that the City Council approve an increase to the City's per gallon equivalent (PGE) Compressed Natural Gas (CNG) PGE retail fuel **up to \$6.52.**"
