UPDATE ON THE SAN FERNANDO PARK OPPORTUNITY PLAN (SF POP) – Robert Douglas with KDI provided a presentation updating on the various community engagements consisting of three focus groups, walk audits and meetings with staff. Focus groups consisted of youth from the TBC program and seniors from the community. Some of the top priorities identified include more activities including dances, dog parks, community gardens, safety concerns, and skate parks. Priority locations were discussed during the walk audit.

KDI is currently conducting GIS studies to identify available spaces while considering demographics and population in the City. Next steps include review of the priorities and site selection, coordinating an additional walk audit of top sites, and scheduling community design workshops.

Subject: San Fernando Police Department Update on Park Activity

RECOMMENDATION:

It is recommended that the Parks, Wellness and Recreation Commission:

The recreational value of parks is integral to the well-being of the community and its residents, offering spaces for leisure, exercise, and social interaction. However, amid the serene environment of these public areas, parks also become focal points for various activities, both constructive and detrimental. As guardians of public safety, the City of San Fernando Police Department has diligently monitored and analyzed the trends in park activity and crime to ensure the continued enjoyment and safety of all park-goers.

The quarterly report aims to provide an overview of the recent activity and crime trends observed within the parks under the department's jurisdiction, which are the following:

- Recreation Park, 208 Park Ave.
- Layne Park, 120 N. Huntington St.

- Las Palmas Park, 505 S. Huntington St.
- Pioneer Park, 828 Harding Ave.
- Rudy Ortega Senior Park, 2025 Fourth St.

The quarterly report will include a San Fernando City Parks Crime Trends table (Attachment A) illustrating information regarding police reports, moving citations, parking citations, traffic collisions and Community Resource Management (CRM's) that occurred in and around the parks. The report will also provide a map view of the City with color-coded citations (Attachment B) to provide an overview of the information reported on the table.

AGENDA REPORT

To: Chair Robert Gonzales and Commissioners

From: Julio Salcedo, Director of Recreation and Community Services
By: Maribel Perez, Recreation and Community Services Supervisor

Date: July 11, 2024

Subject: Update on the Pioneer Park Playground Renovation Project

RECOMMENDATION:

It is recommended that the Parks, Wellness and Recreation Commission:

- a. Receive and file this update report on the Pioneer Park Playground Renovation Project.

BACKGROUND:

1. On November 9, 2023, staff presented two additional playground designs to the Parks, Wellness and Recreation Commission (PWRC), which incorporated the ideas gathered from the community. The PWRC considered all optional design elements put forth by residents and concurred that the most important design element that should be considered was additional shading for the playground.
2. On December 4, 2023, staff presented all design options to the City Council for final approval. The City Council considered the feedback collected from the community engagement meetings, as well as the recommendations from the PWRC, and directed staff to return with a final design option that focused on maximum shade coverage with fewer gaps for sunlight to get through.
3. On January 16, 2024, City Council approved Design Option 7 with maximum shade coverage over the playground area.

ANALYSIS:

The Pioneer Park Playground Renovation Project aims to revitalize the existing playground area, making it a safer, more engaging, and inclusive space for the community. The design focuses on creating a multifunctional and aesthetically pleasing environment that encourages physical

activity, imaginative play and social interaction. Key features of the renovation include age appropriate equipment, inclusive play structures, musical elements and shade coverage.

The playground design underwent considerable review beginning with the residents through the community engagement process, followed by review from the PWRC who then provided their recommendations for City Council consideration. On December 4, 2023, staff presented the City Council with a report outlining the results of the three community engagement meetings and the PWRC's recommendations. In addition to the original design, the report presented two additional designs that were developed based on the feedback that was received through the community engagement process.

In response to City Council discussion and direction on December 4, 2023, Great Western provided a fourth design, Design Option No. 7 (Attachment "A"), which delivers the most robust shade canopy installation, covering the majority of the playground area and minimizing the gaps in between the shade sails. Installation of this Design Option will require 12 columns at different heights varying from eight to 19 feet high from which five separate custom shade sails will be attached to provide optimal coverage.

The revised design was presented to City Council on January 16, 2024. Council approved design option 7 and directed staff to move forward with the project. The new design increased the cost of the overall project by \$254,961 for a total project cost of \$620,293. Construction is expected to begin mid-June with an estimated completion date of August 31, 2024. Next steps include working with Public Works and Great Western to conduct proper community engagement in regards to the next phase of the project and coordinating the official groundbreaking of the project.

CONCLUSION:

It is recommended that the Parks, Wellness and Recreation Commission receive and file this update report on the Pioneer Park Playground Renovation Project.
